LETTER FROM THE COG EXECUTIVE DIRECTOR

Dear Public Health Professionals:

Mental illness and substance abuse can affect every individual, family and community with little or no advance warning. Most often, people have no idea where to find either emergency care or longer-term assistance. The Metropolitan Washington Council of Governments is pleased, therefore, to provide you with this Regional Mental Health and Substance Abuse Resource Directory.

Someday medical research will help us fully understand the source of mental dysfunction and addiction. Until that time, the work of mental health professionals and service providers will remain the critical link to care for patients and their families.

Thank you for working with the Council on this critical issue.

Sincerely,

A handwritten signature in black ink, appearing to read "Chuck Bean". The signature is fluid and cursive.

Chuck Bean

Executive Director
