This letter transmits the following information in response to your letter request of September 20, 2004:

1. Draft highway and transit networks, input, control, support and TP+ script files and software to run the demographic sub-models and accomplish trip generation, trip distribution, mode choice and trip assignment using the COG/TPB Travel Forecasting Model Version 2.1D (**DRAFT # 50**), for three time periods for the simulation years of 1994, 2000 and 2030. The data are contained on a CD-R labeled "CGV21D_50X".

Please note that generic file names are used in these model runs, so it is recommended that data for each simulation year be kept in separate directories.

2. A copy of the following document:
 - a. A memorandum to the files by Ron Milone, dated September 21, 2004, titled "*Transmittal of Version 2.1 D (DRAFT #50) Model*".

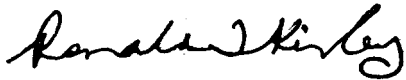

Please note that flow charts are not available at this time for Version 2.1 D (DRAFT #50).

There is no cost for any of the information provided.

If there are any questions concerning the Version 2.1 D (DRAFT #50) Travel Model, please contact Mr. Ron Milone at (202) 962-3283.
