II. METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS

The Metropolitan Washington Council of Governments (“COG”) is the regional organization of the Washington area’s 24 major local governments and their governing officials, plus area members of the Maryland and Virginia legislatures and the U.S. Senate and House of Representatives.

COG provides a focus for action on issues of regional concern such as comprehensive transportation planning, air and water quality management, environmental monitoring, tracking economic development and population growth and their effects on the region, coordinating public safety programs, and promoting childcare and housing for the region. COG is supported by financial contributions from its participating local governments, federal and state government grants and contracts, and through grants and contracts from foundations and the private sector.

The National Capital Region Transportation Planning Board (“TPB”) is responsible for coordinating transportation planning at the regional level in Northern Virginia, Suburban Maryland, and the District of Columbia. The TPB is the federally designated Metropolitan Planning Organization (“MPO”) for the region and plays an important role as the regional forum for transportation planning. The TPB prepares plans and programs that the federal

government must approve for federal-aid transportation funds to flow to the Washington region.

Members of the TPB include representatives from the transportation agencies of the states of Maryland, Virginia, and the District of Columbia, local governments, the Washington Metropolitan Area Transit Authority (“WMATA”), the Maryland and Virginia General Assemblies, non-voting members from the Metropolitan Washington Airports Authority (“MWAA”), and federal agencies.

The TPB was created in 1965 by local and state governments in the Washington region in response to a requirement in 1962 highway legislation mandating the establishment of official MPOs. The TPB became associated with COG in 1966, serving as COG’s transportation policy committee.

III. PROJECT OVERVIEW

The TPB approves the Unified Planning Work Program (UPWP) every year. This annual programming and budgeting document identifies the work activities and associated funding to be carried out by TPB staff to comply with applicable Federal laws and regulations for regional transportation planning. It also identifies work activities that inform regional transportation planning policy considerations and decision making and respond to TPB priorities. Over the years, COG/TPB staff has established a track record of successfully partnering with the consulting community to conduct regional transportation planning, research, and analysis to perform work activities of the UPWP. The current FY 2022 UPWP contains a \$3.7 million budget for consultant services. The FY 2023 UPWP, which was adopted March 16, 2022, contains a \$19.5 million budget.

Historically, consultant support generally has been procured through competitive single-award contracts to meet the requirements of an individual work task. However, to provide increased efficiency and nimbleness in its procurement of professional planning services, COG issued a single-award indefinite-delivery/indefinite quantity (IDIQ) master contract in 2019 to procure professional planning services on a task-order basis. This is a three-year contract containing two one-year options to extend.

To ensure continuity of on-call professional services being available, COG intends to issue another single-award indefinite-delivery/indefinite-quantity (IDIQ) master contract to a qualified firm to provide a broad range of professional planning services on a task order basis. However, COG reserves the right to issue multiple awards to ensure that the full range of services can be provided under this master contract. Task orders will be issued under this master contract for consultant-provided professional planning services to support COG in carrying out specific work activities identified in its work program. Demonstrated successful project delivery experience of a similar nature in the National Capital Region is preferred.

IV. SCOPE OF WORK

The scope of services to be provided under this contract may cover the full range of activities required by Federal, State, regional, and sub-regional processes to support regional multimodal transportation planning.

The annual UPWP for Transportation Planning in the metropolitan Washington region describes a range of work activities for which consultant support may be required through this contract. The current UPWP for Fiscal Year 2022 and previous UPWPs are accessible

from the COG website at the following location:

<https://www.mwcog.org/documents/2018/03/26/unified-planning-work-program-for-transportation-planning-for-the-washington-metropolitan-region-upwp/>

Individual projects may have very aggressive completion schedules. Offerors should demonstrate how they are able to meet aggressive deadlines on some tasks while executing other ongoing tasks.

- A. Examples of required professional planning services obtained through a task order under this contract may include, but will not be limited to the following:
1. Perform technical analysis, as directed, to support development of both the Long-Range Transportation Plan and the Transportation Improvement Program (TIP) development, including but not limited to financial analysis, system performance analysis, performance-based planning and programming (PBPP) analysis, equity and environmental justice analysis, and air quality conformity analysis support, among others.
 2. Test and evaluate scenario analysis planning tools suitable to support regional transportation planning and land use coordination. These could be sketch-planning tools or more elaborate models, such as a regional travel demand forecasting model (trip-based or activity-based).
 3. Support scenario planning analyses to gain insights and understanding of policy implications for transportation planning.
 4. Perform research (including national or international research) and data collection on travel trends, travel behavior, greenhouse gas (GHG), and congestion at the regional and sub-regional/geographically focused level to inform regional transportation planning understanding and decision-making. Prepare appropriate documentation, including reports, technical memoranda, and other products.
 5. Perform research and analysis on emerging regional transportation planning considerations, including topic areas such as climate change mitigation, resiliency, and reliability, as well as emerging technologies such as connected and automated vehicles and electric vehicles and their future role in and impacts on regional travel.
 6. Develop and conduct scientific surveys designed to obtain statistically defensible key data and insights that inform regional travel trend analyses, travel demand modeling, and regional transportation planning and decision-making.
 7. Conduct performance measurement on regional transportation system performance.
 8. Provide modeling and planning analysis to support systems planning, corridor planning, pre-project planning, alternatives analysis, and related regional transportation planning activities and technical analyses.
 9. Conduct analysis and provide planning support for transportation systems performance planning topics, including transportation safety, public transportation,

freight planning, incident management, and bicycle/pedestrian planning.

10. Provide public involvement and stakeholder coordination support, including outreach to vulnerable and hard to reach populations/Title VI.
11. Provide graphic design support for printed and online documents and materials.
12. Conduct financial analysis supportive of regional transportation planning and decision-making.
13. Conduct geospatial analyses and data visualization services.
14. Conduct analysis of regional economic and demographic trends, including supporting coordination of regional socioeconomic forecasting with regional transportation planning and economic development.
15. Design and/or recommend knowledge management systems to facilitate the storing of documents and datasets developed by COG (e.g., travel surveys).
16. Design and/or recommend database management systems (DBMSs) and Geographic Information Systems (GIS) used to store and edit transportation networks, zone systems, and other related datasets.
17. Conduct airport ground access and air system studies informing airport and airport-serving facilities planning.
18. Provide onsite short-term and/or temporary staff augmentation support that may be required to assist staff in carrying out regional transportation planning work program activities.

While these examples are linked closely with activities covered by the UPWP, this contract may also be used to issue task orders to support other technical and planning activities undertaken by TPB, but which are not necessarily activities identified in the UPWP. These may include and would not be limited to task orders to perform similar types of services to support the work activities of the Commuter Connections Work Program, and the Continuous Airport Systems Planning Program.

X. METHOD OF PROPOSAL EVALUATION AND SELECTION

The proposals will be evaluated by a technical selection committee. The selection committee may hold, at COG’s option, a pre-selection meeting with the top-ranked Offerors.

The final recommendation for selection to the COG Contracting Officer may be made based upon interviews and/or a best and final offer submitted by the Offerors, if required by the selection committee.

In evaluating the proposals, the following factors will be considered, with points awarded up to the maximum shown on the next page.

Factor	Points
Understanding and methodology used for the project	35
Demonstrated knowledge and experience of Key Personnel and availability of Key Personnel	50
Cost and Price Analysis	15
Total Points	100

XI. DISADVANTAGED BUSINESS ENTERPRISE

At this time, DBE participation is NOT a factor in this phase. It is expected that the winning consultant will be or will utilize DBE firms in their work on these projects and will have to provide DBE Forms on all Task Orders.

The information below is provided for informational and Task Order planning purposes only.

COG's DBE Policy may be viewed on its website
<https://www.mwcog.org/purchasing-and-bids/dbe-policy/>.

DBE participation in the RFP 22-011 ON-CALL PROFESSIONAL TRANSPORTATION PLANNING SERVICES shall be considered at the time that proposals are selected for task orders for specific RFP 22-011 ON-CALL PROFESSIONAL TRANSPORTATION PLANNING SERVICES projects.

COG has determined that consideration of DBE participation will not be included in the evaluation factors for this RFP because the participation of DBE subcontractors will not be specified until the proposals for task orders for individual RFP 22-011 ON-CALL PROFESSIONAL TRANSPORTATION PLANNING SERVICES projects are developed at a later time.

At the time that proposals for task orders for specific projects are awarded, a total of 15 possible points (out of a maximum of 100 points) may be awarded for DBE participation, as measured in dollars, either as the prime contractor or "subcontractor". In the event of a tie in the average total score between two or more proposals, the proposal with the largest percentage of DBE participation, as

measured in dollars, will be awarded the contract.

DBE points are to be awarded as follows:

<u>PARTICIPATION</u>	<u>POINTS</u>
10% to 14%	3
15% to 19%	6
20% to 24%	9
25% to 34%	12
35% or more	15

For the sake of scoring, percentages will be rounded down rather than up. A proposer must meet the minimum scoring percentage to receive full points.

A prime contractor with valid DBE certification will receive 100% participation points.

Federal Law – CFR Part 26.37 (Monitoring Performance) requires COG to include a monitoring and enforcement mechanism to ensure that work committed to DBEs at task order award is performed by DBE's.

To comply with this requirement, the Contractor is required to provide to COG DBE Compliance Officer with monthly reports on DBE payment(s). This may involve monthly reporting via email.

COG is currently testing a DBE Reporting Software system and the contractors chosen under this master contract award may be required to report through that system rather than direct email. Please save any questions relating to reporting for the task order process.

See the sample DBE Plan form Attachment D. This does not need to be filled out at this time.

XII. COOPERATIVE RIDER CLAUSE

- A. COG, as an agent to member agencies, extends the right to utilize all of the terms, conditions, specifications, and unit or other prices of any contract resulting from this RFP to other public and non-profit agencies.
This is conditioned upon mutual agreement based on the attached Rider Clause (Attachment E) of all parties pursuant to special requirements which may be appended thereto.
- B. Contractor(s) agrees to notify COG of the Participating Agencies desire to use any contract resulting from this RFP within 30 days of receiving said requests and to fill out the form provided in Attachment E.

FF. FFATA Reporting

1. The Federal Funding Accountability and Transparency Act ("FFATA") requires prime recipients of federal grants and contracts to report sub-award and executive compensation data. COG is the prime recipient of federal awards for the purposes of this policy and is responsible for reporting sub-award data.
2. COG and first-tier sub-awardees are required to maintain current registration in the System for Awards Management ("SAM") as well as obtain a DUNS number. COG is responsible for filing the report in the FSRS system, not sub-awardees. However, sub-award recipients must

provide the following information to COG before they will be eligible to receive the sub-award:

- a. The entity's information
- b. Description and/or title of the sub-award (including NAICS code or CFDA number)
- c. Date and amount of award
- d. Location of the entity receiving the award and the primary location of performance under the award, including the city, state, congressional district, and country
- e. Active and current SAM unique identifier
- f. DUNS number
- g. Names and total compensation of the five (5) highest paid officers/executives of the sub-recipient if all three criteria are met:
 - a) Federal awards make up 80% or more of the SUBRECIPIENT's annual gross revenues
 - b) The SUBRECIPIENT's annual gross revenue from federal awards is \$25 million or more
 - c) The SUBRECIPIENT's officer names are not publicly available and the public does not have access to data on executive compensation of the entity through the Securities and Exchange Commission (SEC) as described in further detail in OMB Guidance on Sub-award and Executive Compensation Reporting (August 27, 2010)

(COG, as the prime recipient of the federal award, must also report its own executive compensation data by the end of the month following the award if the same criterion noted above is met.)

GG. Priority of Requirements

In the event of a conflict between or among any of the terms, conditions and requirements applicable to this Contract, the conflict shall be resolved by giving weight in accordance with the following priorities, in the order as stated below:

1. Terms and conditions of any grant that provides funding for this Contract, in whole or in part;
2. Terms and conditions set forth or referenced within this Contract;

3. Terms and conditions and representations set forth or referenced within Attachments A and F to this Contract;
4. Terms, conditions, specifications, and requirements set forth within any solicitation (e.g., RFP or IFB) pursuant to which this Contract was awarded;
5. Offers, representations, promises, terms and conditions set forth with the bid or proposal submitted in response to any solicitation (e.g., RFP or IFB) pursuant to which this Contract was awarded.
