

RFQ 21-004
TECHNICAL ASSISTANCE FOR PROJECTS FOR THE REGIONAL SAFETY PROGRAM
Addendum 3

Questions/**Answers:**

- 1) Do offerors submit only one proposal to include up to the three specialization categories OR three separate proposals (one for each specialization category)

The offeror should submit One (1) proposal for all interested categories.

- 2) P. 7 – References: Can you define “COG-related work”

COG related word is defined as Work performed for COG as a prime or subcontractor.

- 3) Addendum 2 mentions that references for relevant work completed for entities other than COG are preferred. Will resumes that show relevant work completed for entities other than COG also be encouraged?

No. Resumes are not part of the references section.

- 4) The answer for Question #6 in Addendum #1 says “The maximum number of project examples should be three (3) and should be limited to one (1) page in length”. Addendum #2 further states “It is recommended that only one (1) page which includes all three (3) projects be used”.

Volume I, however, allows for up to 15 pages. Can more than three project examples be included in Volume I as long as the 15-page limit is not exceeded? **No.**

And can each project example be provided on a single page (versus each page including multiple project examples) as long as the 15-page limit is not exceeded? The 15 page limit for Volume I provides ample space for more than three project examples.

One page for 3 examples is sufficient.
