ANALYSIS OF REGIONAL ROADWAY SAFETY OUTCOMES**I. METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS**

The Metropolitan Washington Council of Governments (“COG”) is the regional organization of the Washington area's 24 major local governments and their governing officials, plus area members of the Maryland and Virginia legislatures and the U.S. Senate and House of Representatives.

COG provides a focus for action on issues of regional concern such as comprehensive transportation planning, air and water quality management, environmental monitoring, tracking economic development and population growth and their effects on the region, coordinating public safety programs, and promoting child care and housing for the region. COG is supported by financial contributions from its participating local governments, federal and state government grants and contracts, and through grants and contracts from foundations and the private sector.

The *National Capital Region Transportation Planning Board (“TPB”)* is responsible for coordinating transportation planning at the regional level in Northern Virginia, Suburban Maryland and the District of Columbia. The TPB is the federally designated Metropolitan Planning Organization (“MPO”) for the region and plays an important role as the regional forum for transportation planning. The TPB prepares plans and programs that the federal government must approve for federal-aid transportation funds to flow to the Washington region.

Members of the TPB include representatives from the transportation agencies of the states of Maryland, Virginia, and the District of Columbia, local governments, the Washington Metropolitan Area Transit Authority (“WMATA”), the Maryland and Virginia General Assemblies, non-voting members from the Metropolitan Washington Airports Authority (“MWA”), and federal agencies.

The TPB was created in 1965 by local and state governments in the Washington region in response to a requirement in 1962 highway legislation mandating the establishment of official MPOs. The TPB became associated with COG in 1966, serving as COG’s transportation policy committee.

II. PROJECT OVERVIEW

As part of the Travel Monitoring and Research task contained in the Fiscal Year 2019 Unified Planning Work Program (“UPWP”), TPB is commissioning a study and seeking a qualified contractor to analyze the factors behind the safety outcomes throughout the National Capital Region (“NCR”).

Recent federal rulemakings require MPOs, including the TPB, to set targets for five (5) federally-defined highway safety performance measures on an annual basis. A resolution

establishing an initial set of regional highway safety targets was adopted by the TPB in January 2018. In the months preceding this action, the TPB, the TPB Technical Committee, and the Transportation Safety Subcommittee reviewed a range of regional transportation safety data and learned about ongoing and planned state-level safety improvement efforts in Maryland, Virginia, and the District of Columbia.

While each state, as well as many of the region's local jurisdictions, is committed to dramatically reducing the number and rate of fatalities and serious injuries, the outcomes, as revealed by the federally-defined performance measures, vary considerably across the NCR.

A desire has been expressed by some committee members to find out more about the factors that are producing differing safety outcomes in different jurisdictions across the region. Traffic fatalities in the NCR increased between 2016 and 2017 indicating that safety performance is deteriorating and that current fatality targets are not likely to be achieved.

III. SCOPE OF WORK

- A. The first phase of the study will be an analysis of highway safety data, including the National Highway Traffic Safety Administration's Fatality Analysis Reporting System (FARS) and state-reported data for the region.
 1. This will include collection and analyses of crash contributing factors that may include driver behavior, roadway conditions, vehicle types, time of day, weather, and roadway functional classification.
 2. The analysis will consider the relationship of other factors such as land use, work zones, and congestion to observed safety outcomes.
 3. The study will also include a review of the safety situation of select group of large multi-state MPOs across the United States and provide a summary of where the NCR stands relative to its peers.
- B. The second phase of the study will synthesize the findings from the first phase and identify the factors and corridors that most contribute to the observed safety outcomes in the region as well as the types of projects, programs, strategies, and policies that have the greatest potential to improve these outcomes.
 1. These will be identified through a literature review process focusing on published safety research.
 2. The results of this study will be used to inform COG staff efforts to strengthen the NCR's transportation planning process with respect to safety and to develop effective ways to help the region's various jurisdictions and transportation agencies meet the safety targets adopted by the TPB.
- C. Both phases of the study will be documented in a single report as well as a database, which will be utilized by COG staff in future years.
 1. The study will be supported by Contractor resources.

2. Oversight of the Contractor's work will be through COG staff. A technical advisory panel consisting of a representative from each TPB member state DOT will also support the study: The District of Columbia Department of Transportation (DDOT), the Maryland Department of Transportation (MDOT), and the Virginia Department of Transportation (VDOT), collectively referred to as the State DOTs.
 3. The TPB's Unified Planning Work Program funds are being used for this study.
- D. Funding for this effort is split evenly between fiscal year 2019 and fiscal year 2020. The funding for fiscal year 2020 is subject to availability upon approval of the FY2020 UPWP.

IV. PROPOSED TASK BREAKDOWN:

The specific tasks to be performed and deliverables to be completed by the Contractor to successfully complete the scope of work are as follows:

A. Task 1: Initial project kickoff and scope finalization

1. Immediately following Notice to Proceed from the COG Project Manager assigned to this project, the Contractor and the COG Project Manager will coordinate and hold a project kickoff meeting where the technical advisory panel and the Contractor will finalize the project scope.
2. This will be set no later than thirty (30) days following the Notice to Proceed. From this meeting, a draft plan of work will be developed, roles and responsibilities will be assigned, and a regular meeting schedule will be determined.
3. With the exception of a potential optional Task 6, the finalized project scope will conform in scale to the scope of work contained in this RFP. As a result, it is anticipated that the finalized scope of work resulting from this task will not require a modification in the value of the awarded contract.
4. ***Deliverables: Final scope of project, roles and responsibilities, scheduled meetings***

B. Task 2: Determination of TPB standing with benchmark peers

1. Based on the final work plan from Task 1, the Contractor will provide a summary overview of how the NCR compares with three (3) of its peer metropolitan areas with respect to high-level safety statistics and the types of projects, programs, strategies, and policies that are in place to improve safety.
2. This should also include information on MPO adopted highway safety targets and the role of the MPOs in safety planning and programming for those metropolitan areas.
3. ***Deliverables: Draft report summarizing how the NCR compares with peer metropolitan areas***

C. Task 3: Collection and Analysis of safety data

1. The Contractor will collect and analyze available highway safety data, including the National Highway Traffic Safety Administration's Fatality Analysis Reporting System (FARS) and state-reported data for the NCR.¹
2. They will analyze, from a multi-state regional perspective, the relevant crash contributing factors. These may include but are not limited to, driver behavior, roadway conditions, vehicle types, time of day, weather, and roadway functional classification.
3. If feasible, the Contractor will also collect data on and consider the relationship of other factors such as, but not limited to, land use, work zones, and congestion to observed safety outcomes.
4. This task is anticipated to be complete by June 30, 2019.
5. **Deliverables: Database and map files**

D. Task 4: Synthesize Findings and Report Creation

1. The Contractor will synthesize the findings from Task 3 and identify the factors and corridors that most contribute to the observed safety outcomes in the region, as well as, the types of projects, programs, strategies, and policies that have the greatest potential to improve these outcomes.
2. As part of this task, the Contractor will identify any of the resulting projects, programs, strategies, and policies that are particularly applicable to implementation by local jurisdictions or by the TPB. Contractor will document the results of the previous tasks into a draft report with accompanying narrative, charts, tables, and maps to convey the key research findings, with technical appendices as needed.
3. Draft document will be reviewed by COG Manager, COG staff, and State DOT staff for comments.
4. ***Deliverable: Draft report (pdf or Word) based on findings in Task 4***

E. Task 5: Final Report and Presentations

1. Contractor shall finalize the report based on COG Project Manager and COG staff review and comment on the Task 4 deliverable.
2. The final report shall be delivered digitally and shall conform to COG/TPB formatting standards and branding guidelines. Contractor shall distribute the final report with sufficient lead time prior to the end of the contract to allow the COG Project Manager ten (10) business days for review of the final report. Contractor shall also produce and deliver a PowerPoint presentation for conveying study findings to TPB Technical Committee, Transportation Safety Subcommittee and other interested stakeholders.
3. The final report is anticipated to be complete by November 30, 2019.

¹ Note: The Contractor will collect and analyze the data and shall not expect COG staff to do any collection, compilation, or analysis of the data.

4. Deliverable: Final Study Report (pdf or Word plus 10 hard copies) and Presentation (PowerPoint).

F. Optional Task 6: Additional Services

1. Having reviewed the above tasks, the contractor may, based on their safety expertise, identify additional services for consideration by COG in their proposal.
2. Those additional services should include:
 - a. Description
 - b. Price
 - c. Deliverables
 - d. Time for completion.

V. SPECIAL CONDITIONS

If the SUBRECIPIENT fails to remedy to COG's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within the ten (10) working days after receipt by the SUBRECIPIENT of written notice from COG setting forth the nature of said breach or default, COG shall have the right to terminate the Contract without further obligation to the SUBRECIPIENT. Any such termination for default shall not in any way operate to preclude COG from also pursuing all available remedies against the SUBRECIPIENT and its sureties for said breach or default.

4. In the event COG elects to waive its remedies for any breach by the SUBRECIPIENT of any covenant, term or condition of this Contract, such waiver by COG shall not limit COG's remedies for any succeeding breach of that or any other term, covenant, or condition of this Contract.

K. Civil Rights Requirements. 29 U.S.C. § 62, 42 U.S.C. § 2000, 42 U.S.C. § 602, 42 U.S.C. § 12112, 42 U.S.C. § 12132, 49 U.S.C. § 5332

1. Nondiscrimination. In accordance with Title VI of the Civil Rights Act, as amended, 42 U.S.C. § 2000d, section 303 of the Age Discrimination Act of 1975, as amended, 42 U.S.C. § 6102, section 202 of the Americans with Disabilities Act of 1990, 42 U.S.C. § 12132, and all other provisions of federal law, the SUBRECIPIENT agrees that it will not discriminate against any employee or applicant for employment because of race, color, creed, national origin, sex, age, or disability. In addition, the SUBRECIPIENT agrees to comply with applicable federal implementing regulations. The clauses of Appendix A and E of the U.S. DOT Standard Title VI Assurances (USDOT 1050.2A) are incorporated herein by reference.
2. Equal Employment Opportunity. The following equal employment opportunity requirements apply to the underlying contract:
 - a. Race, Color, Creed, National Origin, Sex. In accordance with Title VII of the Civil Rights Act, as amended, 42 U.S.C. § 2000e, the SUBRECIPIENT agrees to comply with all applicable equal employment opportunity requirements of U.S. Department of Labor (U.S. DOL) regulations, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," 41 C.F.R. Parts 60 et seq. (which implement Executive Order No. 11246, "Equal Employment Opportunity," as amended by Executive Order No. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," 42 U.S.C. § 2000e note), and with any applicable federal statutes, executive orders, regulations, and federal policies that may in the future affect activities undertaken in the course of this PROJECT. The SUBRECIPIENT agrees to take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, creed, national origin, sex, or age. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. In addition, the SUBRECIPIENT agrees to comply with apprenticeship. In addition, the SUBRECIPIENT agrees to comply with any implementing requirements the funding federal agency may issue.
 - b. Age. In accordance with section 4 of the Age Discrimination in Employment Act of 1967, as amended, 29 U.S.C. § 623 and other applicable law, the SUBRECIPIENT agrees to refrain from discrimination against present and prospective employees for reason of age. In addition, the SUBRECIPIENT agrees to comply with any implementing requirements the funding federal agency may issue.
 - c. Disabilities. In accordance with section 102 of the Americans with Disabilities Act, as amended, 42 U.S.C. § 12112, the SUBRECIPIENT

agrees that it will comply with the requirements of U.S. Equal Employment Opportunity Commission, "Regulations to Implement the Equal Employment Provisions of the Americans with Disabilities Act," 29 C.F.R. Part 1630, pertaining to employment of persons with disabilities. In addition, the SUBRECIPIENT agrees to comply with any implementing requirements the funding federal agency may issue.

3. The SUBRECIPIENT also agrees to include these requirements in each subcontract financed in whole or in part with federal assistance, modified only if necessary to identify the affected parties.

L. Breaches and Dispute Resolution.

1. Disputes. Disputes arising in the performance of this Contract which are not resolved by agreement of the parties shall be decided in writing by the COG Executive Director or his/her designee. This decision shall be final and conclusive, unless within ten (10) working days from the date of receipt of its copy, the SUBRECIPIENT mails or otherwise furnishes a written appeal to the Executive Director or his/her designee. In connection with any such appeal, the SUBRECIPIENT shall be afforded an opportunity to be heard and to offer evidence in support of its position. The decision of the Executive Director or his/her designee shall be binding upon the SUBRECIPIENT, and the SUBRECIPIENT shall abide the decision.
2. Performance During Dispute. Unless otherwise directed by COG, the SUBRECIPIENT shall continue performance under this Contract while matters in dispute are being resolved.
3. Claim for Damages. Should either party to the Contract suffer injury or damage to person or property because of any act or omission of the party or of any of its employees, agents or others for acts it is legally liable, a claim for damages therefore shall be made in writing to such other party within a reasonable time after the first observance of such injury or damage.
4. Remedies. Unless this Contract provides otherwise, all claims, counterclaims, disputes and other matters in question between COG and the SUBRECIPIENT arising out of or relating to this agreement or its breach may be submitted by the parties for arbitration if the parties mutually agree, otherwise, such claims, counterclaims, disputes and other matters shall be decided by a court of competent jurisdiction within the District of Columbia.
5. Rights and Remedies. The duties and obligations imposed by the Contract and the rights and remedies available there under shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law. No action or failure to act by COG or the SUBRECIPIENT shall constitute a waiver or any right or duty afforded to them under the Contract, nor shall any such action or failure to act

constitute an approval of or acquiescence in any breach there under, except as may be specifically agreed in writing.

M. Patent and Rights in Data.

1. Rights in Data. The following requirements apply to each contract involving experimental, developmental or research work:
 - a. The term "subject data" used in this clause means recorded information, whether or not copyrighted, that is delivered or specified to be delivered under the contract. The term includes graphic or pictorial delineation in media such as drawings or photographs; text in specifications or related performance or design-type documents; CDs or flash drives (thumbsticks/thumbdrives) containing data; and any other information retained in computer memory. Examples include, but are not limited to: computer software, engineering drawings and associated lists, specifications, standards, process sheets, manuals, technical reports, catalog item identifications, and related information. The term "subject data" does not include financial reports, cost analyses, and similar information incidental to contract administration.
 - b. The following restrictions apply to all subject data first produced in the performance of the contract to which this Attachment has been added:
 - i. In accordance with 49 C.F.R. § 18.34 and 49 C.F.R. § 19.36, the Federal Government reserves a royalty-free, non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, for "Federal Government purposes," any subject data or copyright described in subsections M.2.a and M.2.b of this clause below. As used in the previous sentence, "for Federal Government purposes," means use only for the direct purposes of the Federal Government. Without the copyright owner's consent, the Federal Government may not extend its federal license to any other party.
 - (1) Any subject data developed under that contract, whether or not a copyright has been obtained; and
 - (2) Any rights of copyright purchased by the Purchaser or the SUBRECIPIENT using federal assistance.
2. Patent Rights. The following requirements apply to each contract involving experimental, developmental, or research work:
 - a. General - If any invention, improvement, or discovery is conceived or first actually reduced to practice in the course of or under the contract to which this Attachment has been added, and that invention, improvement, or discovery is patentable under the laws of the United States of America or any foreign country, the Purchaser and the

SUBRECIPIENT agree to take actions necessary to provide immediate notice and a detailed report to the party at a higher tier until the federal funding agency is ultimately notified.

- b. Unless the Federal Government later makes a contrary determination in writing, irrespective of the SUBRECIPIENT status (a large business, small business, state government or state instrumentality, local government, nonprofit organization, institution of higher education, individual), the Purchaser and the SUBRECIPIENT agree to take the necessary actions to provide, through the federal funding agency, those rights in that invention due the Federal Government as described in the U.S. Department of Commerce regulations, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," 37 C.F.R. Part 401.
- c. The SUBRECIPIENT also agrees to include the requirements of this clause in each subcontract for experimental, developmental, or research work financed in whole or in part with federal assistance.

N. Interest of Members of Congress.

No member of, or delegates to, the Congress of the United States shall be admitted to a share or part of this Contract or to any benefit arising there from.

O. Interest of Employees of COG.

No employee of COG who exercises any functions or responsibilities in review or approval of the undertaking or carrying out the PROJECT during his or her tenure or one (1) year thereafter, shall have any personal interest, direct or indirect, apart from his or her official duties, in this Contract or the proceeds thereof.

P. Interest of the SUBRECIPIENT.

The SUBRECIPIENT covenants that it has presently no financial interest, shall not acquire any financial interest, direct or indirect, which would conflict in any manner or degree with the performance of services required to be performed under this Contract. The SUBRECIPIENT further covenants that, in the performance of this Contract, no person having any such interest shall be employed.

Q. Allowable Costs.

Only those costs which are consistent with Title 2 Part 200 of the Code of Federal Regulations shall be reimbursed under this Contract.

R. Covenant Against Contingent Fees.

The SUBRECIPIENT warrants that it has not employed any person to solicit or secure this Contract upon any agreement for a commission, percentage, brokerage or contingent fee. Breach of warranty shall give the Contracts Officer the right to terminate this Contract or, in his discretion, to deduct from the Contract price or consideration the amount of such commission, percentage, brokerage or contingent fees. This warranty shall not apply to commissions payable by the SUBRECIPIENT upon contracts or sales secured or made through a bona fide established commercial or selling agency maintained by the SUBRECIPIENT for the purpose of securing business.

S. Indemnification.

The SUBRECIPIENT, acting as an independent SUBRECIPIENT, shall hold COG harmless from and shall be solely responsible, where found liable, for the payment of any and all claims for loss, personal injury, death, property damage, or otherwise, arising out of any act of omission or negligence of its employees or agents in connection with the performance of this work.

T. Severability.

It is understood and agreed by the parties that if any of these provisions shall contravene, or be invalid under, the laws of the particular state, county or jurisdiction where used, such contravention or invalidity shall not invalidate the whole agreement, but the Contract shall be construed as of not containing the particular provision or provisions held to be invalid in the said particular state, county or jurisdiction and the rights and obligations of the parties shall be construed and enforced accordingly.

U. Assignments.

This Contract shall not be assigned, sublet or transferred in whole or in part by the SUBRECIPIENT, except with the previous written consent of the COG Contracting Officer or his designee.

V. Entire Agreement.

This Contract sets forth the entire understanding of the parties and supersedes all previous agreements, whether oral or in writing, relating to the subject matter hereof. This Contract may only be altered, amended or modified in accordance with Changes Clause of this Contract.

W. Confidential or Personal Data.

1. COG respects the privacy or business interests involved in confidential or personal data. It is COG's policy to obtain confidential or personal data or store or allow storage of such data only (i) when necessary to fulfill COG's

information-gathering and data collection responsibilities, or (ii) in conjunction with COG projects. COG intends to minimize risk of disclosure of such confidential or personal data.

2. Whenever feasible and the requirements of a project allow, the names of survey participants or users of a website or other data collection method shall not be accepted, recorded, stored or retained.
3. When COG engages in a project, which involves the collection or storage of confidential or personal information by or through use of surveys, websites or by other data collection, the following conditions shall be met:
 - a. The survey, website or other collection method shall contain a set of conditions for use and a disclaimer of any COG liability for use, in language approved by COG in writing.
 - b. The party(ies) working with COG shall demonstrate adherence to a federal or applicable state standard for protecting confidential or personal information.
 - c. The confidential or personal information collected or stored by or through the survey, website or other data collection shall be kept confidential. All necessary steps shall be taken to protect the privacy of the users of the website or other data collection. Any confidential or personal information provided by users of the website or other data collection, including but not limited to their names and addresses, shall be protected.
 - d. COG shall retain control over and ownership of all surveys, web pages, control files and scripts, database schema, and database contents, in addition to all content which is published on or stored by the website or other data collection, unless COG specifically agrees in writing otherwise.
 - e. No release of any announcements intended for public dissemination concerning the collection or storage of such information by or through the survey, website or other data collection shall occur until COG has given prior written authorization, unless COG specifically agrees in writing otherwise.
 - f. In the event that information collected or stored by or through the survey, website or other data collection shall be stolen or handled incorrectly, the party(ies) working with COG on the PROJECT shall be responsible for any required notification to persons who have entered personal information in that system and all costs related thereto.

- g. The PROJECT documents shall provide that other parties working with COG on the survey, website or other data collection or storage shall indemnify COG with at least the following commitment:

The [SUBRECIPIENT or other party] shall indemnify and hold COG harmless from and shall be solely responsible, for the payment of any and all claims for loss, personal injury, death, property damage, infringement or misappropriation of any third party's intellectual property rights, violation of privacy, confidentiality or otherwise, arising out of any act of omission or negligence of its employees or agents in connection with the performance of the work under this [agreement or memorandum of understanding].

- h. At the end of the project or contract, any personal or confidential information shall be given to COG or destroyed and a certification of destruction provided to COG by the SUBRECIPIENT or other party.

X. COG's Policies and Procedures.

When federal law, or any grant conditions, certifications or assurances require COG to utilize competitive procurement procedures for selection of a SUBRECIPIENT, COG's policies and procedures shall govern every aspect of the SUBRECIPIENT selection process, e.g., the solicitation, evaluation, award, and post-award process (including, without limitation, any protest of an award, and the terms and conditions under which a contract may be approved, executed and administered). Any SUBRECIPIENT and potential SUBRECIPIENT will be provided with a copy of such policies and procedures, on request.

Y. COG's Information Technology Policy.

Contractors that must access COG's Information Technology systems or require a COG login account to perform their duties must adhere to COG's Information Technology Policies and Procedures. Such contractors will receive a copy of the policies and procedures prior to receiving access to COG's IT systems.

Z. COG's Facilities, Policies, and Procedures.

Contractors that must use any of COG's facilities or equipment must adhere to COG's Facilities, Policies and Procedures. Contractors that utilize any AV or IT equipment through the use of COG's facilities shall also comply with COG's IT Policy. Such contractors will receive a copy of all relevant procedures prior to receiving access to COG's IT systems.

AA. Additional Requirements.

In addition to the terms and conditions expressly referenced in this Contract, the SUBRECIPIENT acknowledges and agrees that the terms and conditions of any federal or state grant that provides funding for this Contract, in whole or in part, shall apply to and shall govern the parties' rights and obligations under this Contract and shall be deemed additional terms, conditions and requirements of this Contract.

BB. DBE Assurance.

The SUBRECIPIENT or _____ shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. The SUBRECIPIENT shall carry out applicable requirements of 49 C.F.R. Part 26 in the award and administration of USDOT-assisted contracts. Failure by the SUBRECIPIENT to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or such other remedy as the COG deems appropriate.

CC. Audits.

Per the Enhanced Mobility Circular, COG as the Designated Recipient for Enhanced Mobility funds will collect A-133 audit reports from the SUBRECIPIENT receiving more than \$750,000 in federal funds. At a minimum, the SUBRECIPIENT is required to bring to COGTPB's attention any audit findings relevant to its use of FTA funds. The SUBRECIPIENT is not subject to A-133 audit requirements and may require additional monitoring, in a format elected by COG, to ensure compliance.

DD. FFATA Reporting.

1. The Federal Funding Accountability and Transparency Act ("FFATA") requires prime recipients of federal grants and contracts to report sub-award and executive compensation data. COG is the prime recipient of federal awards for the purposes of this policy and is responsible for reporting sub-award data.
2. COG and first-tier sub-awardees are required to maintain current registration in the System for Awards Management ("SAM") as well as obtain a DUNS number. COG is responsible for filing the report in the FSRS system, not sub-awardees. However, sub-award recipients must provide the following information to COG before they will be eligible to receive the sub-award:
 - a. The entity's information;
 - b. Description and/or title of the sub-award (including NAICS code or CFDA number);
 - c. Date and amount of award;

- d. Location of the entity receiving the award and the primary location of performance under the award, including the city, state, congressional district, and country;
- e. Active and current SAM unique identifier;
- f. DUNS number;
- g. Names and total compensation of the five (5) highest paid officers/executives of the sub-recipient if all three criteria are met:
 - i. Federal awards make up 80% or more of the SUBRECIPIENT's annual gross revenues; and
 - ii. the SUBRECIPIENT's annual gross revenue from federal awards is \$25 million or more; and
 - iii. the SUBRECIPIENT's officer names are not publicly available and the public does not have access to data on executive compensation of the entity through the Securities and Exchange Commission (SEC) as described in further detail in OMB Guidance on Sub-award and Executive Compensation Reporting (August 27, 2010).

(COG, as the prime recipient of the federal award, must also report its own executive compensation data by the end of the month following the award if the same criterion noted above is met.)

EE. Priority of Requirements.

In the event of a conflict between or among any of the terms, conditions and requirements applicable to this Contract, the conflict shall be resolved by giving weight in accordance with the following priorities, in the order as stated below:

1. Terms and conditions of any grant that provides funding for this Contract, in whole or in part;
2. Terms and conditions set forth or referenced within this Contract;
3. Terms and conditions and representations set forth or referenced within Attachments A and F to this Contract;
4. Terms, conditions, specifications, and requirements set forth within any solicitation (e.g., RFP or IFB) pursuant to which this Contract was awarded;
5. Offers, representations, promises, terms and conditions set forth with the bid or proposal submitted in response to any solicitation (e.g., RFP or IFB) pursuant to which this Contract was awarded.
