Transportation Planning Board

ANNOUNCEMENT

SPECIAL HANDS-ON VIRTUAL WORKSHOP USING THE BOTTLENECK RANKING TOOL OF THE RITIS PROBE DATA ANALYTICS SUITE

Thursday, September 21, 2023
1:00 P.M. - 3:00 P.M.

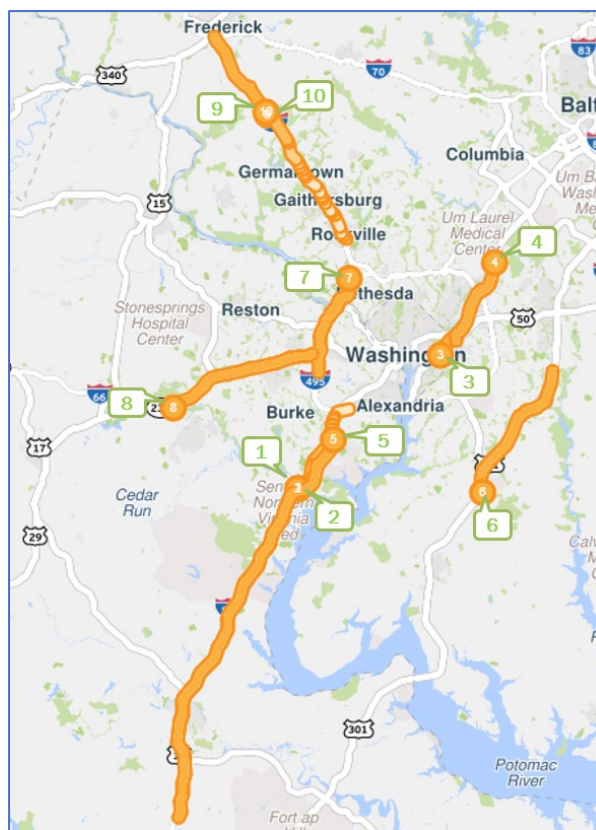

Registration is free of charge, but advanced registration is required.
Please use this link to register: [Bottleneck Ranking Tool Workshop Registration](#)

Regional bottleneck rankings were attention-getting during last year's Congestion Management Process discussions, and now you have an opportunity to learn and apply the same tools used for your own jurisdictional-level or other specialized analyses. This workshop will familiarize participants with available tools, with guidance from TPB staff as well as hands-on exercises. All member agency staffs welcome, even if you do not usually participate in our regional [Vehicle Probe Data Users Group](#).

Please 1) register at the link above (no limit on attendees/attendees per agency) by September 20, 2023; and 2) register/create a login with the Regional Integrated Transportation Information System (RITIS - www.ritis.org) PRIOR TO THE WORKSHOP if you have not already done so. Registering with RITIS will enable you to participate in the hands-on exercises. (RITIS logins are available to public sector employees only.) Join us!
