ULI Technical Assistance Panels (TAPs) Updates

10:10 a.m. – 10:20 a.m.

The Metropolitan Washington Council of Governments and ULI Washington are partnering to offer Technical Assistance Panels focused on identifying priority, catalytic strategies to maximize the impact of investments in Activity Centers. A Technical Assistance Panel (TAP) is a program where 10-12 senior-level real estate and land use experts work over a concentrated timeline to evaluate and provide market-based feedback on a local development or land use challenge. Depending on the issues being tackled, panelists may include developers, property owners/managers, investors, designers, planners, engineers, market and financial analysts, and public sector planners and officials. The panel takes place over a one-and-one-half day timeline, with a report of recommendations completed thereafter.

Update on the Activity Centers Strategic Development Plan (SDP)

10:20 a.m. – 10:35 a.m.

COG Staff

Staff will update the Committee on proposed changes to the Activity Centers Strategic Development Plan. The planned enhancements reflect input from COG's Chief Administrative Officers Committee and a focus group of invited COG Board members. Among the proposed changes are a greater emphasis on the tools, strategies and resources to help local governments achieve goals for their Centers; additional clarity and focus on the case studies and best practices underway; and less focus on names of each of the Centers that were studied. The COG Board approved the plan at their January meeting.
