

One Region Moving Forward

COG BOARD OF DIRECTORS MEETING

DATE: September 14, 2011

TIME: 12:00 Noon

PLACE: COG Board Room

District of Columbia
Bladensburg*
Bowie
College Park
Frederick
Frederick County
Gaithersburg
Greenbelt
Montgomery County
Prince George's County
Rockville
Takoma Park
Alexandria
Arlington County
Fairfax
Fairfax County
Falls Church
Loudoun County
Manassas
Manassas Park
Prince William County

PLEASE NOTE: Chairman Harrison will begin the meeting promptly at Noon. Lunch for members and alternates will be available at 11:30 a.m.

A G E N D A

**1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE
(12:00 Noon)**

**Chairman Andrea Harrison
Councilmember, Prince George's County**

**2. ANNOUNCEMENTS
(12:00 – 12:05 p.m.)**

Chairman Harrison

a) COG Annual Meeting and Awards Luncheon, December 14

**3. EXECUTIVE DIRECTOR'S REPORT
(12:05 – 12:10 p.m.)**

- a) Outreach**
- b) Legislative and Regulatory Update**
- c) Information and Follow-up**
- d) Letters Sent/Received**
- e) General Counsel Report**

**4. AMENDMENTS TO AGENDA
(12:10 – 12:15 p.m.)**

**5. APPROVAL OF MINUTES OF JULY 13, 2011
(12:15 – 12:20 p.m.)**

*Adjunct Member

CONSENT AGENDA

6. ADOPTION OF CONSENT AGENDA ITEMS

(12:20 – 12:25 p.m.)

A. RESOLUTION AUTHORIZING COG TO ISSUE A CONTRACT TO DEVELOP AND CONDUCT A SERIES OF THREE REGIONAL TRANSIT SEMINARS FOR WMATA.

The Board will be asked to adopt Resolution R41-2011, authorizing the COG Executive Director, or his designee to receive and expend up to \$110,000 to conduct a series of three regional transit seminars each focused on strengthening coordination between transit agencies, roadway departments, and first responders in the National Capital Region. Funding for this effort will be provided from the U.S. Department of Homeland Security through a subgrant from the DC Homeland Security and Emergency Management Agency, acting as the State Administrative Agent for the Urban Areas Security Initiative grant. No COG matching funds are required.

RECOMMENDED ACTION: Adopt Resolution R41-2011.

B. RESOLUTION IN SUPPORT OF AUTHORIZING COG TO ENTER INTO A GRANT AGREEMENT WITH THE U.S. FOREST SERVICE THROUGH THE DISTRICT OF COLUMBIA TO CONDUCT AN URBAN FOREST CANOPY ANALYSIS WITHIN THE METROPOLITAN WASHINGTON REGION.

The Board will be requested to approve Resolution R42-2011, authorizing the Executive Director, or his designee to approve the receipt of grant funds from the U.S. Forest Service through the State Forester of the District of Columbia to conduct a two-year study of urban tree canopy in the District of Columbia, Anacostia Watershed in Maryland, Arlington County and the City of Alexandria. Data collected and analyzed will be added to COG's existing regional GIS database and supplied to the named participating jurisdictions. COG will also work with its grant partners to discuss how this data will aid in developing a sub-regional tree canopy management plan for the named community grant partners. Funding for this project is provided by the U.S. Forest Service through the District of Columbia Urban Forestry Administration and is not to exceed a total of \$165,000. A \$15,000 COG match is required. (\$7,500 in FY 2012 from the current fiscal year work program budget and \$7,500 in the proposed FY 2013 work program budget).

RECOMMENDED ACTION: Adopt Resolution R42-2011.

C. CO-SPONSORSHIP OF "GIVE TO THE MAX DAY" CAMPAIGN IN THE NATIONAL CAPITAL REGION.

The Metropolitan Washington Council of Governments has been asked by the United Way of the National Capital Area and the Community Foundation of the National Capital Region to co-sponsor the "Give to the Max Day" campaign in the Washington area. This effort is modeled on a program in Minneapolis that used social media, web-donations, and other online giving tools to raise \$14 million for Minnesota non-profits in one 24-hour period. Give to the Max Day will be announced on September 15 and Give to the Max day is scheduled for November 9. The program is intended to engage donors who may not participate in workplace giving or more traditional campaigns. COG will be responsible for helping to promote this effort with area local governments. No funding support from COG will be required.

RECOMMENDED ACTION: ADOPT RESOLUTION R43-2011.

D. RESOLUTION TO SUBMIT GRANT APPLICATION TO THE WALMART FOUNDATION TO SUPPORT REGIONAL SUSTAINABILITY INTERNSHIP PROGRAM.

The COG Board will be asked to approve Resolution R44-2011, authorizing the Executive Director or his designee, to apply for grant funding from the Walmart Foundation for a sustainability internship program in an amount not to exceed \$150,000. COG will collaborate with MobilizeGreen and ICLEI to identify, recruit, and train ten student interns/graduates from area colleges, universities, and community colleges for 3-month paid internships with local government members to work on projects that advance COG's Region Forward and sustainability goals, including greenhouse gas inventories, climate action planning, and green purchasing policy projects. COG seeks funding for program development, intern stipends, and project evaluation. No COG match is required.

RECOMMENDED ACTION: ADOPT RESOLUTION R44-201

SPECIAL BRIEFING

**7. HIGHLIGHTS OF AUGUST MULTI-STATE EMERGENCY RESPONSE EVENTS
(12:25-12:50 p.m.)**

**Merni Fitzgerald, Director, Public Affairs
Fairfax County
Chair, RESF-15, External Affairs**

**Tony Alexiou, Deputy Director, Homeland Security and Emergency Management
Montgomery County
Chair, Emergency Managers Committee**

The Mid-Atlantic and National Capital Region experienced two multi-state events in August, an unprecedented earthquake on August 23 and Hurricane Irene during the weekend of August 26-28. Local officials will highlight regional preparation, messaging to the public and response to these two events and how after-action studies and feedback will be incorporated into ongoing work and future plans.

RECOMMENDED ACTION: Presentation, no action required.

ACTION ITEMS

**8. COG SPONSORSHIP OF FINANCIAL PLANNING DAY
(12:50 – 1:00 p.m.)**

**Dan Drummond
Councilmember, City of Fairfax**

In July Councilmember Drummond, City of Fairfax, requested that the COG Board co-sponsor Financial Planning Day in the National Capital Region on October 15. The event will be held at the Bell Multi-Cultural High School in the District of Columbia. The National Capital Region event is part of a nationwide program sponsored by the Certified Financial Planner Board of Standards. Other co-sponsors including the U.S. Conference of Mayors, Financial Planning Association, Foundation for Financial Planning and the District of Columbia. COG will be asked to promote the event with area local governments and other stakeholders to help families manage their finances during a period of continued economic hardship. No COG funding support is required.

RECOMMENDED ACTION: Adopt Resolution R45-2011.

9. COG RETREAT OUTCOMES

(1:00 – 1:15 p.m.)

**David Robertson
Executive Director**

COG held its annual retreat July 22-23 which was attended by 31 COG members. The primary focus of the retreat was examining the steps COG and its member local governments should consider in order to achieve the goals outlined in the *Region Forward* planning guide and revitalize economies still suffering from the effects of the recession. The retreat featured sessions that described the region's changing demographic make-up, the need for community energy plans and a metropolitan business plan. The Board will be briefed on the retreat outcomes and next steps.

RECOMMENDED ACTION: Receive briefing and approve outcomes and next steps.

INFORMATION ITEMS

10. 2010 REGIONAL CRIME REPORT

(1:15 – 1:30 p.m.)

**Chief Stephen L. Holl
Metropolitan Washington Airports Authority Police Department
Chair, COG Police Chiefs Committee**

The Police Chiefs Committee, in conjunction with its Policy and Planning Subcommittee, annually collects and analyzes selected crime statistics for the Washington metropolitan area. Such information has proven useful to law enforcement and policy officials by providing a broad analysis of crime trends and establishing local and regional crime-fighting priorities. The COG Board will be briefed on the most recent report, which reflects crime trends from 2010.

RECOMMENDED ACTION: Receive briefing.

EXECUTIVE SESSION

11. EXECUTIVE SESSION ON THE EXECUTIVE DIRECTOR'S PERFORMANCE EVALUATION AND LEGAL MATTER

(1:30 – 1:45 p.m.)

By motion, the Board of Directors will conclude the public meeting and reconvene in Executive Session for personnel purposes to discuss the results of the performance evaluation process conducted by the Employee Compensation and Benefits Review Committee (ECBR) and other COG Board Members. Following the Executive Session the Board will be asked to review the ECBR's recommendations as contained in Resolution R46-2011. The COG Board will also meet in Executive Session to discuss a legal matter.

12. RECONVENE PUBLIC SESSION

(1:45– 1:55 p.m.)

The Board will reconvene in Public Session and will be asked to approve the ECBR's recommendations, as well as the Executive Director's goals for the next performance review period, July 1, 2011 to June 30, 2012.

RECOMMENDED ACTION: Adopt Resolution R46-2011.

13. OTHER BUSINESS

(1:55 p.m. – 2:00 p.m.)

**14. ADJOURN- NEXT MEETING OCTOBER 12, 2011
(12:00 p.m.)**

Reasonable accommodations are provided for persons with disabilities. Please allow 7 business days to process requests. Phone: 202.962.3300 or 202-962.3213 (TDD). Email: accommodations@mwkog.org. For details: www.mwkog.org

3. EXECUTIVE DIRECTOR'S REPORT

COG

September 14, 2011

outreach report

executive director
David Robertson

- **State Outreach.** Met with Governor O'Malley's staff on improving participation at COG by senior state officials. Discussed the COG Incident Response Committee with Virginia's Homeland Security Advisor. Spoke with Virginia Delegate Jim Scott about telework issues.
- **Homelessness.** Met with officials from the National Center on Family Homelessness on opportunities for regional collaboration.
- **Homeland Security.** Met with Arlington County Manager Barbara Donnellan to discuss homeland security activities.
- **Emergency Sirens.** Spoke with a City of Gaithersburg citizen advisory committee member about emergency siren systems.
- **Region Forward.** Met with Washington Regional Association of Grantmakers on funding support for the initiative.

cog in the region
highlights

City of Frederick

COG Director briefed the Board of Aldermen on COG programs and activities.

City of Manassas

COG Director briefed the City Council on COG programs and activities.

City of Rockville

COG Purchasing Manager met with the City's Purchasing Director to discuss cooperative purchasing.

Fairfax County

DEP staff participated on a committee to help the County choose a consultant for the Fairfax County Residential Energy Education project.

District of Columbia

- COG Director attended Mayor Gray's press conference on a study of transportation & housing costs. Region Forward was referenced in the study.
- COG Director met with D.C. Council staff concerning Council oversight and engagement with COG programs.
- DCPS staff participated in an Urban Land Institute Technical Assistance Program on the Green Line Program.
- DEP staff briefed City Administrator Allen Lew on the Blue Plains Intermunicipal Agreement renegotiation process.

Prince George's County

- DEP staff briefed COG Board Chair Andrea Harrison on regional stormwater requirements and plans for a webinar.
- DCPS Director spoke about Region Forward at the Forest Heights Town Council Leadership Retreat.
- COG Purchasing Manager met with the County Procurement Director to discuss cooperative purchasing.

Various Locations

- Commuter Connections staff participated in transportation events in DC, Arlington County, Fairfax County, and Rockville.
- DCPS Child Welfare staff hosted a Wednesday's Child Lunch and Learn for Montgomery County Department of Social Services and a Wednesday's Child Match Party Preparation Meeting and Back to School giveaway in DC.

July - August 2011 outreach

COG

September 14, 2011

media report

Affordable Housing, Foster Care Highlighted on Local News Shows

In July, Alicia Lewis, Regional Housing Planner at COG, and other experts participated in a discussion on NBC's *Viewpoint* about the need for regional coordination to increase the amount of affordable housing in the region as well as the GreenPATH fund that COG and other partners are trying to expand regionally through the creation of a \$54 million fund to preserve affordable, transit-oriented housing. In August, Kamilah Bunn, Director of COG's Child Welfare Programs, appeared on NewsChannel 8's *NewsTalk* to discuss the region's demand for foster parents.

Outreach Spreads Word About SNAP!

COG's Office of Public Affairs has been working with the USDA Food & Nutrition Service (FNS) to promote the Supplemental Nutrition Assistance Program (SNAP). In August, COG arranged for Audrey Rowe, FNS Administrator, to discuss SNAP and its impact on our region on WAMU's *The Kojo Nnamdi Show*.

Carpool for Parents Featured in Media

COG's Commuter Connections program recently began a new service called "SchoolPool" which connects parents of children going to the same school so that they can carpool and reduce their costs and emissions while saving time. The launch of the new service was covered by WAMU, WTOP, PGC-TV, and the *Washington Examiner*.

Region Forward Garners Attention

Region Forward is moving from the vision phase to the action phase. The formation of the new Region Forward Coalition (RFC), which will be in charge of implementing the plan, was discussed in a blog piece in July on Greater Greater Washington by Eric Hallstrom, a contributor to the blog and a RFC member. Region Forward was also the subject of a headline piece in the July/August edition of *Sustainable Communities Magazine*.

With over 310 fans, COG is one of the most popular regional councils on Facebook in the entire country! Social media has become an important communication tool for us - in addition to the main COG page, Region Forward, TPB, Clean Air Partners, Commuter Connections and others are on Facebook and/or Twitter.

Head over to www.mwcog.org/news/socialmedia and check out all of COG's programs on social media!

COMMERCIAL CONSTRUCTION 2010

The Metropolitan Washington Council of Governments

In 2010, commercial construction trends improved from near record lows in 2009. Improvements include increased production in four out of six sectors tracked and a 27 percent increase in overall square feet produced from 2009.

Additionally, location efficient projects have returned to pre-recession levels. These gains were led by Metrorail station areas which captured more than twice as many square feet as they did in 2009.

Across the region, construction rates of retail, educational, and medical projects have led the rebound with dramatic increases in the number of projects and overall square feet.

Most jurisdictions experienced a noticeable increase in construction rates from 2009. Among the region’s three tiers of jurisdictions (central, inner, and outer), the central jurisdictions captured the most square feet of commercial construction. Central jurisdictions also captured the two largest projects: the Marriott Marquis Convention Center Hotel and the US Coast Guard Headquarters. Inner jurisdictions had the highest concentration of education and medical facilities. Outer jurisdictions continued to capture high levels of office and retail development.

Unfortunately, there are still significant indications of stress in the commercial construction market such as a decline in construction of research and development facilities and lower levels of total construction and fewer projects compared to typical years over the past decade.

Appendix	24

About COG's Commercial Construction Inventory

The Commercial Construction Inventory includes major “non-residential” projects that are under construction in the Washington region. These non-residential projects include commercial properties and other projects that develop employment space, and in many cases include associated parking structures. The inventory is limited to projects that create new or additional space and to projects with estimated construction costs of more than \$200,000.

2010 Commercial Construction Totals

Number of Projects:	240 Projects
Total Value:	\$4.3 Billion Dollars
Total Square Feet:	20.2 Million Square Feet

Commercial Construction Starts 1980 - 2009

46% of commercial construction square feet was located within Regional Activity Centers in 2010

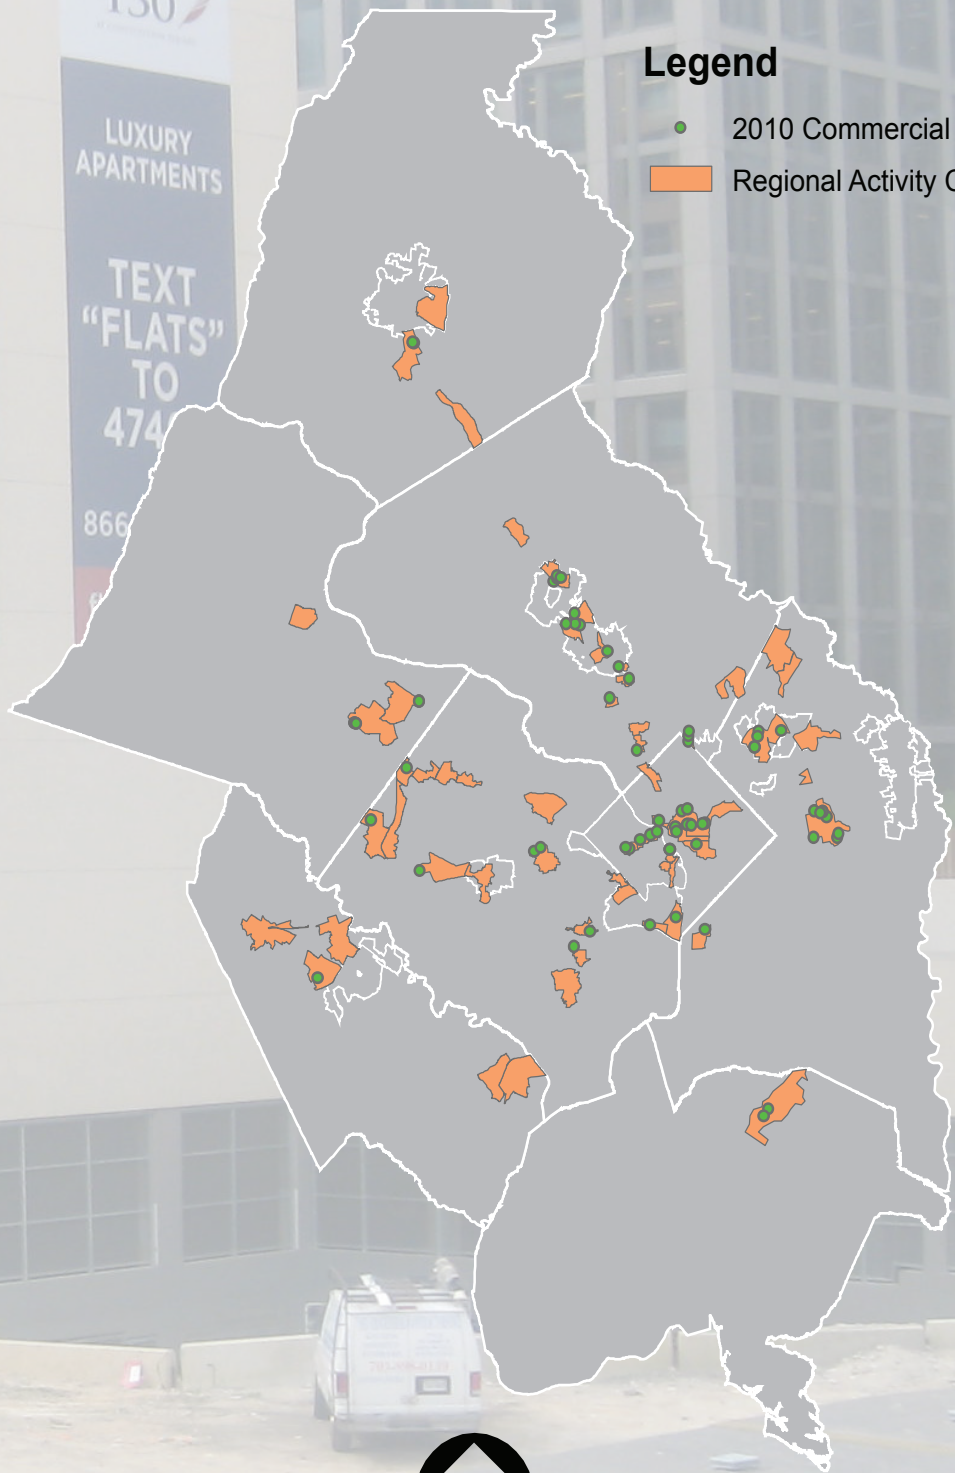

COG has developed a long range regional vision, entitled *Region Forward*, to help guide the region's policy development over the next forty years. Regional Activity Centers are a fundamental component of the *Region Forward* vision. These centers were selected to highlight and study areas throughout the region with the greatest capacity to absorb growth. Consequently, *Region Forward* calls for 75 percent of all new commercial construction square feet to be captured in Regional Activity Centers beginning in 2012.

The National Capital Region made significant progress toward this goal in 2010 by increasing the commercial construction square feet captured within Region Activity Centers by 6 percent from 2009 levels. However, despite this progress, the region fell nearly 30 percent short of its goal for 2012.

Capturing 75 percent of all new commercial construction in Regional Activity Centers will be difficult, but our region can achieve this goal by learning more from our centers that routinely capture large volumes of commercial construction. One of the best examples is Downtown Washington which led the region in square feet produced within Regional Activity Centers for the past three years. Centers like Downtown Washington that routinely capture many different types of commercial construction are particularly valuable because they offer a comprehensive approach to growth management.

Region Forward set a challenging goal for growth management because this region is a national leader in the field. We have built a strong economy that will grow increasingly resilient as our Regional Activity Centers attract more development.

0 5 10 20 Miles

* A map of regional activity centers is located in the appendix on page 24

30% of commercial construction square feet was located within 1/2 mile of a Metrotrail station

The National Capital Region has a world class public transportation system that serves residents region wide with efficient and cost effective transportation. COG measures commercial construction that is located within one half mile of Metrorail and commuter rail stations as part of the *Region Forward* vision.

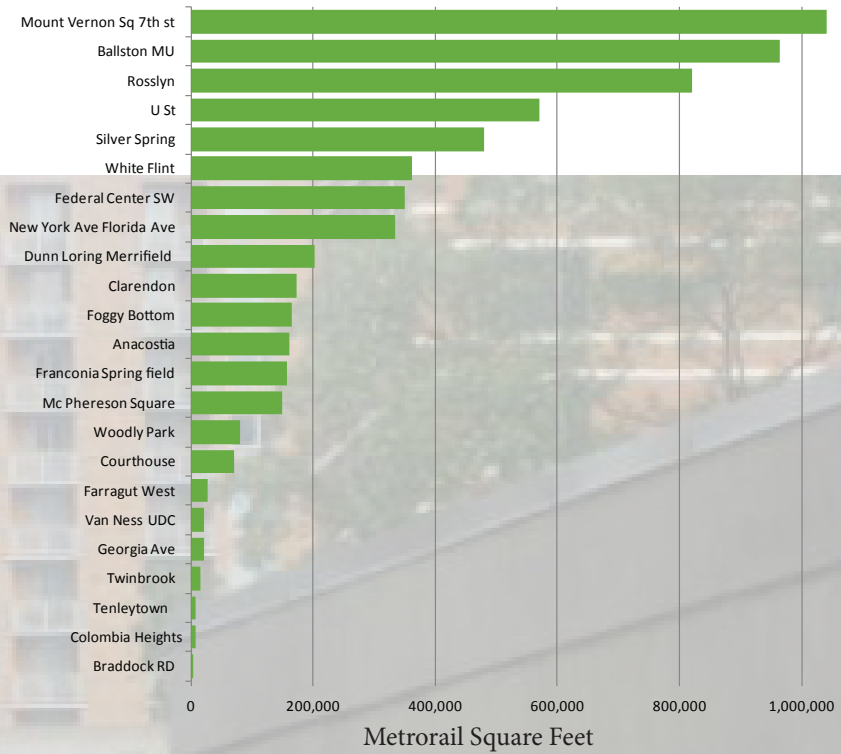

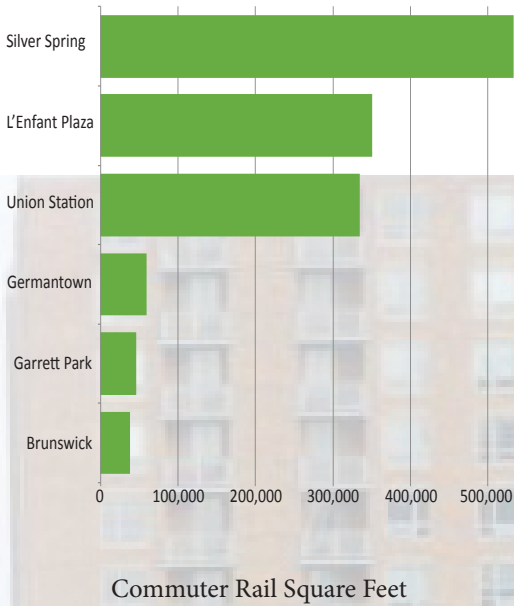

These locations are regionally significant because development near stations leverages billions of dollars already invested in transit systems to generate economically resilient and environmentally sustainable development.

In 2010, 30 percent of all commercial construction square feet was located within one

half mile of a Metrorail or commuter rail station. Significantly, the percentage of commercial construction square feet located near rail stations increased by 12 percent from 2009, representing a return to pre-recession trends.

This upward trend was led by mixed use development projects including the one million square foot Marriott Marquis Convention Center Hotel in Washington DC near the Mount Vernon Square Metrorail station and the 424,000 square foot Washington Property Apartment Complex located near the Silver Spring Metrorail and MARC stations.

The rate of commercial construction in rail station areas **DOUBLED** between 2009 and 2010

Commercial Construction Projects Located within One - Half Mile of a Metrorail station

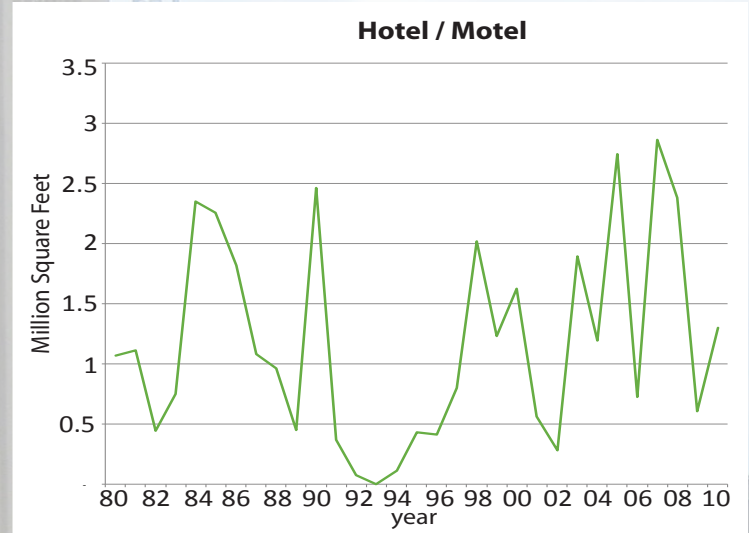

*Detailed tables regarding each station area are available in the appendix on page 28.

Retail construction has rebounded

Commercial construction comprises many different types of facilities which are affected by different market conditions. In order to gain insight into how individual sectors develop, COG has tracked commercial construction projects by type for more than thirty years. This section depicts each sector's production rate over the past three decades.

Office projects account for the largest portion of annual commercial construction square feet for the fourth consecutive year. These office projects were well balanced across the region. Additionally, construction in four out of six sectors rebounded from near record lows in 2009.

Among the four sectors that experienced increased production rates, retail construction grew dramatically by 45 percent from 2009. Among the two sectors that declined, research and development facilities experienced the most significant decline in production rate. Despite the fact that both educational/medical

facilities and research and development facilities experienced decreased production in 2010, their overall rates of production were near normal.

The most important trend across all six sectors is that they are all within their normal ranges. Furthermore, educational/medical and retail sectors are near the top of their typical ranges. The trends for each of the sectors COG tracks demonstrates that the 2010 commercial construction has begun to rebound from 2009's near record lows.

Within COG's regional groupings Central Jurisdictions produced the most commercial construction in 2010

Central Jurisdictions

The central jurisdictions captured 46 percent of the region's commercial construction in 2010. These jurisdictions added 49 new projects and more than 9.2 million square feet. In comparison to 2009, central jurisdictions produced 53 percent more square feet in 2010.

Inner Suburbs

The inner suburbs added 133 projects and over 7.9 million square feet of new space in 2010. These jurisdictions generated 39 percent of the region's commercial construction activity. They also experienced a 59 percent increase in commercial construction square feet from 2009.

Outer Suburbs

The outer suburbs added 58 new projects totaling more than 3 million square feet. In 2010 outer jurisdictions only captured 15 percent of regional commercial construction. Additionally, outer jurisdictions experienced a dramatic decline of 47 percent in the total amount of square feet from 2009.

*Definitions of Central, Inner, and Outer Jurisdictions are located in the Appendix on page 24.

- Research and Development

- Mixed Use

Within state grouping Maryland jurisdictions produced the most commercial construction square footage in 2010

The District of Columbia added 36 new projects and more than 6.9 million square feet of new space in 2010. Additionally, in 2010 the District's commercial construction square feet increased by more than 5.3 million square feet from 2009.

Suburban Maryland added 119 new projects in 2010, totaling more than 7.4 million square feet. Suburban Maryland saw a 63 percent increase in commercial construction square feet from 2009.

Northern Virginia added 85 projects and more than 5.8 million square feet of commercial construction in 2010, representing a 37 percent decline from 2009 levels.

* Detailed tables are available in the Appendix on Page 27.

- Mixed Use

Four new commercial construction projects added 126,000 square feet of new space in the city. Alexandria had much less commercial construction than it has had in the preceding three years. The Marriott Spring Hill Suites was Alexandria's largest project in 2010.

Square Feet per 2010 Commercial Project

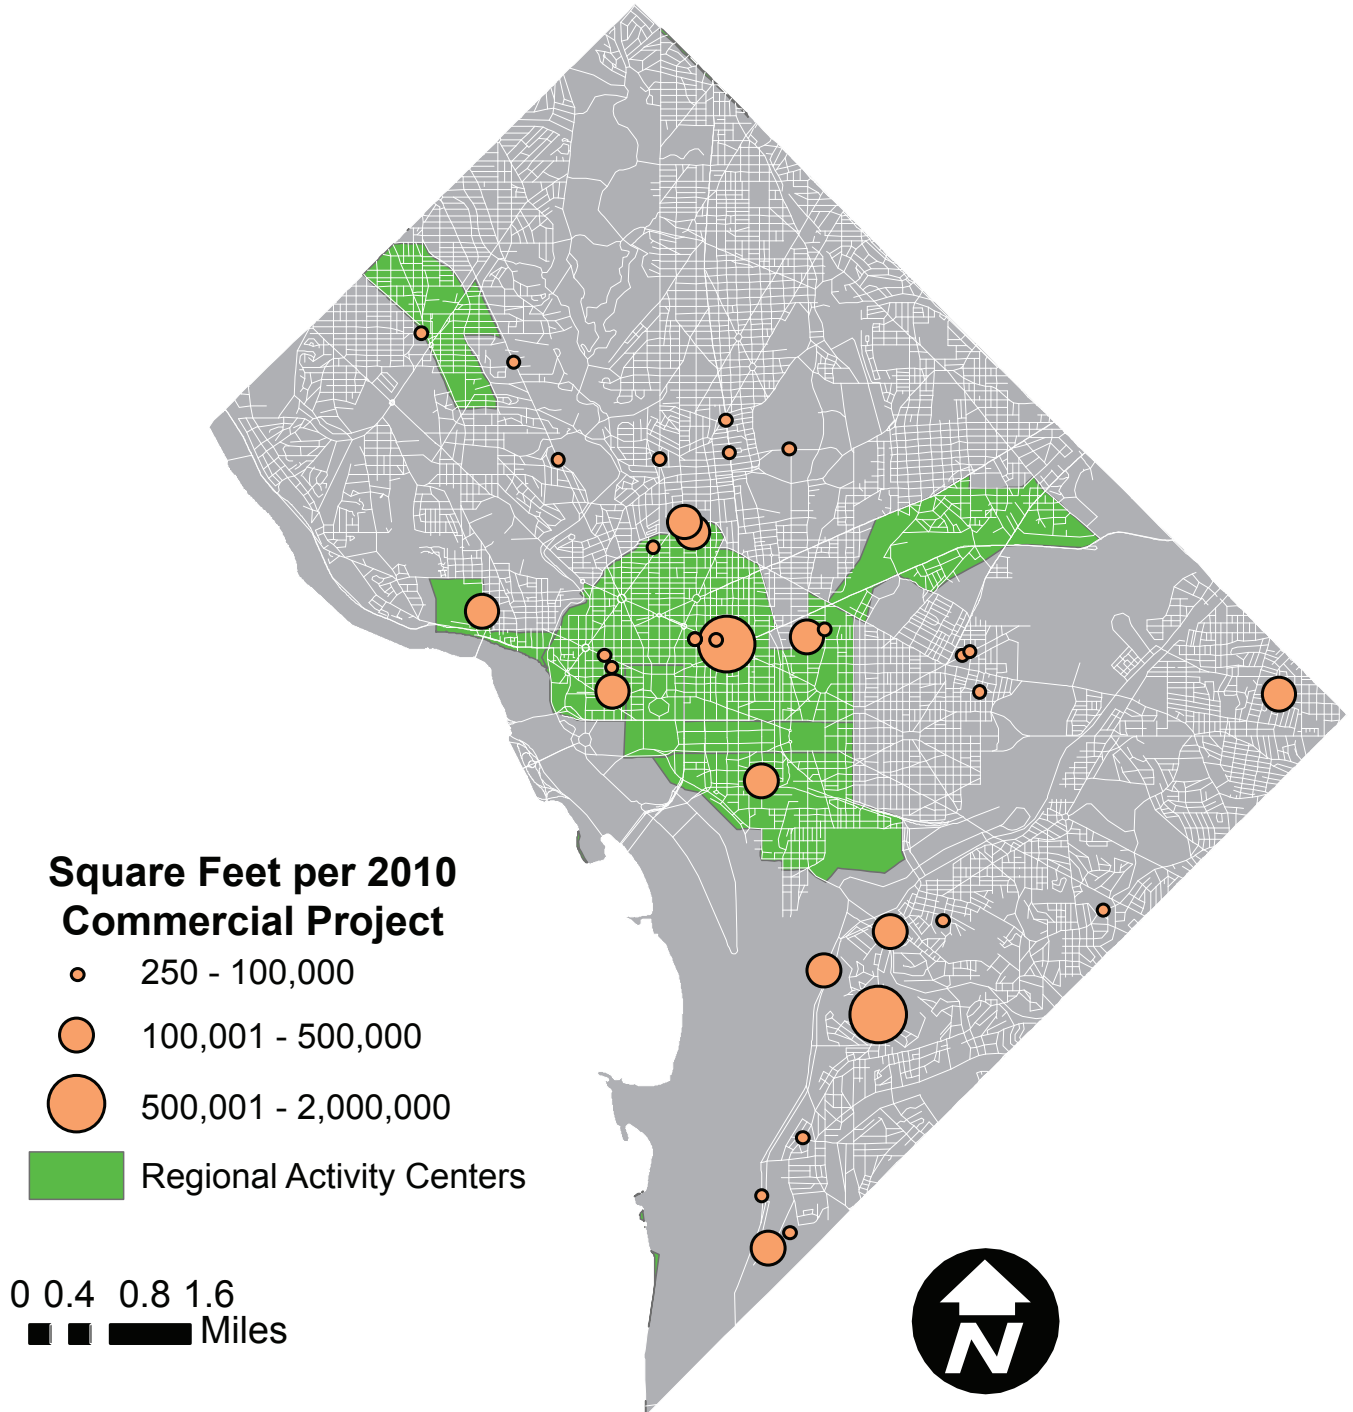

- 250 - 100,000
- 100,001 - 500,000
- 500,001 - 2,000,000
- Regional Activity Center

Nine commercial construction projects added 2.1 million square feet of new space to Arlington County in 2010. This growth represents a 43 percent increase in square feet compared to 2009. The three largest projects in the county were all office projects which represents a notable shift from 2009 when the largest two projects were educational.

The District of Columbia added 36 new projects and more than 6.9 million square feet of space in 2010. Commercial construction in the District of Columbia has rebounded dramatically from 2009 when it saw just 1.6 million square feet of new space. The Marriott Marquis Convention Center Hotel was the largest project in the District at 1 million square feet.

Fairfax County added 39 new commercial construction projects in 2010 totaling more than 1.5 million square feet. Square feet of new commercial construction in Fairfax County has decreased at least 35 percent for two consecutive years. Educational and medical facilities captured the largest proportion of Fairfax County's 2010 commercial construction. The largest project was the South County Middle School with 176,000 square feet.

Loudoun County saw 317 commercial construction projects in 2010 that added more than 974,000 square feet of new space. Loudoun County's largest project was the J. Michael Lunsford Dulles South Middle School at more than 177,000 square feet.

- 250 - 100,000
- 100,001 - 500,000
- 500,001 - 2,000,000

Regional Activity Center

Frederick County had 19 commercial construction projects in 2010 that added 892,011 square feet. More than **half** of Frederick County's commercial construction was located in the City of Frederick which had 8 commercial construction projects totaling 487,558 square feet.

Prince George's County added 39 new commercial construction projects in 2010 with more than 3.4 million square feet of space, an increase of 65%. In 2010 Prince George's County returned to its 2008 level of commercial construction. The largest project was the mixed use Varsity building.

Square Feet per 2010 Commercial Project

- 250 - 100,000
- 100,001 - 500,000
- 500,001 - 2,000,000
- Regional Activity Center

Montgomery County had 55 commercial construction projects in 2010 that added nearly 3 million square feet of new space. The County saw a 30% increase in commercial construction square footage from 2009. The National Cancer Center was the largest project at more than 575,000 square feet.

Square Feet per 2010 Commercial Project

- 250 - 100,000
- 100,001 - 500,000
- 500,001 - 2,000,000

■ Regional Activity Center

0 1 2
Miles

Prince William County added 11 commercial construction projects in 2010 totaling 974,554 square feet, a decrease of nearly 50 percent from 2009. The City of Manassas had 5 commercial construction projects totaling 72,960 square feet. The largest project was the TBS Student Dining Facility at 300,000 square feet.

About COG's Commercial Construction Inventory

Each year, the Metropolitan Washington Council of Governments (COG) releases a summary of the findings from its Commercial Construction Inventory. This report provides information on the level of commercial construction activity in the region during the previous year. The report provides detail by jurisdiction, structure type, relationship to Metrorail stations and more.

The Commercial Construction Inventory includes major non-residential projects that are under construction in the Washington region. The inventory only includes projects with estimated construction costs of more than \$200,000. The inventory includes both commercial properties and other projects that add employment space, and in many cases include associated parking structures.

In this report, the "Washington region" refers to the areas surrounding the City of Washington D.C. The Washington region comprises the following jurisdictions: the District of Columbia, the Maryland suburbs, of Charles, Frederick, Montgomery, and Prince George's Counties, and the Cities of Bowie, College Park, Frederick, Gaithersburg, Greenbelt, Rockville, Takoma Park, and the Town of Bladensburg; and the Virginia suburbs of Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park.

Commercial Construction Definitions:

Project: Any non-residential project with estimated construction costs of \$200,000 or more reported by McGraw-Hill Construction or local government planning and economic development offices as under construction

Start: Any project under construction or the demolition of an existing building for redevelopment of the site.

Commercial Construction: All non-residential development initiated in the metropolitan Washington region. This includes office buildings as well as other structure types listed below that create new employment space.

Structure Type

Retail: Any building to be used exclusively for commercial retail purposes, including shopping centers, shopping malls, restaurants, and theaters.

Educational/Medical: Any facility to be used for educational or medical services such as a school research building of a college or university, medical offices, hospital, or clinic.

Mixed Use: Any project that combines the use of properties in a large-scale development. These projects are either in parcels zoned for mixed use or have received a special exception to existing zoning. A mixed-use project would be any combination of office, retail, hotel, industrial, or residential space.

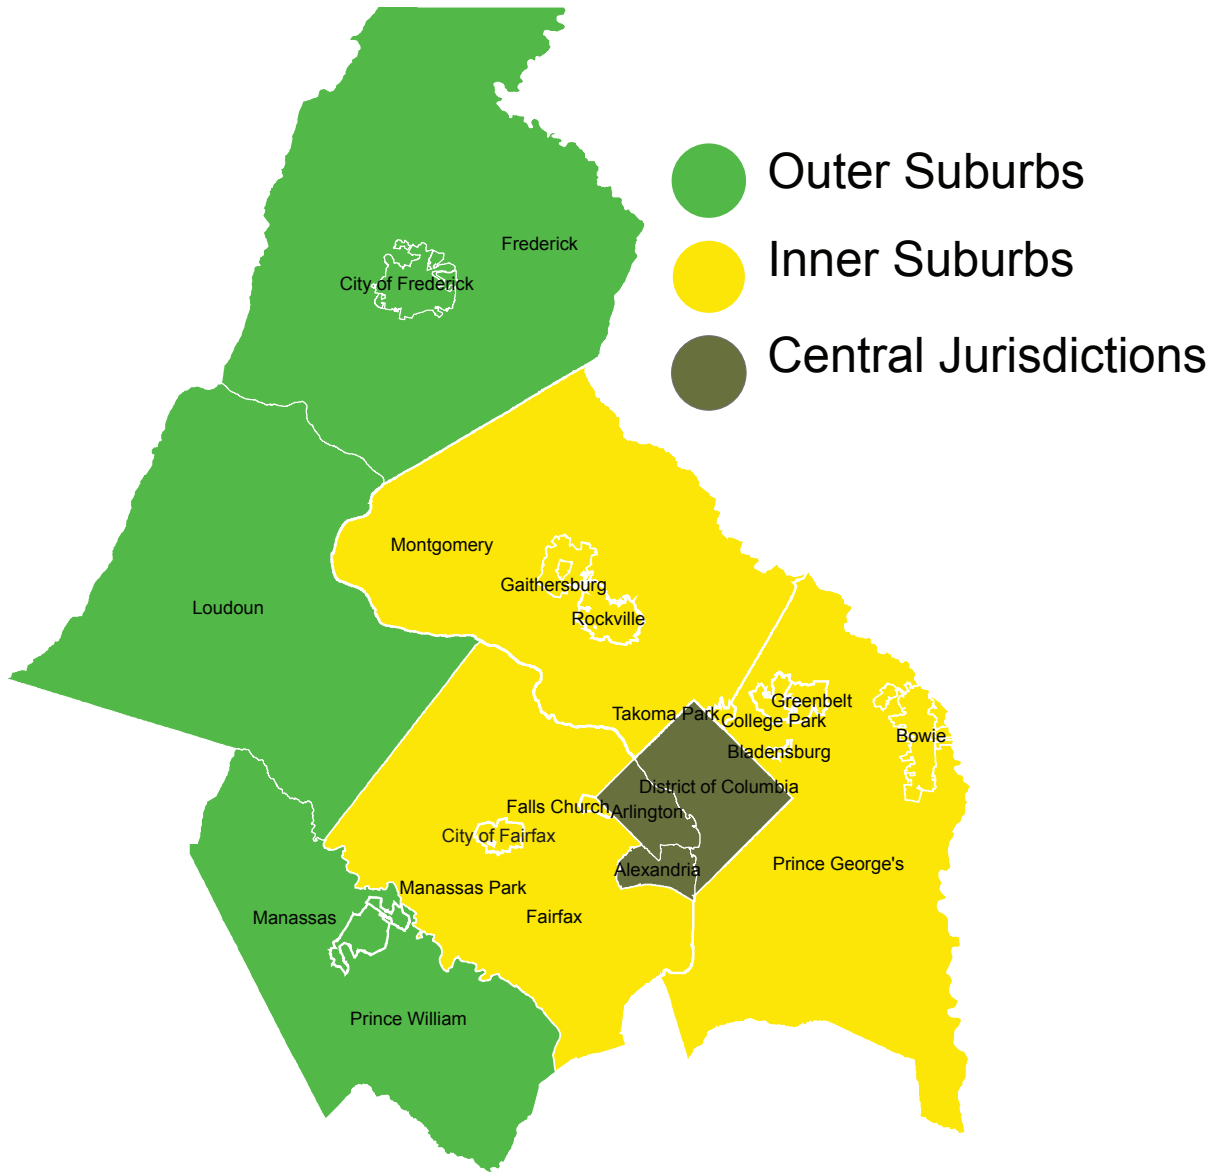

Hotel/ Motel: Any hotel or motel facility. Does not include tourist homes or other residential buildings.

Square Feet: The total gross square footage of a building. In some projects this figure may include parking. The figure does not include lot acreage.

Construction Cost: The total estimated cost for construction to complete the building. This figure does not include "Soft" costs for site location, engineering, architectural services, or site acquisition.

This report includes data for previous construction. The revisions incorporate projects noted as under construction in earlier reports that were later dropped or deferred.

Jurisdictional Groups

This map depicts the geography of COG member jurisdictions.

Regional Activity Centers

This map has numbers that correspond to the adjacent list of Regional Activity Center names

1 Downtown Washington	31 Dulles East
2 Federal Center/Southwest/ Navy Yard	32 Dulles West
3 Georgetown	33 Fairfax Center
4 Monumental Core	34 I-95 Corridor/ Engineer Proving Ground
5 New York Avenue	35 Springfield
6 Eisenhower Avenue	36 City of Fairfax—GMU
7 Downtown Alexandria	37 Md. 85/355 Evergreen Point
8 Ballston/Virginia Square	38 Downtown Leesburg
9 Clarendon/Court House	39 Corporate Dulles
10 Crystal City	40 Germantown

OUR CHANGING REGION

Highlights from the 2010 Decennial Census

In this report:

Population	1
Population Change	2-3
Race	4-10
Hispanic or Latino Origin	11-12

Mandated by Article I, Section 2 of the Constitution, the Decennial Census is a multi-billion dollar effort by the U.S. Census Bureau to provide an accurate count of the country's population every ten years. Data collected through the Decennial Census also provide the basis for determining the number of seats each state has in the U.S. House of Representatives and distributing billions of dollars in federal funds to local communities.

The Decennial Census previously collected detailed social, economic, housing, and demographic data on individuals and households through the Census long form. However, beginning with the 2010 Census, the Decennial Census only collects six basic demographic and housing characteristics: population, age, race, Hispanic or Latino origin, housing occupancy (occupied or vacant), and housing tenure (owned or rented). Detailed characteristics are now collected through the American Community Survey.

This issue of "Our Changing Region" explores 2010 Census data and was compiled from the Public Law 94-171 (PL94-171) congressional redistricting data – the first information released from the 2010 Census. This issue focuses on population, race, and ethnicity. Subsequent issues will focus on more detailed population and housing characteristics as the data become available.

The Metropolitan Washington Council of Governments (COG) develops solutions to issues of regional importance. COG is an independent, nonprofit association

comprised of elected officials from 21 local governments, members of the Maryland and Virginia legislatures, and members of the U.S. Congress. For more information, please visit: www.mwcog.org

(1) Population of Maryland cities is included in appropriate county totals

On April 1, 2010 – Census Day – the population of the COG region totaled 4,900,928 people.

With a total population of 1,081,726, Fairfax County is the most populous jurisdiction, followed by Montgomery County (971,777), and Prince George's County (863,420).

Region's population grew by 15 percent over the last decade

Between 2000 and 2010, the population of the COG region gained more than 642,876 people, an increase of about 15 percent.

Northern Virginia accounted for about two-thirds of the region's population growth. The Maryland suburbs and the District of Columbia accounted for about 31 percent and 5 percent of regional growth, respectively. Population growth varied widely by jurisdiction, with the fastest rates of change in the region's suburbs. Loudoun County had the largest proportional growth, with an increase of 84 percent between 2000 and 2010. Loudoun County's population growth represented about 22 percent of total regional growth.

Takoma Park was the only jurisdiction that did not grow over the 10-year period, with a population decline of 3 percent.

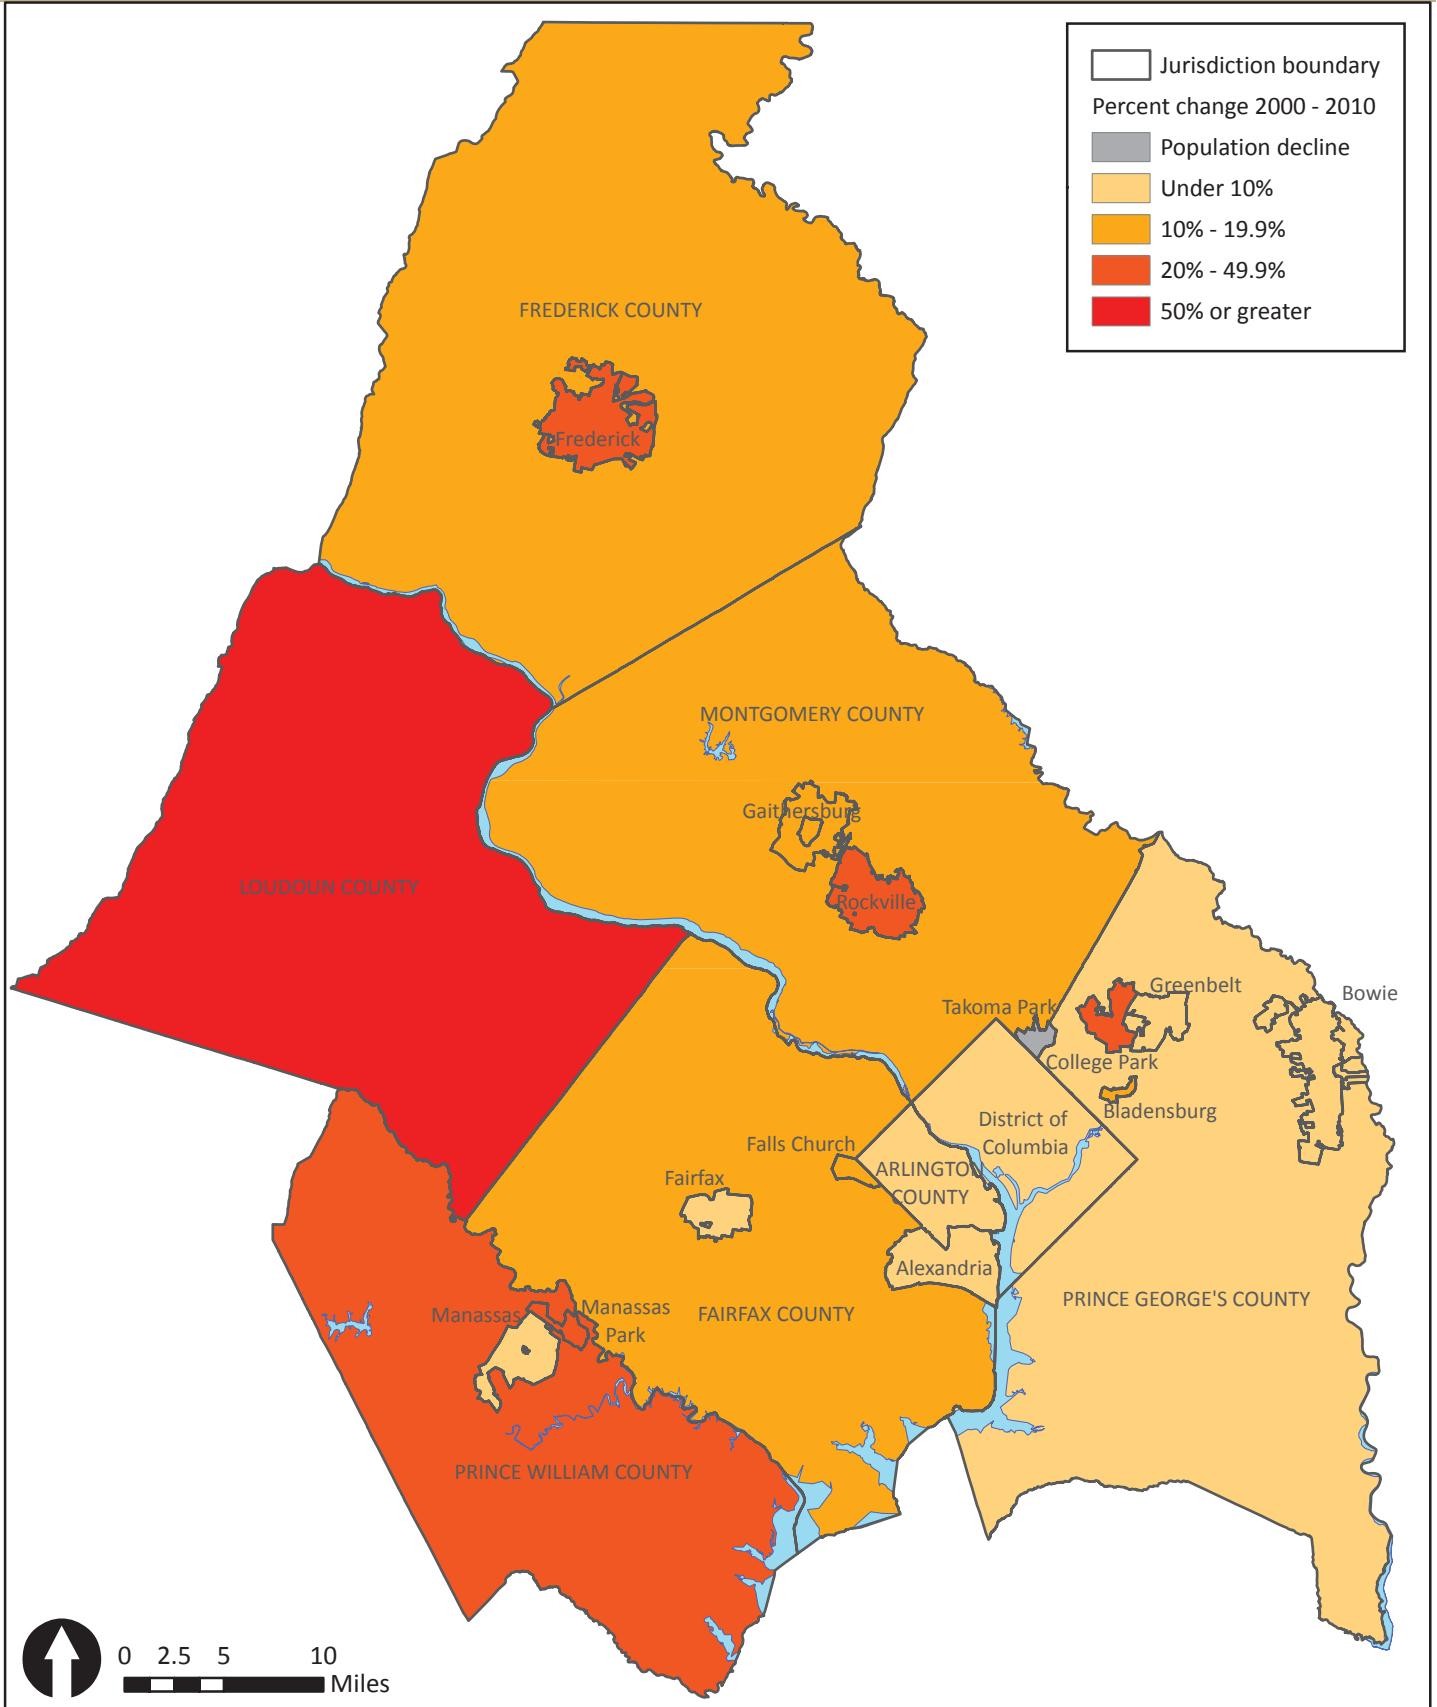

COG Member Jurisdictions	2010 Population	Population Change 2000 - 2010		Share of Regional Growth

Population Change, 2000 - 2010

Approximately half of the region’s population is Caucasian or White. Black or African American is the next largest racial group at about 27 percent, followed by Asian at about 10 percent. American Indian is the smallest group at less than 1 percent of the population. Approximately 7 percent of the population identifies as “some other race,” and approximately 4 percent is of two or more races.

Region’s shifting demographics redefine concept of “minorities”

Racial Breakdown by Subregion

The subregions of District of Columbia, Maryland suburbs, and Northern Virginia vary widely in their respective proportions of each racial group, but overall, the region became more diverse between 2000 and 2010. While a majority of the region’s population is Caucasian or White, the proportion of the population that is not Caucasian or White increased from 43.4 to 47.7 percent over the ten-year period.

Percent of Population that is Not Caucasian, 2000 - 2010

The map on page 6 shows the distribution of the four largest racial and ethnic groups throughout the region. The maps on pages 7, 8, 9, and 12 show the proportion of each of these groups by census tract.

The maps highlight the degree to which the region’s Black or African American population is concentrated on the eastern side of the region. Prince George’s County has the largest local share of the Washington Metropolitan region’s Black or African American population at approximately 43 percent, followed by the District of Columbia at 23.3 percent. The jurisdictions with the highest proportion of Black or African American population relative to total population are Bladensburg (65.6 percent) and Prince George’s County (64.5 percent).

(1) Population of Maryland cities is included in appropriate county totals

Census 2010 was the second consecutive enumeration in which residents could indicate they were of more than one race. Respondents were able to identify as many as six racial identities in the 2010 enumeration. As of 2010, 183,547 people or 3.7 percent of the region's population was multiracial. Between 2000 and 2010, the multiracial population increased by 50,324, or 38 percent. Prince William County had the greatest absolute increase in multiracial population (10,322), while Loudoun County had the greatest percentage increase (approximately 205 percent).

Hispanic or Latino population grew 60 percent between 2000 and 2010

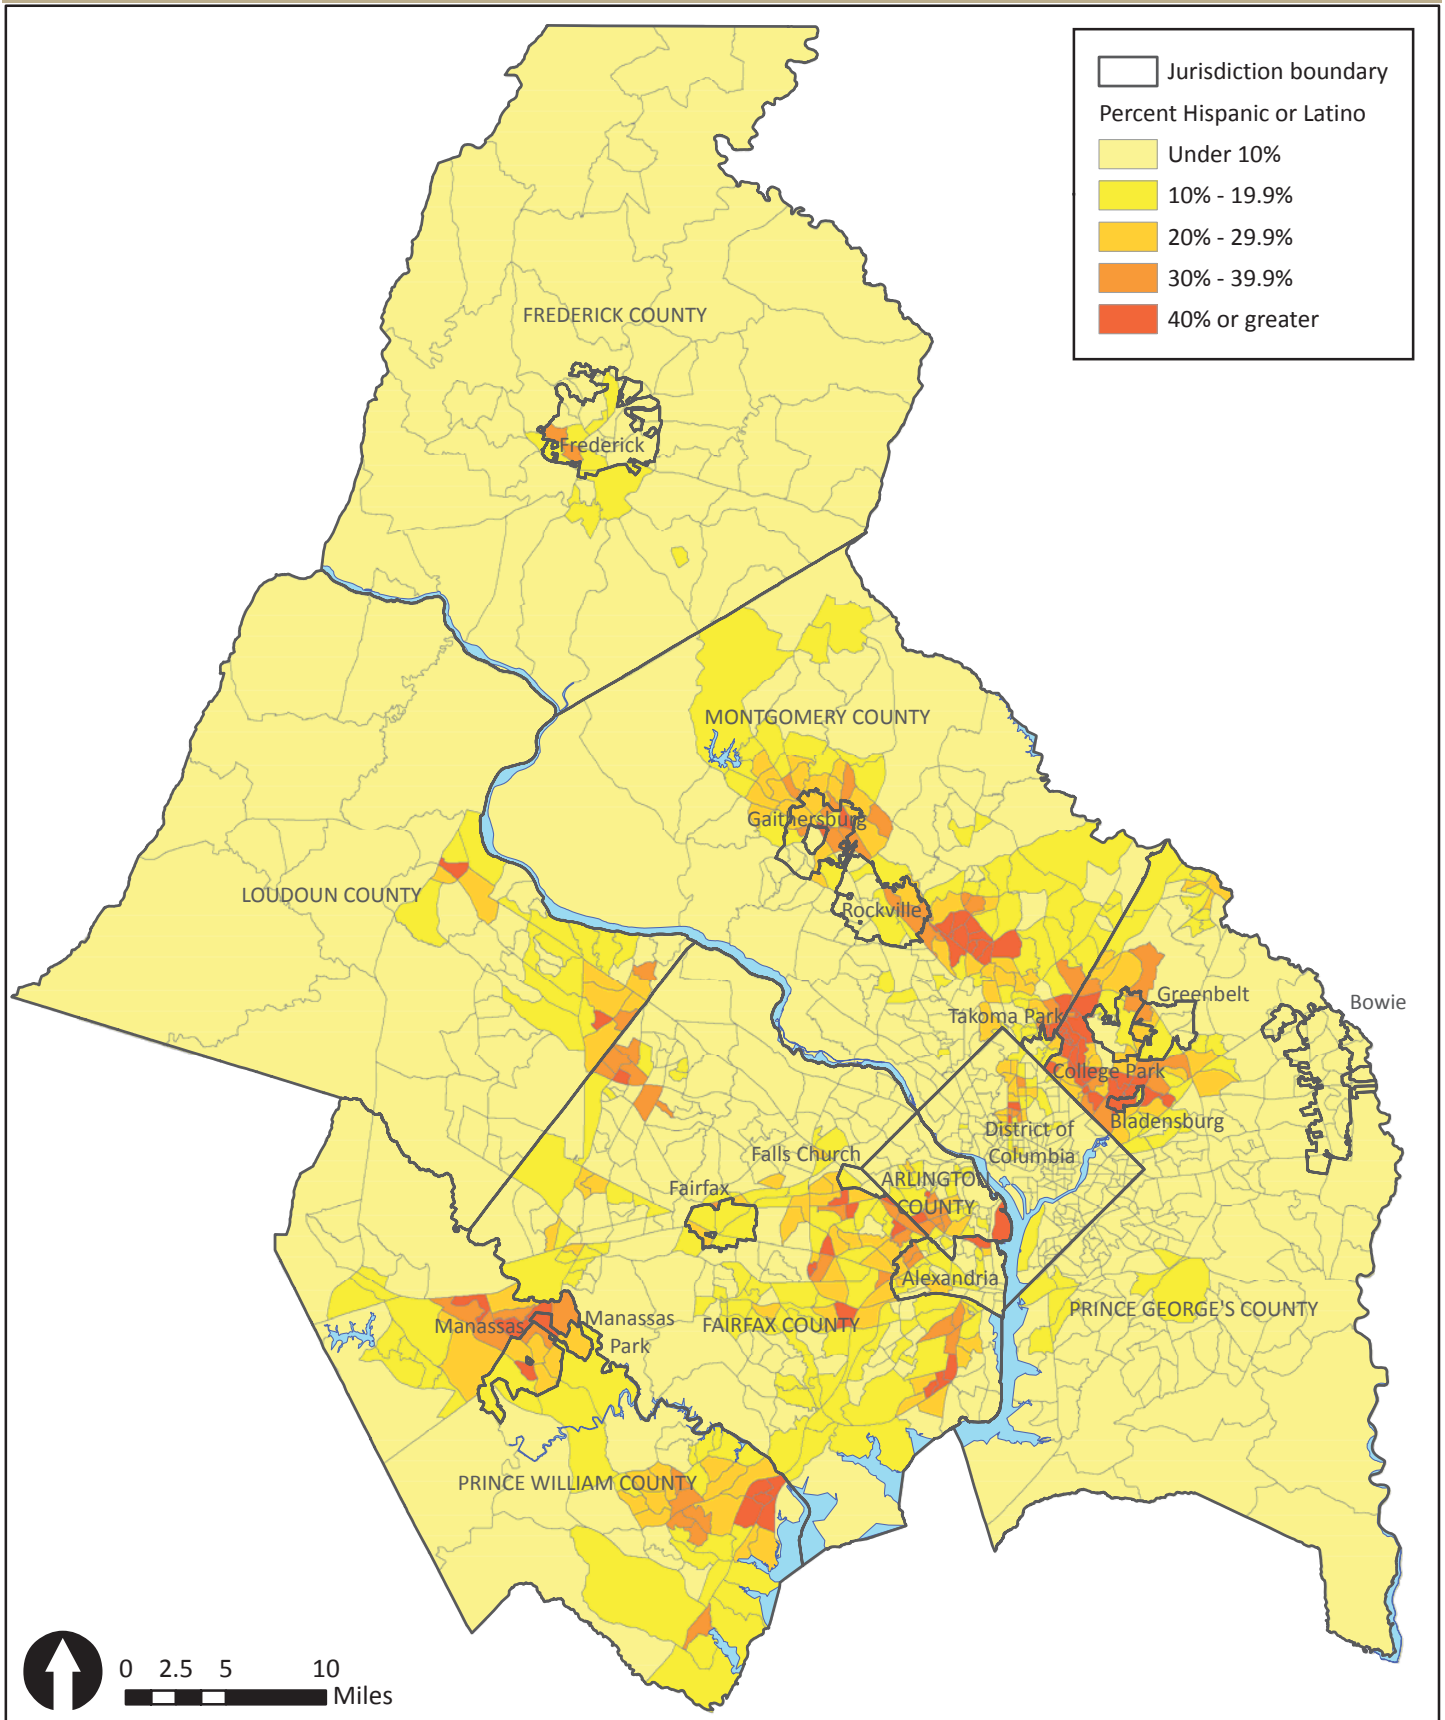

Between 2000 and 2010, the population identifying as Hispanic or Latino in the Washington Metropolitan Region increased substantially. The region had an overall increase of 60 percent over 2000 levels. The Hispanic or Latino population increased in all jurisdictions except for Takoma Park and Arlington County. Prince George’s County had the largest absolute change, with an increase of 66,969 persons of Hispanic or Latino origin. In ten jurisdictions, the 2010 Hispanic or Latino population was more than double 2000 numbers. City of Frederick, Loudoun County, and Frederick County had the highest proportional increases, each with gains of over 200 percent over 2000 levels.

Metropolitan Washington Council of Governments
Proposed Census Analysis Reports
September 2011

Beginning with the 2010 Census, the decennial Census questionnaire only provides information on age, gender, race and ethnicity, and housing unit tenure (owned / rented). The detailed demographic, economic and housing data collected annually through the American Communities Survey (ACS) replaces information previously collected every 10 years in the decennial Census "long-form". COG staff proposes a series of brief, topical 2010 Census reports and an ongoing annual series of more-detailed profile reports drawn from the ACS.

2010 Decennial Census Topical Reports

- Our Changing Region: Highlights from the 2010 Census (*July 2011*)
- Our Changing Region: Housing Characteristics of the 2010 Census (*Fall 2011*)
- Our Changing Region: Detailed Population Profile – (*Spring 2012*)

American Community Survey

- Detailed Housing Characteristics (*Spring 2012*)
- Income, Poverty and Educational Attainment (*Fall 2012*)
- Journey-to-work and Commuting (*Winter / Spring 2013*)
- Migration and Immigration/ Nativity / Languages Spoken at Home (*Spring 2013*)
- Changes in household size and composition (*Summer / Fall 2013*)
- "Our Changing Region" -- summary highlights of the 5-year American Communities Survey 5-year data (*Annual*)
- Other topical reports or tabulations (*as requested / directed*)

***SEE ATTACHED CHART FOR ATTENDANCE**

STAFF

**David J. Robertson, Executive Director
Sharon Pandak, General Counsel
Diane Humke, Clerk to the Board**

1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE

Chairman Harrison called the meeting to order at 12:15 p.m.

2. CHAIRMAN'S ANNOUNCEMENTS

The annual COG leadership retreat being held on July 22-24 is less than two weeks away. Suggestions from the Board and staff have created a very interesting and rewarding agenda and Chairman Harrison stated that she is looking forward to seeing all who attend.

The deadline for submitting the performance evaluation for the Executive Director is July 15 and must be submitted to Human Resources Management Director Imelda Roberts. The summary and results of the evaluation will be discussed during a Board retreat session on Saturday afternoon. The Employee Compensation & Benefits Review Committee is responsible for this, but all other Board members who wish to attend may also do so.

At this year's NARC Conference two of our members were elected to the NARC Board. Penny Gross was elected Senior Vice President of the NARC Board of Directors, which puts her in line to become the NARC Board President and Walter Tejada was elected to represent District III of NARC, which includes the District of Columbia, Maryland, Virginia, and West Virginia. He will be replacing Penny, who previously served as District III representative.

Their elections were covered in a recent *Arlington Connection* news story, which was passed out at the meeting.

3. EXECUTIVE DIRECTOR'S REPORT

The Executive Director briefed Prince George's Councilmember Mel Franklin on the Emergency Preparedness Council. He met with Maryland Department of Emergency Management on the EPC Senior Leaders seminar.

Met with Montgomery County Chief Administrative Officer Tim Firestine, EPC Chair Phil Andrews and Office of Personnel Management Director John Berry to discuss the Steering Committee's work to date.

Participated in the launch of greenSPACE, a regional green building learning center, met with Arlington County Manager Barbara Donnellan to discuss program activities and attended the National Association of Regional Councils annual conference in San Diego, California.

In Loudoun County along with the DTP Director briefed the Board of Supervisors on the Street Smart Pedestrian safety program. DEP director and staff organized a meeting on COG's UASI-funded Hospital Power & Water Resiliency project in Fairfax County. DCPS staff participated on a panel in Montgomery County on the public television access TV show "In Transition with Libra" about regional trends in foster care.

In the District of Columbia, DCPS Director participated as a member of the PNC Bank Community Development Advisory Board and attended a meeting of the DC Environmental Network on the Anacostia Restoration Program. DEP Staff were honored for their work on a paper on emergency planning for water providers & healthcare facilities by the Journal of the American Water Works Association.

4. AMENDMENTS TO THE AGENDA

Dan Drummond, City of Fairfax, requested time to speak and passed out materials relating to the DC Financial Planning Day that will be held in October.

Cathy Dryzgala, City of Gaithersburg asked if the event was only held in DC and Mr. Drummond said that the idea of having it in different jurisdictions could be entertained. Mr. Robertson suggested that we take the issue up during the September board meeting.

5. APPROVAL OF MAY 11, 2011 MINUTES

The minutes of the June 8, 2011 meeting were approved and adopted.

6. CONSENT AGENDA

Supplemental Documents: Resolutions R32-2011 thru R34-2011

A. APPROVAL OF COG – LINEA DIRECTA PARTNERSHIP AND FY 2012 CONTINGENCY RESERVE INVESTMENT

The COG Board adopted Resolution R32-2011, authorizing the Executive Director or his designee to execute a partnership agreement with Linea Directa, a not-for-profit corporation, to produce and broadcast regional public affairs programming targeted to Spanish-speaking residents in the National Capital Region in an amount not to exceed \$7,500. The COG Board approved this pilot program at its June 2011 meeting. The partnership agreement will be funded from COG's FY 2012 unallocated contingency reserve. The COG Board will be asked to approve \$7,500 from the FY 2012 unallocated contingency reserve of \$275,000, leaving an unallocated balance of \$267,500. COG staff will report to

the COG Board concerning partnership outcomes and any recommendations for partnership continuation or modification by January 2012.

B. RESOLUTION AUTHORIZING THE EXECUTIVE DIRECTOR TO ENTER INTO A CONTRACT WITH NEW WORLD APPS, INC. FOR NETWORK OPERATIONS SUPPORT

The Board adopted Resolution R33-2011 authorizing the Executive Director, or his designee, to enter into a new contract with New World Apps, Inc. In an effort to minimize costs, COG has been outsourcing some of its IT operations and issued RFQ 11-007 in order to continue operating in this manner. By having some IT services outsourced COG is able to utilize specialized skills and consultants for short term project engagements. In addition to on-site technical support and specialized project support, the contracted vendor will provide secure data center hosting for the RICCS text alert system. The contract for those services was recently re-bid through a competitive process. New World Apps, Inc. was the selected vendor for the new contract in an amount not to exceed \$213,600 for the first year. Four 1-year renewal options are included with the contract with an annual increase of 3.3% over the prior year. The funds for this contract are included in COG's approved FY 2012 work program and budget.

C. RESOLUTION AUTHORIZING THE EXECUTIVE DIRECTOR TO RECEIVE AND EXPEND FUNDS FROM THE FREDDIE MAC FOUNDATION TO SUPPORT THE WEDNESDAY'S CHILD PROGRAM

The Board adopted Resolution R34-2011 authorizing the Executive Director to receive funds from the Freddie Mac Foundation in the amount of \$79,000 to support the Wednesday's Child program, consistent with COG's approved FY2012 Work Program and Budget. No additional matching funds are required.

ACTION: Upon motion made, and seconded, Resolutions R32-2011 through R34-2011 were unanimously approved and adopted.

7. HUD SUSTAINABLE COMMUNITIES REGIONAL PLANNING GRANT APPLICATION

Supplemental Documents: Presentation and Resolutions R35-2011 and R36-2011

Last year HUD issued a request for application for a Sustainable Communities Regional Planning Grant. COG applied for the grant but was unsuccessful in being awarded the grant. HUD has issued an advanced notice and is anticipated to issue a request for applications in response to a second round of the Sustainable Communities Regional Planning Grant Program funded through FY 2011 federal appropriations.

John Mataya, COG planner and grant manager provided an overview of COG's proposal. COG, with the support of a new regional sustainability consortium, will produce a regional plan for sustainability that will prioritize needed regional infrastructure investment or actions in transportation, water, environment, housing and other critical elements. The regional plan will complement and help guide local, state, regional and federal investment, as well as investment and actions by business and civic interests. It will better integrate what have often been in the past stove-piped or disconnected regional goals and build on COG's successful Region Forward report, which outlined broad goals in accessibility, livability, prosperity and sustainability. The regional plan for sustainability and its clearer, regional priorities will make the region and local and state governments more competitive for new federal grants from HUD, DOT and EPA.

The regional plan for sustainability will define, embrace and promote the concept of Complete Communities. This is an evolution of COG's regional activity centers approach, which largely examined a limited number of land use and transportation characteristics. Complete Communities will be described using a more varied mix of attributes key to successful and sustainable communities,

including environmental protection and quality of life. Complete Community attributes will include a mix of housing and transportation choices, retail and job opportunities, and educational and recreational resources. Again, this work will build on the targets and performance measures described in Region Forward. Complete Communities will enable COG and the regional sustainability consortium to provide a more vivid and aspirational description of the centers and other places that local governments have chosen for scarce public and private sector investment. The sustainability plan will seek ways to leverage and maximize investments by positioning these centers and priority places for competitive funding opportunities.

COG staff received a debrief by HUD officials on their first round grant strengths, weaknesses and areas that needed improvement. COG also consulted with other organizations who were awarded the grants in the first round and are in a favorable position to be awarded the grant this time around.

Andrew Fellows, College Park, asked if any of the money would come from the current or future budget years, Mr. Mataya said no, the money has already been appropriated.

Andrea McGimsey, Loudoun County asked if the Silver Line could be highlighted as an area to focus on and Mr. Mataya said that the issue could be looked into.

Judith Davis, Greenbelt, asked about underdeveloped areas and Mr. Mataya said that they were taken into consideration with regards to the grant and areas to focus on.

Karen Toles, Prince George's County asked about equality throughout the region but specifically within Prince George's County, Mr. Mataya said that those issues would be addressed.

Virginia Delegate James Scott asked about telework tax credits for the region; Mr. Robertson said that there would be follow-up to address the idea.

ACTION: Upon motion made, and seconded, Resolutions R35-2011 and R36-2011 were unanimously approved and adopted.

8. FY 2012 PENSION, COMPENSATION AND CAPITAL BUDGET ACTIONS

Supplemental Documents; Resolutions R37-2011 thru R40-2011

Mr. Robertson presented to the Board a recommendation by the Pension Plan Administrative Committee to increase the employee contribution to COG's defined benefit pension plan from 7.0 to 7.5 percent (the employer contribution was increased from 8.0 to 8.5 percent as part of the COG FY 2012 indirect cost allocation plan) and re-balance investment allocation;

Mr. Robertson also presented the recommendation by the Employee Compensation and Benefits Review Committee to approve a one-time 2.0 percent general salary increase for COG employees to offset additional employee pension and health care costs (COG management suspended its pay-for-performance merit salary compensation plan in FY 2010, FY 2011 and FY 2012 and discontinued an annual cost-of-living adjustment in 2000.

George Danilovics outlined COG management recommendations to approve the FY 2012 capital repair and replacement plan. The FY 2012 Work Program and Budget allocated \$244,000 of building and interest income for high-priority facility, technology or other capital expenses to ensure COG maintains its capital assets and is able to fully support its members, regional partners and staff.

Bruce Williams asked if COG would ever model their Pension after the Private sector; Mr. Robertson stated that COG would try to maintain funding as is.

Penelope Gross, Fairfax County, asked if some of the tripping hazards would be resolved with the Board room renovations; Mr. Danilovics stated they would be taken care of.

Chairman Harrison asked if the electrical outlets on the floor would still be elevated; Mr. Danilovics said they would be elevated but there are options as to making them not be a tripping hazard.

David Snyder stated that he would be abstaining from voting on resolution R39-2011 with regard to compensation, he feels there is a better way to address the issue. He also stated he would abstain from resolution R40-2011 renovations because he feels some of the renovations are not necessary.

ACTION: Upon motion made, and seconded, Resolutions R37-2011 and R38-2011 were unanimously approved and adopted. Resolution R39-2011 was approved and adopted, Snyder and Gray abstained. Resolution R40-2011 was approved and adopted, Snyder abstained.

9. PRESENTATION OF FOSTER CARE ANNUAL REPORT

Supplemental Documents: Foster Care Report

The overall number of area children in foster care has declined according to the COG 2010 Foster Care Annual Report. The report, which was presented at yesterday's COG Board meeting, found that in 2010 there were 4,043 children in foster care which is down from previous years.

"While fewer children are being served in foster care, the ones who remain in our region's system have more significant needs. These children are more likely to be teenagers, children with special medical needs, and large sibling groups," said Agnes Leshner, Director of Child Welfare Services for Montgomery County and the Chair of COG's regional Child Welfare Directors Committee.

While the majority of foster children are either reunited with family or adopted, a growing number of children are aging out of the region's foster care system without finding permanent homes. The report found that between 2008 and 2010 there has been a 27 percent increase in children who 'age out' of the system. Child welfare experts say these young people sometimes have trouble navigating through the next phase of their lives and can be at risk for unplanned pregnancies, homelessness, or incarceration. COG's Child Welfare Committee urges area governments and organizations to provide additional support for these children.

COG's Child Welfare program plans to focus on older children, who 'age out' of the system in the coming year.

Dan Drummond, City of Fairfax, commented that he could attest to the power of the Wednesday's Child program. He was featured as a Wednesday's Child in Hampton Roads and matched up with the Big Brothers/Big Sisters program.

10. INCIDENT MANAGEMENT AND RESPONSE STEERING COMMITTEE – PROGRESS REPORT

Supplemental Documents; PowerPoint presentation

In March 2011, the COG Board of Directors approved creating an ad hoc steering committee to identify and seek improvements to regional incident management arising from the January 26 snow/ice event and the implications for other events in the National Capital Area Region. The committee has met several times since March and has focused on four topics of interest.

The first is improving situational awareness and coordination making sure that government at all levels, and our private sector and other partners, share the same information at the same time.

The second focus area of the committee is getting information out to the public. Miscommunication has been a big issue when major incidents have occurred. As a result OPM is re-evaluating policies and procedures to better improve the system.

The second is to establish a virtual joint information center. When operational later this year, the information center will provide a central, web-based hub for sharing information.

Information delivery will be active, meaning if people sign-up and we hope they will, information will be pushed out on a real-time basis. We won't have to wait for people to connect when it is too late to have the information make a difference.

The third focus area is improving regional coordination. The committee is very pleased that increased funding is in the pipeline for MATOC as the Committee will look to this organization to strengthen performance and capacity this winter season. Special thanks go to TPB members Dave Snyder and Phil Mendelson who have pushed to lock down funding support.

The fourth focus area was the toughest and probably needs more discussion. The committee learned that there is no single individual or organization with decision-making authority for the entire National Capital Region, and that such authority, based on investigation so far, does not exist elsewhere in the U.S. Managed coordination within existing authority, especially in our tri-state region, is likely to be the best possible outcome.

The region was successful in implementing changes to regional mutual aid agreements, but it took action at the local, state and federal level to secure indemnification necessary for aid to cross jurisdictional lines. Getting a sovereign jurisdiction to cede or delegate authority to another jurisdiction or organization is even tougher. The committee believes there may be easier ways to accomplish the same goals.

In August, the committee will review a draft report that begins to organize information to date and outline the committee's ideas and recommendations. The committee will meet again in September and October to prepare a final draft report that will be presented to the COG Board in November.

Chairman Harrison asked if Verizon was going to be involved. Mr. Andrews stated yes, Verizon is involved.

Penelope Gross, Fairfax County, asked if the organizations who utilize volunteers to get emergency information out to the public were getting the information necessary for the volunteers to relay out. Mr. Andrews replied that the point is for everyone to have access to the information and the process of how to reach everyone is being researched.

Dan Drummond, City of Fairfax, asked about upgrading the communication system so there would not be a communication overload. Would there be a dedicated channel through social media similar to the broadcast system. Mr. Andrews said the issue will be addressed and there is a smart phone app that is being developed to help get information out to the public.

David Snyder, Falls Church, asked if there was a structure for determining what information is being communicated, what are we advising people to do and can we structure the system similar to the way London does. Mr. Andrews agreed that good information and advice is important and other jurisdictions ways of communicating information are being looked at.

Walter Tejada, Arlington County, asked if there was a comprehensive communications plan that included people who did not have advanced technology and if radio, and Spanish stations would be getting the information. Mr. Andrews stated that many different media options are being examined and those issues will be addressed.

Bruce Williams, Takoma Park asked if there was a way to encourage employers to have mandatory leave policies that was clear. Mr. Andrews stated that employers might have to have mandatory stay policies as well and OPM is working on finding the most effective way to address those issues.

Cathy Dryzgula, City of Gaithersburg, asked if a mobile phone based system would be implemented, Mr. Andrews stated that it is being considered.

11. OTHER BUSINESS

None.

12. ADJOURN-THE NEXT BOARD MEETING WILL BE ON WEDNESDAY, SEPTEMBER 14, 2011.

6. CONSENT AGENDA

**Resolution R41-2011
September 14, 2011**

**METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS
777 NORTH CAPITOL STREET, NE
WASHINGTON, DC 20002-4239**

**RESOLUTION AUTHORIZING THE EXECUTIVE DIRECTOR TO ISSUE A CONTRACT TO
CONDUCT A SERIES OF THREE REGIONAL TRANSIT SEMINARS FOR THE
WASHINGTON METROPOLITAN TRANSIT AUTHORITY**

WHEREAS, the Metropolitan Washington Council of Governments (COG) serves as the Secretariat for the Urban Area Security Initiative for the National Capital Region; and

WHEREAS, COG has been requested by the Washington Metropolitan Transit Authority (WMATA) to issue a contract to conduct a series of three regional transit seminars focused on improving coordination and communication between transit agencies, roadway departments, and first responders; and

WHEREAS, the contractor shall develop materials, supplies, and deliver a series of three regional transit seminars consistent with the COG contract approved by WMATA; and

WHEREAS, funding for the contract to conduct three regional transit seminars has been provided to COG by the State Administrative Agent for the National Capital Region.

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE
METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS THAT:**

The Executive Director or his designee is authorized to execute a contract to conduct three regional transit seminars for WMATA. The State Administrative Agent for the National Capital Region has provided COG with a Subgrant in the amount of \$110,000 to complete the seminar series. No COG funds will be required.

R42-2011
September 14, 2011

METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS
777 NORTH CAPITOL STREET, NE
WASHINGTON, D.C. 20002-4239

RESOLUTION IN SUPPORT OF AUTHORIZING COG TO ENTER INTO A GRANT AGREEMENT WITH THE U.S. FOREST SERVICE THROUGH THE DISTRICT OF COLUMBIA TO CONDUCT AN URBAN FOREST CANOPY ANALYSIS WITHIN THE METROPOLITAN WASHINGTON REGION.

WHEREAS, State and local governments and private citizens have a vested interest and investment in the sound management and protection of forests, urban forests and other green infrastructure such as community parks, recreation areas, riparian buffers; and

WHEREAS, the term "green infrastructure" refers to an interconnected network of waterways, wetlands, woodlands, wildlife habitats, and other natural areas; greenways, parks and other conservation lands; working farms, ranches, and forests of conservation value; and

WHEREAS, the U.S. Forest Service and the District of Columbia recognize COG's previous work in both Anacostia forestry management and protection and regional forest cover mapping, and that this funding will complement COG's efforts to enhance knowledge of forested lands within the metropolitan region in order to gain a better understanding of how forest cover is affecting regional water quality, air quality and its importance for the restoration of the Chesapeake Bay watershed; and

WHEREAS, the Council recognizes that regional forests and urban forest canopy cover are an integral part of a greater national and international effort to systematically plan for and manage park, recreation, forest, agricultural and other green infrastructure lands; and

WHEREAS, the Commonwealth of Virginia, the state of Maryland and the District of Columbia have recognized that all of the region's forests and tree canopy play a vital role in the ecological health of the region, and have a vested interest in maintaining a healthy urban environment; and

WHEREAS, the Council, the U.S. Forest Service and the District of Columbia have demonstrated a commitment to work in a collaborative partnership on forestry and urban forestry issues through a holistic green infrastructure approach in the Metropolitan Washington Region;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS THAT;

The Executive Director, or his designee, is authorized to enter into a cooperative agreement with the U.S. Forest Service and the District of Columbia to conduct a two-year study of urban tree canopy in the District of Columbia, Anacostia Watershed in Maryland, Arlington County and the City of Alexandria. This cooperative agreement provides COG with \$165,000 of U.S. Forest Service Funds for a two-year tree canopy analysis project. A \$15,000 local match required. The COG match will be provided through FY 12 and FY13 Urban Nonpoint Source program funds. The project duration is two years.

**Resolution R43-2011
September 14, 2011**

**METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS
777 NORTH CAPITOL STREET NE
WASHINGTON, DC 20002-4239**

**CO-SPONSORSHIP OF "GIVE TO THE MAX DAY" CAMPAIGN IN THE NATIONAL
CAPITAL REGION.**

WHEREAS, the Metropolitan Washington Council of Governments (COG) strategic plan adopted in 2011 includes several goals that identify human services needs of communities and families in the National Capital Region; and

WHEREAS, COG has successfully partnered with not-for-profit organizations and associations to address important human and community service needs in the National Capital Region; and

WHEREAS, COG co-sponsored a roundtable in June 2011 with the Nonprofit Roundtable of Greater Washington that included a panel discussion with District of Columbia Mayor Vincent Gray, Fairfax County Chairman Sharon Bulova, Montgomery County Executive Isaiah Leggett, Prince George's County Executive Rushern Baker on public sector commitment to the non-profit sector and the need for stronger partnerships between local governments and not-for-profit organizations; and

WHEREAS, continued economic challenges have reduced funding for not-for-profit organizations at the same time that many community and family needs have risen; and

WHEREAS, several regionally serving organizations have agreed to launch a "Give to the Max Day" program in the National Capital Region; and

WHEREAS, "Give to the Max Day" is modeled on a successful program in Minneapolis that used social media, web-donations, and other online giving tools to raise \$14 million for Minnesota not-for-profits in one 24-hour period; and

WHEREAS, "Give to the Max Day" in the National Capital Region will be announced on September 15 and held on November 9; and

WHEREAS, the campaign is intended to engage donors who may not participate in workplace giving or more traditional not-for-profit fundraising campaigns; and

WHEREAS, COG has been asked to join the Center on Non-Profit Advancement, Community Foundation for the National Capital Region, Greater Washington Board of Trade, Leadership Greater Washington, Nonprofit Roundtable of Greater Washington, United Way of the National Capital Area, and the Washington Regional Association of Grantmakers in co-sponsoring "Give to the Max Day".

**NOW, THEREFORE, BE IT RESOLVED, BY THE BOARD OF DIRECTORS OF THE
METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS THAT:**

1. The COG Board of Directors endorses "Give to the Max Day" and agrees that COG will co-sponsor this initiative in 2011. COG will be responsible for coordinating outreach and engagement with area local governments and helping to promote "Give to the Max Day". No funding support from COG will be required.
2. The COG Executive Director will ask "Give to the Max Day" co-sponsors and campaign managers to brief the COG Human Services and Public Safety Policy Committee in early 2012 on the outcomes of this initiative to help assess its impact and cost-effectiveness prior to any decision to co-sponsor this initiative in future years.

**METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS
777 NORTH CAPITOL STREET NE
WASHINGTON, DC 20002-4239**

**RESOLUTION TO SUBMIT GRANT APPLICATION TO THE WALMART FOUNDATION
TO SUPPORT REGIONAL SUSTAINABILITY INTERNSHIP PROGRAM**

WHEREAS, in 2011 COG surveyed local governments to determine progress towards achieving the sustainability measures recommended in COG's Climate and Energy Action Plan and *Region Forward*; and

WHEREAS, COG learned that limited staff is an impediment for some local governments to implementing and documenting sustainability measures; and

WHEREAS, COG's environmental sustainability activities seek to spur growth of the region's economy and reduce energy use and greenhouse gas emissions across the region; and

WHEREAS, *Region Forward* and the National Capital Region Climate Change Program, create an excellent framework for regional collaboration on sustainability, economic opportunities, and workforce development; and

WHEREAS, MobilizeGreen is a DC-based nonprofit that helps local governments and communities advance sustainability priorities, while helping minority college students secure hands-on job training through internships that will have measurable impacts; and

WHEREAS, Minority college students currently face a 19.1 percent unemployment rate and are unprepared for or are unaware of sustainability career options; and

WHEREAS, ICLEI-Local Governments for Sustainability USA is a 501(c)(3) nonprofit membership organization of U.S. cities, towns, and counties working to address climate change, clean energy, and local sustainability; and

WHEREAS, it is recommended that COG, in partnership with MobilizeGreen and ICLEI USA – Local Governments for Sustainability (ICLEI), propose an innovative, regional sustainability and workforce development initiative;

**NOW, THEREFORE, BE IT RESOLVED, BY THE BOARD OF DIRECTORS OF THE
METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS THAT:**

1. COG will partner with MobilizeGreen and ICLEI to recruit, train, and place ten (10) interns in host local governments to work on projects that advance COG's Region Forward and advance regional sustainability goals.
2. COG members will be encouraged to host student interns.

3. COG, on behalf of its partners MobilizeGreen and ICLEI, shall submit a grant proposal to the Walmart Foundation in an amount not to exceed \$150,000 for program development, intern stipends, and project evaluation of a sustainability internship program. No COG match is required.

8. COG SPONSORSHIP OF FINANCIAL PLANNING DAY

Prepared for:

Metropolitan Washington
Council of Governments

2011 Metro Washington Financial Planning Day

Presented By:

National Media
Sponsor:

Agenda

- Alignment with MWCOCG's Strategic Plan
- Partners
- 2011 Local Jurisdictions
- 2010 Survey Data
- How Your Local Government Can Get Involved
- Action Items and Next Steps

Alignment with MWCOG's Strategic Plan

- **Financial Planning Days objective:** To unite the collective resources of the financial planning community and city governments nationwide and provide financial guidance to Americans through a series of free Financial Planning Day events across the country – with “no strings attached.”
- **MWCOG's strategic plan:** adopted in 2011, the plan includes several goals that identify human services needs of communities and families in the National Capital Region.

Partners

National Partners

- CFP Board
- Financial Planning Association
- Foundation for Financial Planning
- The U.S. Conference of Mayors

Latest information on dates and venues available at
www.FinancialPlanningDays.org

2010 Event Survey Data

The public likes Financial Planning Days:

- More than 98% would recommend Financial Planning Day to a friend or family member
- 95% rated their experience at Financial Planning Day as satisfactory or better; almost half (46.7%) rated their experience as excellent

How Your Local Government Can Get Involved

- Promote 2011 Metro Washington Financial Planning Day in your community:
 - municipal agencies and employees
 - constituents
 - community groups
 - local media

- Receive tools and resources to organize a financial planning event in your local jurisdiction at a later time

Action Items and Next Steps

MWCOG to pass resolution to co-sponsor Metro Washington Financial Planning Day:

- MWCOG will help with outreach and engagement with local area governments in order to help promote the 2011 Financial Planning Day
- No funding support from COG will be required

September 14, 2011**

**METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS
777 NORTH CAPITOL STREET NE
WASHINGTON, DC 20002-4239**

COG SPONSORSHIP OF FINANCIAL PLANNING DAY

WHEREAS, The Metropolitan Washington Council of Governments (COG) strategic plan adopted in 2011 includes several goals that identify human services needs of communities and families in the National Capital Region; and

WHEREAS, The national recession has had a significant impact on the ability of individuals and families to not only afford essentials but plan for their future; and

WHEREAS, Improving financial education and planning skills of residents in the National Capital Region is key to helping emerge from the economic downturn; and

WHEREAS, The Certified Financial Planner Board of Standards, the Financial Planning Association, the Foundation for Financial Planning and the US Conference of Mayors have joined forces to offer "Financial Planning Days" throughout the country; and

WHEREAS, This groundbreaking program is designed to unite the collective resources of the financial community and local governments nationwide to assist Americans in need of financial guidance through a series of free Financial Planning day events; and

WHEREAS, Many metropolitan regions across the country including Baltimore, MD, Seattle, WA and Philadelphia, PA are hosting such events to provide guidance and empower their residents; and

WHEREAS, COG has been asked to join the Certified Financial Planner Board of Standards, the Financial Planning Association, the Foundation for Financial Planning, the US Conference of Mayors and the District of Columbia in co-sponsoring "Financial Planning Day" for the National Capital Region .

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE
METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS THAT:**

The COG Board of Directors endorses "Financial Planning Day" and agrees that COG will co-sponsor this initiative in 2011. COG will coordinate outreach and engagement with area local governments and help to promote "Financial Planning Day". No funding support from COG will be required.

9. COG RETREAT OUTCOMES

Metropolitan Washington Council of Governments
Annual Retreat
July 22 – 23, 2011
Hyatt Regency Chesapeake Bay
Cambridge, Maryland

Summary Report

Background

The Metropolitan Washington Council of Governments (COG) held its twelfth annual retreat on July 22-23 at the Hyatt Regency Chesapeake Bay in Cambridge, Maryland.

COG initiated an annual, summer retreat process beginning in 1999. At the first retreat, there was an intensive facilitated process that resulted in the landmark COG Strategic Plan “New Directions, Shaping Opportunities” formally adopted by the COG Board in November 1999. The 1999 Strategic Plan has provided an excellent framework guiding the work of COG policy boards and committees, technical committees and staff. Following the 2004 retreat, the COG Board adopted its first major revision and refinement to the Strategic Plan. The Strategic Plan is now more fully integrated into the COG fiscal year work program and budget.

Since 1999 COG has used the summer retreat as an opportunity to address specific regional policy and agency operational issues and further develop COG’s strategic direction. The retreats have also served as an important networking opportunity among COG members and senior staff.

Retreat Evaluation

At the outset, participants identified their expectations and outcomes of the weekend retreat: identification of priority issues for COG with a focus on doing fewer things better, provide staff with guidance to implement priorities, have opportunities to build and strengthen relationships and of course, have fun. COG received retreat evaluation forms from 9 participants on how well expectations were met. Most responses were positive; a summary is provided in Attachment A.

One Region Moving Forward

As a result of the work of the Greater Washington 2050 Coalition, the COG Board decided to consolidate its work and policies on regional growth and development under one program that has been branded *Region Forward*. The primary focus of this year’s retreat was examining the steps COG and its member local governments should consider in order to achieve the goals outlined in the *Region Forward* planning guide and revitalize economies still suffering from the

effects of the recession. The retreat featured sessions that described the region's changing demographic make-up, the need for community energy plans and a metropolitan business plan.

The opening dinner and keynote address focused directly on how the National Capital Region can continue to thrive given the federal government's changing fiscal priorities. Jared Bernstein, a senior fellow with the Center on Budget and Policy Priorities, discussed the ways local officials are trying to stimulate economic activity and suggested a focus on business sectors that are expanding such as health care and green energy.

The Saturday morning session provided a detailed look at the region's changing demographic picture and how those changes will influence the region's workforce, economy and public services. Paul DesJardin, COG's Director of Planning and Community Services, outlined the changes that were evident in the 2010 Census as well as in the American Community Survey (ACS,) a new census survey that has replaced the old long form census document.

Participants were most interested in several issues: what (in addition to the federal presence,) is driving growth in the region, how should officials engage newer residents and involve them in the political process, and the need to use new data to inform decisions on affordable housing and transportation. **The group concluded that COG's *Region Forward* initiative should use census data to be proactive in making decisions.**

Saturday's mid-morning session on Community Energy Planning discussed strategies local communities can adopt to reduce energy costs, control emissions and increase reliability. Peter Garforth, detailed major uncertainties such as the shift in weather patterns and the increasing cost and declining reliability of energy sources prove the need for community energy planning.

Participants discussed how the process has worked in COG members jurisdictions including Arlington, Loudoun and Montgomery Counties. A key point of interest was whether the energy needs of storm water management can be part of the community plan because of the growing cost and challenge of that issue. Elected officials from various jurisdictions within Maryland and Virginia also discussed the possibility of working together on the issue. **Several participants suggested that COG help with the process.**

Saturday's luncheon focused on metropolitan business planning and whether the concept would work for the region. Amy Liu, the deputy director of the Metropolitan Policy Program at the Brookings Institution, discussed the economy as a main reason for developing such a plan and focused on several points that are the key to developing a metropolitan business plan.

Participants discussed whether a metropolitan business plan would work because the region crosses state lines. **It was suggested the idea is worth exploring further.**

During the next afternoon session, Dave Robertson led discussions about pursuing opportunities to recruit new member governments for COG and the use of new technologies to enhance public and member participation.

Participants concluded that new members should come from jurisdictions already contiguous to the existing region so the organization wouldn't lose its focus on metropolitan Washington. They agreed that retaining current members and adding value to their membership is of primary importance.

It was agreed that the Executive Director will reach out to Laurel, Leesburg, and Charles County for potential membership in COG. It was suggested that staff examine opportunities for COG Board of Directors video conference participation.

The final session of the retreat focused on the transportation and land-use projects that might qualify for another round of funding under the Department of Transportation's TIGER (Transportation Investments Generating Economic Recovery) grant program. The region succeeded in winning a \$56 million grant in the initial round of funding and the Transportation Planning Board (TPB) has developed a list of regional priorities that can be used quickly when other funding opportunities come up.

Participants discussed many of the region's transportation and land-use projects and whether they might be included among the six sites to be submitted for the next round of funding under the TIGER grant. Projects will need to be considered regional priorities to be considered, and the environmental and affordable housing merits of a project also will be considered. **The participants agreed on the value of regional projects that integrate transportation, land-use and environmental values.**

The 2011 retreat ended after a brief summary of each session.

2011 RETREAT SURVEY

9 Surveys received.

What were your expectations for the retreat?

- Good opportunity to interact with elected leaders from around the region.
- Get to know colleagues better
- Learn from presentations
- Learn from experiences of other jurisdictions.
- Networking; information
- Discussion on current and future issues of regional importance and conversation with regional colleagues.
- Great conversations on key issues.
- Regional networking, learning best practices, intellectual stimulation.
- Thought-provoking discussion, learning more about how we fit into region.
- Gain knowledge on current issues; network with colleagues.
- To gain knowledge through formal and informal discussions.

Were your expectations met?

8 of the respondents said yes; 1 respond no -- expectations not fully met.

Retreat activities: 1 being poor; 5 being excellent.

Shifting Roles: How the National Capital Region Can Thrive in a Changing Policy and Budget Environment

1- 0	4- 5
2- 1	5- 1
3- 2	

Comments:

- Very informative and motivational.
- Strong presentation by Jane Oates.
- Inspiring, but wanted more specifics.
- Speaker was terrific! Great choice – need to stay connected with her.
- We started to late; hard to stay awake.

Retreat activities: 1 being poor; 5 being excellent.

Census 2010 Snapshot: The Face of a Changing Region

1- 0	4- 6
2- 0	5- 2
3- 0	(1 No response)

Comments:

- Very interesting – Paul did a great job!
- I learned a great deal – very helpful.
- Good overview.
- Good information and stimulation of thought.
- Presentation was well done, but much of the information was familiar. Hard to give detail for such a large region. Had useful informal conversation with Mr. DesJardin during unscheduled time.

Retreat activities: 1 being poor; 5 being excellent.

Community Energy Planning: What Is It and How Can It Help Your Community Attain the Region Forward Sustainability Vision?

1- 0	4- 3
2- 0	5- 5
3- 2	

Comments:

- I've heard discussions on this topic before and I'm finally understanding it! But how to implement?! *Perhaps next time, run a slideshow/powerpoint all the way through to see that it works.
- Very useful.
- Garforth excellent, panel members excellent.
- One of the most information-packed sessions I've attended. Have shared some of the ideas already in our community.
- Not commenting or rating myself! I always think Peter does a great job and am hopeful region gets going on this work.

Retreat activities: 1 being poor; 5 being excellent.

Creating a Metropolitan Business Plan: New Job Opportunities and Partners

1- 0 4 - 7
2- 2 5- 0
3- 0

Comments:

- Would likely have been higher, but technical breakdown marred the presentation; derailed the speaker.
- Not very useful, but Brookings always interesting.
- Interesting but needs lots more conversation – too bad about Amy’s slides.
- Difficulty will be in getting 2 states and DC to agree.
- Powerpoint failure stalled momentum, but good information and discussion.

Retreat activities: 1 being poor; 5 being excellent.

Member Roundtables:

- **Opportunities to Recruit New Member Jurisdictions**
- **Using Technology to Enhance Public and Member Participation**

1- 0 4- 2
2- 0 5- 1
3- 2 (4 No responses)

Comments:

- Useful, but perhaps not the best use of time.
- Opportunity for good feedback.
- We had a chance for more interaction and reaction; good feedback.
- Did not attend but did review powerpoint. Recruiting new members outside current geographic area seems very difficult without an option for participation outside COG offices. My travel time is longer than the time actually spent in meetings. I support audio/visual teleparticipation – but also remember very strong objections from at least one board member when this option was discussed for emergency use. We have had relatively successful call-in participation on my COG committee in the past.

Retreat activities: 1 being poor; 5 being excellent.

Crosscutting Issues Dialogue: Region Forward and Transportation Priorities

1- 0 4- 3
2- 0 5- 0
3- 4 (2 – No responses)

Comments:

- Not sure they good any feedback on the prioritization challenge before the region.
- Not enough opportunity to really engage members in a useful dialogue about moving the region forward, and setting transportation priorities.
- Good discussion, but not as exciting as rest of agenda.
- We are such a car-centric community. It's hard to feel part of multimodal conversations until we get Metro out to Loudoun.
- Provided information but did not get to main item for discussion.
-

Retreat activities: 1 being poor; 5 being excellent.

Location and Facilities: 3 – 1; 4- 5; 4.5 – 1; 5-2.

Overall Retreat Rating: 3 – 1; 4- 5; 4.5 – 1; 5-2.

Overall Retreat comments:

- Value of conference is directly related to the extent of attendance. The disappointing turnout significantly tarnished the benefit of attending.
- Despite all of the topics and sessions, the day went very smoothly and quickly. All topics were interesting and pertinent.
- I always enjoy spending time with elected leaders and COG staff. Region needs this collaboration.
- Very good overall.

Additional Comments and Recommendations for Future Board Retreats:

- **Thanks for the flashdrive – looking forward to viewing graphs, etc.**
 - **Possible scenario training exercises.**
 - **Speaker before or during dinner on Friday? Would love to see a focus on the value of our rural areas surrounding the region and in some of the member jurisdictions, e.g., a local food/biofuel session.**
 - **It would be better if the schedule allowed for a real break between some of the sessions. The reality was that the Q&A went through the whole break time and was not always very informative. Perhaps allowing for a few public questions followed by an informal chance for individuals to speak with the presenter would work better.**
 - **Leave more time for informal discussions and start and end formal discussions as scheduled.**
- P.S.: Thank you for having the retreat!**

10. REGIONAL CRIME REPORT

Annual Report on Crime & Crime Control 2010

Overview: 2010

The Metropolitan Washington Council of Governments' (MWCOG) annual crime report is based on crime incidents reported by participating agencies in the metropolitan region. The 2010 Annual Report on Crime and Crime Control focuses on Part I offenses as defined by the Federal Bureau of Investigation, which include the crimes against person: homicide, rape, robbery, and aggravated assault; and the crimes against property: burglary, larceny, and motor vehicle theft. In 2010, the metropolitan Washington region recorded 135,974 total Part I offenses, a 5.3% reduction from 2009 levels (143,568).

Decreases were experienced in nearly all of the Part I categories: motor vehicle theft (-9.7%), aggravated assault (-7.1%), larceny (-5.7%), homicide (-5.6%), robbery (-4.5%), and rape (-1.9%). Burglary was the only Part I category to register an increase, with 275 more burglaries in 2010 (18,477) than 2009 (18,202).

Despite the slight increase in burglaries, the reduction in all Part I categories over the last five years is notable and consistent with national crime trends. Since 2006, the region has witnessed an overall 12.6% decline in Part I crime offenses, driven largely by tremendous reductions in motor vehicle theft (-42.2%), homicide (-28.5%), aggravated assault (-27.4%), robbery (-16.3%), and rape (-10.9%). Despite a 2008 spike in the number of reported larcenies and burglaries, crime data received from participating agencies indicates that the overall numbers for larceny and burglary have also declined over the last five years, by 4.3% and 1.7% respectively. And in 2010, the crime rate per capita decreased to 26,972 crimes per 1,000 people, an improvement over the 2009 rate of 29,345 per 1,000.

Crime Rate per Capita 2008-2010

While the crime rate is useful and commonly accepted as a basic indicator of overall crime trends, crime statistics must be viewed in context with environmental influences. Factors such as changes in reporting rates, demographics, the economy, the law, and changes in police policies and resources, can all have an influence on the number of reported crimes. Despite the challenges related to serving a rising population with fewer sworn officers, reduced budgets, and waning federal funding opportunities, law enforcement agencies managed to respond to more than 3 million calls for service in 2010.

Did you know?

Reducing the number of violent and property crimes is a target of *Region Forward*, a vision plan agreed to by the Metropolitan Washington Council of Governments and all 21 local governments in the area. Learn more about the plan at www.RegionForward.org

Crime Trends

Property Crime 2009 v. 2010

Violent Crime 2009 v. 2010

Preventing crime can be a challenge. Last year, the COG Police Chiefs Committee agreed they would continue to educate the public; encourage cooperation between communities, business leaders, and law enforcement; and expand the use of innovative technologies in order to reduce opportunities for crimes and make arrests. Overall, this appears to have been a successful strategy. For example, in the City of Fairfax, to combat increasing thefts from motor vehicles, the police department introduced the *Lock, Take, and Hide program*, which encourages residents to lock up their vehicles, and hide or remove valuables. The program is designed to influence the behavior of the public through strategically placed reminders on the back of busses, signs in parking lots, key chains, and other “giveaways” to motorists. The program continues to be introduced to community groups and civic associations during public speaking engagements, where it has received positive reviews and drawn a great deal of interest.

Technology has also played a significant role in the improvements seen in the metropolitan area, providing officers with the tools needed to detect, prevent, and respond to criminal activity. The National Capital Region Law Enforcement Information Exchange (NCR LInX) has been the bedrock of law enforcement information sharing efforts. Most recently, use of advanced analytics with LInX data resulted in the successful investigation and apprehension of the East Coast Rapist. The metropolitan Washington region has also begun developing a network of fixed and mobile license plate readers (LPR). This program, managed by Arlington County and spread throughout the jurisdictions, gives officers the ability to scan and analyze thousands of tags a day. In 2010, use of the mobile license plate readers was instrumental in the quick apprehension of a subject operating a vehicle belonging to a murdered American University professor.

Perhaps one of the biggest factors that have led to the reductions seen recently is the tremendous regional cooperation and collaboration among the local, state, and federal agencies in the metropolitan area. Although it has always existed to some extent, these partnerships were reaffirmed and strengthened during the DC Sniper case and the 9/11 response at the Pentagon. Local and federal agencies consistently partner on crime prevention efforts, like the successful motor vehicle theft task force which has operated over the last few years, and the various regional drug and gang task forces. And local and federal partners also combine efforts with their residents, businesses, and nonprofits to make their communities safer and improve the quality of life. Examples of this collaboration include partnerships with the Alice Ferguson Foundation to conduct an annual litter enforcement campaign, and coordination with the Drug Enforcement Administration to host Prescription Drug Take Back events. Just recently, the DEA held its second annual National Take Back Initiative, and was able to collect 188 tons of prescription drugs from the public. This event not only reduces the risk of prescription drug diversion and abuse, but also increases awareness of this critical public health issue.

It should be noted that reporting methods are not uniform throughout this report since some departments used the Uniform Crime Reporting (UCR), while others used the National Incident Based Reporting System (NIBRS). Recognizing the need for additional information about crime, the FBI launched NIBRS as an enhanced UCR Program. The FBI recognized that conversion to the new system would be gradual, so it is appropriate for agencies to still report under UCR. As a general rule, NIBRS crime rates tend to be higher than UCR rates, primarily because NIBRS statistically counts all separate violations within a single criminal event. UCR counts only the most serious crime. The average difference, however, is small.

During 2010, the Fairfax County Police completed full implementation of a new and upgraded Computer-Aided Dispatch (CAD) and Records Management System (RMS). Along with this transition, the Fairfax County Police changed their statistical reporting methodology from UCR to NIBRS. As a result, the number of incidents of Aggravated Assault seems to have increased significantly. However, this apparent increase is misleading for the following reasons:

- Under the prior UCR reporting method, Aggravated Assault was often a lesser-included offense of a robbery or rape investigation, and as such, tended to be under-counted as a separate category.
- In the transition to NIBRS reporting, FCPD staff found that internal definitions of Aggravated Assault for report categorization were inconsistent with NIBRS definitions. Internal protocols were updated to reflect NIBRS definitions, resulting in many more cases being categorized as Aggravated Assault in 2010 than was previously the case. Going back to 2009 and applying the same definitions, FCPD staff determined that the true number of Aggravated Assaults in both 2009 and 2010 were nearly the same.

¹The new Fairfax County CAD system and RMS implemented in 2010 is much more robust and is able to capture and aggregate more data types than the old system. FCPD staff are confident that the 2010 number is more reflective of the actual CFS workload than that which was reported in prior years.

2010

Recommendations

from the COG Police Chiefs Committee

In order to continue making the metropolitan area a safe and livable community for residents and visitors, collaboration and coordination between law enforcement agencies on a regional level will be critical to continued reductions in major crimes. Not only will departments continue to expand current technological resources to prevent and detect crime, but they will also look to become more technologically savvy, finding new ways to engage the public and other community partners through social media and mobile applications for smart phones. Furthermore, as police departments continue to feel the effects of the recession, more will employ intelligence-led policing strategies to utilize limited resources more effectively. Such an approach will allow for strategic prioritization of individuals, locations, and operations that promise the greatest results and best chances for successful outcomes.

2010 Violent Crime v. Property Crime (Total Part I Offenses = 135,974)

How You Can Help

Always keep your valuables out of plain sight and lock your vehicle, even in your own driveway. Never leave your keys in the car.

Make your home look occupied; leave the lights on or the television going when you go out. If you are going to be away for a length of time, connect some lamps to automatic timers to turn them on in the evening and off during the day. Keep your garage door closed and locked.

Never leave keys under doormats, flowerpots, mailboxes or other “secret” hiding places -- burglars know where to look for hidden keys.

Keep a detailed inventory of your valuable possessions, including a description of the items, date of purchase and original value, and serial numbers, and keep a copy in a safe place away from home -- this is a good precaution in case of fires or other disasters. Make a photographic or video record of valuable objects, heirlooms and antiques. Mark your valuables with your driver’s license number with an engraver you can borrow from your precinct. Marked items are harder for a burglar to dispose of and easier for police to recover.

Get involved in your local neighborhood watch program, or volunteer at your local police department.

Follow your local police department through the available social media channels. They often release important safety information and tips that might be helpful to you.

If you see something, say something.

Annual Report on Crime & Crime Control 2010

Prepared by the Policy & Planning Subcommittee
Presentation to the COG Board of Directors
Deputy Chief Jeff Delinski, Vice-Chair, COG Police Chiefs
Committee
September 14, 2011

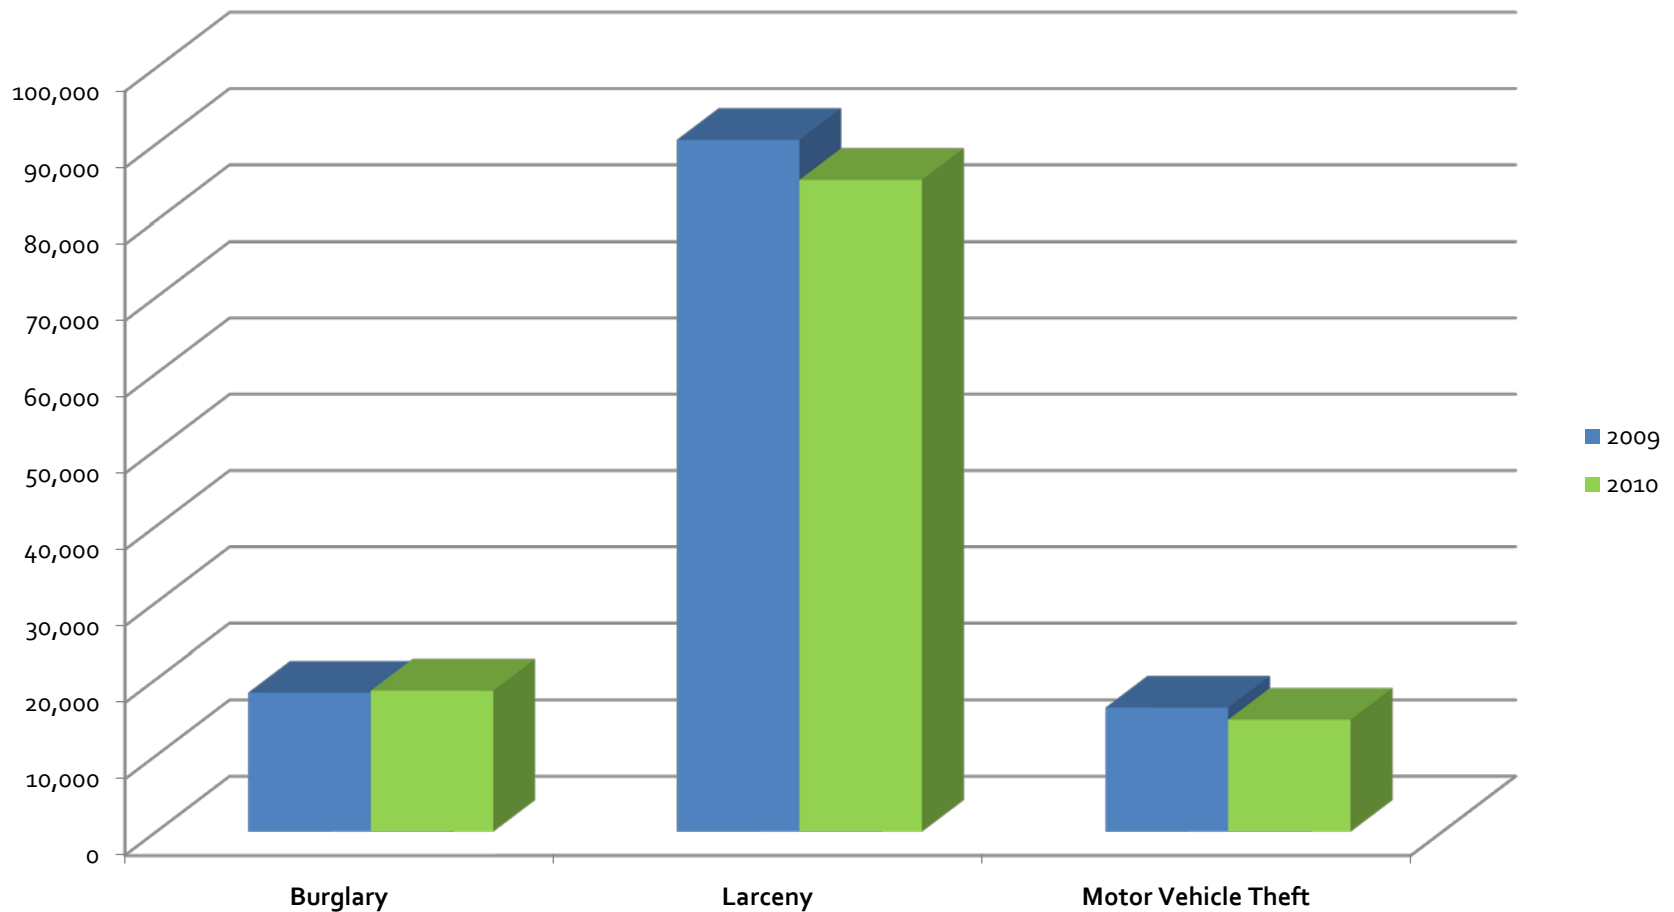

Great news!

- Part I Crime decreased 5.3% from 2009-2010 (135,974 v. 143,568)
- All Part I Offenses had a decrease from 2009, except burglary (1.5%).
- Multi-year (2006-2010) Part I crime continues to trend downwards.
- The region's violent crime trend is reflective of national trends.

Burglary, 2006-2010

Larceny, 2006-2010

Motor Vehicle Theft, 2006-2010

How the NCR compares to the Nation

	National	NCR
Violent Crime	-5.5	-5.59
Property Crime	-2.8	-5.2

How the NCR compares to the Northeast

	Northeast	NCR
Violent Crime	-0.4	-5.59
Property Crime	-0.5	-5.2

Summary

The region continues to experience overall declines in Part I Crime offenses.

The crime rate per capita continues to decline, despite an increasing population.

Crime Rate per Capita 2008-2010

Recommendations

- Continued collaboration between local, state, and federal agencies.
- Continued expansion of technology, including social media to more effectively engage the public.
- Intelligence-led policing strategies.

MEMORANDUM

August 22, 2011

TO: Human Services & Public Safety Policy Committee Members
FROM: Melissa Rivord, Chief of Public Safety Programs
SUBJECT: Traffic Fatalities

Recently, Falls Church Vice Mayor and Human Services & Public Safety Policy Member Mr. David Snyder inquired about the number of motor vehicle crashes and fatalities in the metropolitan region. I conducted an inquiry into this matter with our local and state law enforcement partners, and with the US Park Police, who are responsible for the parkways. Last week, there was an article that reported on eight deaths that occurred as a result of four significant crashes over the weekend. Although this is one of the busiest times of the year according to AAA, our law enforcement agencies have reported that there has NOT been an increase in motor vehicle accidents in 2011. In many cases, agencies were able to report that the number of motor vehicle accidents has declined over the last 3-5 years, which many attributed to click it or ticket campaigns, sobriety checkpoints, truck safety campaigns, and zero tolerance for aggressive driving campaigns.

A summary of responses is provided below. I hope this helps address any concerns you may have.

- Virginia State Police report that they have not seen an overall increase in crashes, nor has there been an increase in crashes involving trucks/buses. Recently, they did have to close a significant portion of the interstate for a fatal truck crash that caught fire. Often, these incidents make the news and impact traffic significantly, which may give rise to the belief that there is an increase, but that is not the case.
- Prince William County indicated that the number of fatalities is level with this time last year (8 total), and only one involved a commercial vehicle (school bus). Prince William County also indicated that there seems to be an increase in the lack of use of seatbelts in the serious and fatal crashes.

- In the City of Fairfax, the number of motor vehicle accidents is down compared to 2010 (743 vs. 769), and the number involving trucks and buses is also down (21 vs. 34).
- Alexandria reports a decline in numbers since 2007 (when there were 7 fatalities); this year there have been 2 cases, which is in line with the last two years.
- Manassas reports that the number of motor vehicle accidents is down. Pedestrian accidents, however, are on the rise.
- Manassas Park reports that they recently had their first fatal in many years from a single vehicle motorcycle crash a few weeks ago. Overall, their record of vehicle crashes, regardless of the type of vehicle, is very low due to the way our road system engages our community.
- During the period January 1, 2011 to August 15, 2011, the Takoma Park Police Department had 46 written accident reports for damage, 16 written reports for personal injury during a collision, and zero (0) written reports of fatalities. This does not include basic exchanges of information, hit and runs, or anything that would not require a report. The data compiled does not include vehicle type or descriptions; however, any written accident report involving a bus would be included in the figures provided. In Takoma Park, it appears that overall numbers of collisions in each of the first six months of this year are down about 20-25% in comparison to randomly selected comparison of earlier years. It is difficult to attribute this to any one thing without some detailed analysis, but the captain reporting this information speculated that the road that produced the largest number of reported collisions in the past was New Hampshire Avenue; approximately a year or two ago, a RADAR speed enforcement camera was installed and appears to be slowing people down, at least during heavy traffic periods, and likely is decreasing collisions on that stretch of roadway.
- Frederick County and the state of Maryland report that the crash levels have stayed the same over the last few years. Additional statistics are available from the state here: <http://www.mva.maryland.gov/Driver-Safety/Stats/stats.htm>
- And US Park has shown a tremendous reduction in the number of crashes this year (currently 1200 less than last year), with a total of 5 fatals compared to 11 in 2010, and a 5-year average of 13 deaths/year. Of the 1655 crashes this year, 40 involved a travel/commuter bus; 10 involved a school bus; 15 involved a truck and trailer; and 3 involved tractor trailers (all of these numbers are well below the 5-year average). A chart showing greater detail is provided below.

YEAR	CRASH TYPE				SPECIFIED CRASH INVOLVEMENT										
	PROPERTY DAMAGE ONLY	PERSONAL INJURY	FATAL EVENT	TOTAL	UNKNOWN	OTHER	OTHER	NON-DRIVER	DRIVER INVOLVED	OTHER DRIVER INVOLVED	ALL OTHER	OTHER INV.	OTHER DRIVER INVOLVED	OTHER INVOLVED	OTHER INVOLVED
