QUESTIONS/ANSWERS

1. Page 5 of the RFQ lists typical project topics for TLC Projects and RRSP Projects, along with typical tasks for design projects (including TLC, RRSP, or TWR). Are you able to provide a list of typical project topics for the Transit Within Reach Program, or do the typical design tasks include all relevant topics for the TWR program?

The list at the bottom of page 5 of the RFQ (Under Section II, Phase I), which is labeled "Typical Tasks for Design Projects (up to 30%) – Might include TLC, RRSP, or TWR," includes all the relevant topics for the TWR program.

2. The Qualifications of the Firms and Personnel section states: "Although standard personnel resumes may be included as attachments to the submission, amplification, specific to this RFQ, is required in this section." Does the "amplification specific to this RFQ" just refer to tailoring our resumes to the specific RFQ or is there anything else we should provide?

This text is requiring the offeror to tailor the descriptions of the qualifications of individual staff to this specific RFQ.
