QUESTION #1

COMPANY is interested in the above solicitation and would like to know if there is an incumbent or if this is new contract. I looked on the website and did not see a previous contract award. Appreciate your response either way.

ANSWER

There is an incumbent through an earlier version of the statement of work, Anacostia River Keeper. This contract is ending and the vendor is eligible to respond.

This will be a new contract involving additional sites, a COG sorting methodology, and a requirement of a methodology plan to perform the work.
