Wednesday, June 29th, 2011

10:00 A.M. – 4:00 P.M.

COG – 3rd Floor Board Room

Lunch will be provided for all attendees

Urban Wood Utilization Workshop II

A Presentation by Pioneers and Practitioners in the Field

Hosted by the Metropolitan Washington Council of Governments and sponsored by the U.S. Forest Service Wood Education Resource Center (WERC)

The urban forests in the metropolitan region produce a great quantity of wood from tree removals, storms and routine tree maintenance. Previously, this material has been chipped for mulch at best. This forum will focus on the outcomes of the Washington Metropolitan Wood Recovery & Utilization Project and feature others working in the field developing technologies and programs to put urban timber to good use. A final agenda will be posted to COG's Web Page: <http://www.mwcog.org/calendar/default.asp>

Scheduled Presenters:

- ❖ Dr. Steve Bratkovich – Dovetail Partners
- ❖ Al Steele – USFS – Wood Education Resource Center
- ❖ Chris Holmgren – Seneca Creek Joinery / Community Woodlands Alliance
- ❖ Dr. Monica Lear – State Forester with the DC Urban Forestry Administration
- ❖ Dan Rider – MDNR Associate Director – Forest Service Marketing & Utilization
- ❖ Others TBA

This meeting will be held at the offices of the Council of Governments, 777 North Capitol, St. Washington, D.C., on the first floor in the Training Center meeting room.

Register Online at:
