TO: TPB Technical Committee

FROM: Wenjing Pu
Department of Transportation Planning

SUBJECT: Update on the Final 2014 Congestion Management Process (CMP) Technical Report

At the June 6 meeting, the Committee was briefed on the draft 2014 CMP Technical Report, which serves as the detailed technical supporting document to the official CMP component of the CLRP. The Committee was invited to provide comments on the report by June 18th. A handful of updates were received for Table 13: Ongoing State Local Jurisdictional Transportation Demand Management (TDM) Strategies in Chapter 3. The final draft report, which can be found on the Committee [website](#), has accommodated those updates and included a few other minor editorial revisions. After today's meeting, the report will be considered finalized and posted on the CMP component of the CLRP website: www.mwcog.org/cmp.
