

Climate Adaptation Workshop

The need to adapt to an evolving climate will be critical to society.

Save *the* Date

July 23, 2009

10:00 a.m. - 2:30 p.m.

COG Board Room

Third Floor

777 N. Capitol St., N.E.

Washington, D.C. 20002

The Metropolitan Washington Council of Governments (COG) and Northrop Grumman are co-hosting this workshop at COG in order to:

Examine the climate change trends Regional Climate Change Models are predicting for our region and implications for our energy, water, air quality and health sectors.

Translate this information into climate mitigation and adaptation strategies for the National Capital Region.

Workshop Focus Areas

Electric Power
Demand

Water Supply and
Storage

Potomac and
Chesapeake Bay
Water Quality

Air Quality and Health

Registration is Required

Please visit www.mwccog.org/adaptation for additional information, to register for the workshop, and to answer pre-workshop survey questions

“It’s not just happening in the Arctic regions, but it’s beginning to show up in our own backyards.”

*- Thomas R. Karl, Director of the
National Climatic Data Center
at NOAA*
