

## Process for Selecting a Limited List of Unfunded Regional Priority Projects For the TPB's Long-Range Transportation Plan

*This inventory includes approximately 500 unfunded transit & highway projects from approved state, local and sub regional plans.*

*The inventory will be screened to determine whether projects are part of a Regionally Significant Transportation Network. TPB staff has proposed a network for consideration.  
June 2016 – Review and agree on this Phase 1 activity including the network.*

*TPB staff has proposed eight project selection criteria. Members of the task force have suggested additional criteria.*

*Outstanding questions for discussion include:  
June 2016 - Which criteria should be used?*

*Future meetings -*

- Methods of scoring projects against each individual criteria and the relative weights between criteria?*
- Is there a project score threshold to determine projects for inclusion in the final priority list?*
