## ENERGY AND WATER MANAGEMENT SCHOOL BOARD POLICY

**"We saved enough energy to bring a new middle school off the drawing board."**

Loudoun County Public Schools Superintendent Dr. Edgar B. Hatrick

NAME: Loudoun County Public Schools, Virginia

IMPROVING ENERGY PERFORMANCE BY: Earning EPA's ENERGY STAR® certification for 46 schools

SAVINGS: More than \$40 million, plus a nearly 380,000 metric ton greenhouse gas emission reduction

RESULTS: Energy savings equaled cost of building their newest middle school

When Loudoun County Public Schools partnered with ENERGY STAR, the idea was to cut energy costs so the savings could go to a better use. In nineteen years, their savings equaled the cost of building a new middle school. Today, that school is a reality. And the energy they're saving reduces greenhouse gas emissions that cause climate change. Put ENERGY STAR to work for you at [energystar.gov](http://energystar.gov).
