Metropolitan Washington Council of Governments (COG) staff included:

Nicholas Ramfos Dan Sheehan Brandon Franklin Douglas Franklin Mark Hersey

Washington Area Bicyclists Association (WABA) staff included:

Hannah Dana Colin Browne

District, Maryland, Virginia, and U.S. Departments of Transportation

For their continued funding support of the Commuter Connections work programs.

Both COG and WABA thank all individuals and organizations which helped in the Washington, DC metropolitan region prepare for Bike to Work Day 2020 event which was cancelled due to the Covid-19 pandemic.

BACKGROUND and EXECUTIVE SUMMARY

Bike to Work Day has been held annually in the Washington metropolitan region for nearly two decades and was locally started by the Washington Area Bicyclist Association (WABA) with a main rallying point or pit stop in downtown DC. In September 2000, The National Capital Region Transportation Board (TPB's) Commuter Connections program, housed at the Metropolitan Washington Council of Governments, partnered with WABA to form a regional Bike to Work Day Steering Committee to examine the feasibility of adding more Bike to Work Day pit stops or rallying points throughout the region in 2001, thus creating a larger awareness and practice of cycling to work as a viable commuting alternative to carbon based methods. Since that first involvement with Bike to Work Day in 2001, annual registrations for the event have increased over 700%. The event saw continuous growth in registrations as well this year.

The 2020 Bike to Work Day Steering Committee meetings were coordinated and held every other month from September 2019 through May 2020 . COG/TPB staff prepared meeting notes, generated agendas, and created presentation materials. Highlights from the meetings included:

- Vinyl banner creation;
- Registration reports
- Update on the 2020 Sponsorship Drive;
- Updates from local pit stop managers on their local event planning progress.

The Committee gave design feedback for the posters and t-shirt. Discussion was held with potential new Bike to Work Day pit stops to examine the plausibility of accepting them as official localities for the 2020 event. A small number of pit stops from 2019 dropped out of the 2020 event, while nine new pit stops were added in 2020, bringing the total 2020 pit stop count to 120. Staff coordinated and held the Bike to Work Day new pit stop orientation session on January 8, 2020 where a comprehensive presentation was given, and veteran pit stop managers shared their wisdom and answered questions.

The sponsor drive continued through January and discussions were held with potential companies and organizations regarding Bike to Work Day sponsorship opportunities for 2020. The drive ended at the end of January, netting a total of \$56,000 in cash donations. Invoices were generated and sent to sponsors. Calendar listings notifications were sent to publications and websites throughout the region with events calendars.

A total of 100,000 Bike to Work Day flyers, rack cards, large posters, plus flyers translated into Spanish were printed and distributed to pit stop managers and employers throughout the region. A formal bid was issued for the Bike to Work Day T-shirts and a vendor was selected. The T-shirt art was created and finalized. Size allocations were determined based on a pit stop manager questionnaire.

Banner art was created for the pit stops, each containing the look and feel of the 2020 graphics, along with a custom area for pit stop specifics. The Washington Area Bicyclist Association (WABA) designed a new registration page which was tested by Commuter Connections staff and modified accordingly. Registration for the Bike to Work Day event was officially launched the first week of March with an announcement on social media.

Discussions were held with the state funding agencies, COG senior management, and WABA regarding the coronavirus pandemic and its impact on the 2020 Bike to Work Day event. An online survey was also conducted of the Bike to Work Day Steering Committee pit stop managers with regard to the possible canceling/postponement of the event. After all possible scenarios were carefully examined, on March 30, 2020 the decision was made to cancel the Bike to Work Day event for the entirety of the calendar year. Messages were sent out to notify the Steering Committee, registrants (thus far), and sponsors about the event cancellation. Planning for the Bike to Work Day media buy was paused. Event participants were encouraged to participate in Car Free Day which will be held on September 22, 2020.

COG/TPB staff maintained and updated the www.BikeToWorkMetroDC.org website. Notable activities include:

- Added new sponsor logos;
- Added new pit stops;
- Updated the map coordinates for new and old pit stops;
- Updated the color scheme to represent the 2020 color theme;
- Updated the rotating logos;
- Added the registration link to the homepage and other language;
- Added new PDF versions of the flyers;
- Updated the homepage & registration page to reflect the cancelation of the 2020 event;
- Updated plugins.

COG/TPB staff monitored website activity and computer code to maintain accurate website functionality. COG/TPB staff programmed the announcement that registration is open via Hootsuite. COG/TPB staff updated the logo and masthead on Twitter. Cancellation notices

were placed on the regional Bike to Work Day Facebook page and tweeted out from the event's Twitter page.

Marketing Materials

Banner

The banner features a green background with a stylized cityscape and bicycle wheels. The text is arranged as follows:

- Top Left:** "bike to work day 2020" with a logo showing a person on a bicycle and a city skyline.
- Top Right:** "ADAMS MORGAN AT UNITY PARK" in large, bold, dark blue letters. Below it, "Columbia Road/Champlain & Euclid Streets, NW" and "7:30 am to 9:30 am" in smaller white text.
- Center:** "BIKE TO WORK DAY 2020" in large, purple, stylized letters. The "2020" is significantly larger and incorporates two bicycle wheels as the zeros. An orange banner above the "2020" reads "Friday May 15".
- Bottom Left:** A grid of logos for sponsors: COMMUTER CONNECTIONS, WABA (Washington Area Bicycle Association), GO Alex, URBANSTEMS, SPOKES (90% BICYCLES), ICF, Bike Arlington, BILTON, City Dental DC, Marriott International, VERRA (Standards for a Sustainable Future), and COMSTOCK.
