## TPB Regional Bus Subcommittee Transit Operator Presentations

In an effort to better share information between operators, the Regional Bus Subcommittee will have representatives from transit operators throughout the region present at the monthly subcommittee meetings. Operator representatives will describe their transit system (vehicles, routes, fare structures, etc.), current challenges, recent successes and prospect for long-range plans. Additionally, each operator will be assigned one of the "Eight Building Blocks" of transit service. Transit operators will come prepared to discuss their experience with the given topic.
