

List of 05 UASI Subgrant Awards

5/13/2005

#	Subgrant No.	Recipient	Proposal Title	Project Synopsis	Proposal Request	Allocation/Award	Special Conditions	Status	Subgrant Date
1	1AUAS5	University of Maryland Center for Advanced Transportation Technology (CATT)	Development of Regional Capabilities to Improve Transportation System Management	Creation of a formal Regional Transportation Coordination Program in the Washington metropolitan area to ensure preparedness for, response to, and recovery from terrorist incidents and other regional disasters and events.	\$ 4,900,000.00	\$ 1,000,000	The project's primary focuses are: 1) development of a detailed work plan and scope of services for continued design and implementation of the RITIS (Regional Interoperable Transportation Information System) data exchange information system and 2) Planning the use of the integrated UASI communications "tracks", both wireline and wireless, as the electronic backbone of the RITIS regional data exchanges. The recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	29-Apr
2	1BUAS5	DDOT	Securing Freight Rail Transportation in the National Capital Region (Evaluate Feasibility of Alternative Rail Alignments)	The seven mile stretch of CSX rail running through the District of Columbia poses a significant security threat to the Nation's Capital. It slices through the Southwest Federal Center which is home to twelve federal headquarters buildings, comes within four blocks of the United States Capital grounds and travels through densely populated residential neighborhoods. Specifically, 71,000 federal employees work within a half mile of the freight line and over 54,000 DC residents live within that same proximity. This project will identify a preferred new alignment for this rail which is the first step in achieving a long term solution to this security problem. The project will be conducted in cooperation with the National Capital Planning Commission. It will also be gully coordinated with all regional jurisdictions and stakeholders.	\$ 1,000,000.00	\$ 1,000,000	As a condition to accepting this award, the recipient will be required to work with Maryland and Virginia's Departments of Transportation in providing an assessment of transferring hazardous material shipments away from the District. Also, the recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr
3	2AUAS5-A	OCTO	Regional Communications Infrastructure for Interoperability	This project builds from approved FY 04 seed funding that provides a secure, private technology infrastructure required to facilitate interoperability for voice, data, and video across the region, interconnecting Emergency Operations Centers, Public Safety Communications Centers (911 operations), other Public Safety and Emergency Management offices and support functions, and responder field/mobile operations at event sites. The project includes several components including interconnecting fiber 'I-Net's and other jurisdiction networks; providing a regional interconnected broad-band wireless infrastructure facility; and in collaboration with ESF# 5, developing a web based, neutral host data-exchange standard and tool, and implementing EOC to EOC and CAD to CAD data interoperability.	\$ 17,500,000.00	\$ 7,800,000	This assignment must also provide oversight for Projects 1-1 (1A), Development of Regional Capabilities to Improve Transportation System Management, 5-1 (5A) Integration of Emergency Operations Centers and Emergency Communications Centers, 8-1 (8A) Implementation of the NCR Syndromic Surveillance Network, 8-2 (8B) Mass Casualty and Surge Capacity Initiative, 13-11 (13D) Development of the NCR Local Law Enforcement Information Sharing System, and 2-1 (2A), Integration of Emergency Operations Centers and Emergency Communications Centers, all of which are portions of the project titled "Regional Communications Infrastructure for Interoperability" as approved by the National Capital Region Senior Policy Group. The recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	29-Apr
3	2AUAS5-B	Fairfax County	Purchasing WebEOC (Component part of the Integration of EOCs/ECCs project)	This project builds from approved FY 04 seed funding that provides a secure, private technology infrastructure required to facilitate interoperability for voice, data, and video across the region, interconnecting Emergency Operations Centers, Public Safety Communications Centers (911 operations), other Public Safety and Emergency Management offices and support functions, and responder field/mobile operations at event sites. The project includes several components including interconnecting fiber 'I-Net's and other jurisdiction networks; providing a regional interconnected broad-band wireless infrastructure facility; and in collaboration with ESF# 5, developing a web based, neutral host data-exchange standard and tool, and implementing EOC to EOC and CAD to CAD data interoperability.	\$ 17,500,000.00	\$ 700,000	The recipient will purchase WEB EOC software on behalf of the NCR and will design the architecture to support the platform in which the software will be housed. The architecture will need to be approved by the NEIC. Also, the recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Pending.	
4	3AUAS5	MWCOG	Regional Operations Plan Development	The project has two main tasks: (1) development of debris management operations plans for local governments in the NCR that are lacking a plan, plus development if facility specific temporary debris management plans for four major sites in the NCR, and (2) support for the development of the NCR U.S. Army Corps of Engineers Debris Operations Plan.	\$ 540,000.00	\$ 540,000	The recipient must coordinate with debris management representatives from Maryland, Virginia, and the District.	Subgrant Issued	15-Apr
5	3BUAS5	MWCOG	Debris Staff Training and Exercising	The project has two main tasks: (1) planning and holding training classes for debris management staff in the NCR, and (2) planning and conducting a debris-specific table top exercise for the NCR.	\$ 105,000.00	\$ 50,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr

List of 05 UASI Subgrant Awards

5/13/2005

#	Subgrant No.	Recipient	Proposal Title	Project Synopsis	Proposal Request	Allocation/Award	Special Conditions	Status	Subgrant Date
6	3DUAS5	MWCOG	Regional Water Supply Emergency Operational Plans and Best Management Practices Guide For Water Security	The proposed project will provide local governments and water utilities in the NCR with regional operation plans that contain essential information and guidance for meeting regional water demands resulting from the contamination and/or loss of water supplies. this project would also identify and incorporate Best Management Practices related to water security and water supply emergency operations into the utility operations plans.	\$ 375,000.00	\$ 425,000	As a condition to accepting this award, the recipient will be required to conduct a benchmarking study to compare procedures and processes with selected benchmarking partners and utilities in the NCR to determine contamination event response, monitoring, and laboratory best practices. Also, the recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	27-Apr
7	4AUAS5	FFX County Fire and Rescue	National Capital Region Incident Management Team Training – Current Project	Establish a 75-member regional incident management team to assist with command and control of large-scale terrorist attacks and/or natural/man-made disasters. The IMT will be comprised of fire, EMS law enforcement, and public health professionals from NCR/COG jurisdictions.	\$ 763,858.00	\$ 786,674	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
8	4BUAS5	DC FEMS	Weapon of Mass Destruction Training – Operations – Current Project	The WMD Technical Emergency Response Training is a 24-hour program that provides emergency responders with Operations level instruction for responding to and operating on a weapon of mass destruction incident. This course covers chemical, biological, radiological, nuclear and explosive (CBRNE) threats; the current domestic and international terrorism threat; managing a WMD scene and determining the breadth of a WMD incident area.	\$ 1,100,000.00	\$ 1,265,190	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
9	4C1UAS5	FFX County Fire and Rescue	NCR Radio Cache Logistics	This project provides for ongoing logistical support of the National Capital Region Radio Cache of 500 radios managed by Fairfax and Montgomery County. Supported activities include required routine radio cache maintenance activities (personnel time and hardware costs), cache management personnel training, and support for regional deployment exercises.	\$ 55,200.00	\$ 42,372	As a condition to accepting this award, the recipient will be required: to work with the appropriate parties to redistribute the radio cache so that 1/3 of the radios will be managed and maintained by the DC Fire and Emergency Medical Services and to revise the NCR Radio Cache deployment plan. This plan shall be submitted to the SPG through your grant point of contact for review and approval.	Subgrant Issued	15-Apr
10	4C2UAS5	Mont. County Fire and Rescue			\$ 34,361	As a condition to accepting this award, the recipient will be required: to work with the appropriate parties to redistribute the radio cache so that 1/3 of the radios will be managed and maintained by the DC Fire and Emergency Medical Services and to revise the NCR Radio Cache deployment plan. This plan shall be submitted to the SPG through your grant point of contact for review and approval.	Subgrant Issued	15-Apr	
11	4DUAS5	Mont. County Fire and Rescue	Mass Casualty Support Units and Ambulance Buses	This project is for the purchase of seven (7) - Type III Mass Casualty Support Units (MCSU) and six (6) - patient Ambulance Buses. These will be deployed as follows: Maryland - 3; Northern Virginia - 3; Washington D.C. - 1 MCSU only. This project will fill an equipment gap that exists today. Each Type III MCSU will provide a standardized equipment cache capable of transporting 100 patients. Each ambulance bus will be capable of transporting 20 stretched patients.	\$ 2,475,000.00	\$ 2,630,000	The recipient's request for indirect cost recovery in the amount of \$311,850 has not been approved for funding, however, they were provided additional funding in the amount of \$150,000 to purchase an additional ambulance on behalf of the District. Jurisdictions must assume the maintenance of the vehicles.	Subgrant Issued	15-Apr
12	4E1UAS5	City of Alexandria	Washington Metropolitan Area Transit Authority Metro rail Communications Upgrade	This project implements an interface between the City of Alexandria trunked radio system and the WMATA Public Safety System in the below grade portions of the Metro rail system within Alexandria. This functionality provides tremendous advances in terms of communication capacity, communication reliability, and user safety.	\$ 4,000,000.00	\$ 326,885	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
13	4E2UAS5	WMATA			\$ 3,672,000	Refer to standard terms and conditions.	Subgrant Issued	15-Apr	
14	5AUAS5	PGC	Integrate Emergency Operation Centers (EOC) and Emergency Communication Centers (ECC)	The integration of communication and collaboration tools for EOCs and ECCs involves: consensus development of a standard set of tasks and resources requests and use protocols for all communication modes; adding additional communication modes to EOCs/ECCs to enhance capabilities and survivability; implementation of information technology collaboration tools; implementation of service oriented architecture for data exchange; and acquisition of a system for regional resource and task request tracking.	\$ 4,300,000.00	\$ 2,300,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr
15	5CUAS5	Various	Continuation of Training and Exercises	There is a continuing need to provide emergency personnel, municipal emergency workers, emergency partners and others with increasing levels of training. In addition, these same groups will need to participate in emergency exercises (table top, functional, CPX and full scale) to reinforce training and test/validate emergency plans and procedures. Many times the need to train County personnel (emergency workers) on their roles and responsibilities as established in the County Emergency Operations Plan is over looked. Public works, debris teams, damage assessment team, public health workers, shelter personnel and others must receive training in order to carry out their assigned tasks. In order to train and exercise these and other personnel we must call in personnel to perform their tasks thus the need for "back pay".	\$ 2,200,000.00	\$ 1,950,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Pending.

15	5CUAS5-DCEMA	DCEMA	Continuation of Training and Exercises	There is a continuing need to provide emergency personnel, municipal emergency workers, emergency partners and others with increasing levels of training. In addition, these same groups will need to participate in emergency exercises (table top, functional, CPX and full scale) to reinforce training and test/validate emergency plans and procedures. Many times the need to train County personnel (emergency workers) on their roles and responsibilities as established in the County Emergency Operations Plan is over looked. Public works, debris teams, damage assessment team, public health workers, shelter personnel and others must receive training in order to carry out their assigned tasks. In order to train and exercise these and other personnel we must call in personnel to perform their tasks thus the need for "back pay".	\$ 2,200,000.00	\$ 250,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	20-Apr
16	5D1UAS5	Montgomery County Volunteer Center	Citizens Corps/CERT/Medical Reserve Corps/Spontaneous Volunteers/Management and Training	This proposal implements our nations and regional strategy to engage citizens in emergency preparedness and, specifically, seeks (1) assist emergency managers in use of volunteers by making the region's emergency operation plans relating to volunteers more transparent, and consistent with emerging national standards; (2) to develop a regionally-coordinated plans for recruitment, call-up and deployment of these volunteers (3) to recruit affiliated volunteers and to develop reception centers for spontaneous unaffiliated volunteers; and (4) train an increased number of volunteers affiliated with Citizen Corps and other volunteer programs.	\$ 2,600,000.00	\$ 2,600,000	SPG requested the State Citizen Corp leads and a representative from R-ESF 5 come together to re-evaluate the goals and objectives of the NCR as it relates to volunteers and the break up of the \$2.6 million.	Pending.	
17	5D2UAS5	MEMA					SPG requested the State Citizen Corp leads and a representative from R-ESF 5 come together to re-evaluate the goals and objectives of the NCR as it relates to volunteers and the break up of the \$2.6 million.	Pending.	
18	5D3UAS5	VDEM					SPG requested the State Citizen Corp leads and a representative from R-ESF 5 come together to re-evaluate the goals and objectives of the NCR as it relates to volunteers and the break up of the \$2.6 million.	Pending.	
19	6AUAS5	ARC	Integration of R-ESF6 partners	Increase capacity of ESF-6 partner agencies across the NCR to provide Mass Care, Housing and Human Services to hundreds of thousands of people for an extended period of time in the aftermath of a disaster.	\$ 1,050,000.00	\$ 250,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down. The recipient will be obligated to perform the following tasks: 1) Planning- Align all the current ESF-6 Mass Care plans across the NCR with the newly defined ESF-6 of the National Response Plan, which expands the definition of ESF-6 from Mass Care to Mass Care, Housing and Human Services. All planning by ESF-6 allows definitions of roles, processes, and actions with deadlines for all functions ESF-6 is responsible for. Planning is a critical component of success for ESF-6 in light of the redefinition and expansion of responsibilities in a disaster incident. All planning must be coordinated with other partner ESFs, notably ESF-5, ESF-8, ESF-11, and ESF-15. 2) Outreach- Perform coordinated outreach and exercises in conjunction with Emergency Management to improve coordination between ESF-6 functions and the Emergency Manage	Subgrant Issued	29-Apr
20	6BUAS5	NPRT	A National Capital Region Integrated 2-1-1 Data Repository – From Prototype to Production	VA, DC, MD and the MWCOG have all stated that provision of a 211 service to provide a common set of human service information and referral is critical to the provision of human services in the aftermath of a disaster. The 3 jurisdictions are each at different stages of planning and development but have collaborated and shared data in a prototype regional database. This project would advance the regional 2-1-1- database from prototype to general usability on the web: <a href="http://www.volunteersolutions.org/211collab/service/">http://www.volunteersolutions.org/211collab/service/</a> .	\$ 100,000.00	\$ 100,000	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
21	7AUAS5	Fairfax County	Resource & Logistics Support Enhancement	In order to provide a timely, effective and efficient response during an incident, it is critical that the individuals within organizations participating as R-ESF #7: 1) be provided training in emergency management, logistics, operations, and planning; 2) have the ability to readily identify existing assets maintained by participating jurisdictions, including commodities and equipment as well as logistical requirements including both warehouses and means and methods of transportation that may be needed in an emergency; and 3) have the ability to readily identify where to obtain/purchase commodities and equipment whether from states/localities/vendors from within or beyond the metropolitan Washington DC region.	\$ 70,000.00	\$ 70,000	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
22	8AUAS5	JHU/APL	National Capital Region Syndromic Surveillance Network	While the architecture of the NCR Syndromic Surveillance Network is fully functional at this time, there are foreseeable enhancements and additions that need to be made and more comprehensive testing and evaluation must be performed before all components are transitioned over to the states. In the event of an intentional release of a bioagent, these improvements are essential to support preparedness and to deploy public health resources optimally to the affected regions.	\$ 2,350,000.00	\$ 1,800,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr
23	8BUAS5	PGCHD	National Capital Region Mass Casualty and Surge Capacity Development Initiative	Phase II - NCR Surge Initiative - Hardware is being purchased using 04 funds, this continuation reflects the implementation costs of the plan.	\$ 3,971,196.00	\$ 671,196	Refer to standard terms and conditions.	Pending.

5/13/2005

#	Subgrant No.	Recipient	Proposal Title	Project Synopsis	Proposal Request	Allocation/Award	Special Conditions	Status	Subgrant Date
24	8CUAS5	FFX County Health	Medical Prophylaxis	To meet bioterrorism and naturally occurring disease scenarios, including the CRI scenario, the 8 health departments of the NCR require rapid access to sufficient equipment and supplies to begin distributing medication to the population. This proposal requests funding to close the current gap in preparedness and help ensure that communities in the NCR are properly equipped and supplied to meet the challenge of quickly dispensing medication in an emergency.	\$ 1,631,400.00	\$ 1,000,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until the outstanding Budget Justification Worksheets are submitted to the SAA. Upon submission and review of the Budget Justification Worksheets, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr
25	8DUAS5	Montgomery County	Telecommunications/Computer Assisted Telephone Interviewing Capacity Data Collection and Management Solution	A regional requirements evaluation and inter-jurisdictional local health department pilot project is proposed to meet management demands of isolated and quarantined individuals and collection of epidemiologic data. The project would implement and pilot a CATI system between two NCR jurisdictions to model task force recommendations and test capacity achievement.	\$ 400,000.00	\$ 400,000	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
26	13AUAS5	FFX County LE	NCR Automated Fingerprint Identification System/Mobile AFIS	Foremost, this proposal is submitted for consideration as a measure of prevention against the realization of the imminent obsolescence of existing National Capital Regional Automated Fingerprint Identification System components and capabilities. An equally important and requisite outcome of planning for system upgrades and enhancements is the ultimate strengthening of system interoperability, crucial to public safety across the National Capital Region.	\$ 10,400,000.00	\$ 8,400,000	As a condition to accepting this award, the recipient agrees to obtain legal review and approval by the respective Offices of the Attorney General for the State of Maryland, District of Columbia, and Commonwealth of Virginia. Written confirmation of support by the NCR Legal Counsel Work Group will be coordinated by the SAA prior to obligation and drawdown. Also, the recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr
27	13BUAS5	FFX County LE	Law Enforcement PPE	Through the acquisition of Personal Protective Equipment, to include Level C Protective Boots, specially designed Over Vests, Tactical SCBA Communications Devices and Voice Amplifiers, first responders will be allowed a greater level of personal safety and communication. A secondary benefit to this proposal is a realization of cost savings that will be inherent to the concept of utilizing nylon vest material.	\$ 512,500.00	\$ 512,500	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
28	13CIUAS5	VA	Gather/Analyze Intelligence	In compliance with United States Department of Homeland Security guidance, this application for Urban Areas Security Initiative funding is proposing support of information and intelligence sharing through the acquisition of contractual intelligence analysts.	\$ 912,000.00	\$ 912,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	29-Apr
29	13C2UAS5	MD			The recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down. Each individual state will have the responsibility of hiring and placing staff.	Subgrant Issued	29-Apr		
30	13C3UAS5	DC			The recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down. Each individual state will have the responsibility of hiring and placing staff.	Subgrant Issued	29-Apr		
31	13DUAS5	Montgomery County	NCR-Local Law Enforcement Information Sharing System (NCR-LLEISS)	This project will link local law enforcement databases such as police records management systems, arrest data, mug shots, and other digitized data, allowing investigators to develop leads in terrorist incidents and also reduce criminal activities in the National Capital Region. Law enforcement officers will be able to generate leads in order to identify suspects who commit crimes across jurisdictional lines. The system will include sophisticated analysis tools that will provide incident commanders the ability to identify suspects following a terrorist incident.	\$ 4,000,000.00	\$ 1,000,000		Pending.	
32	14AUAS5	Fairfax County	Online Virtual Joint Info Center	To expand use of the virtual joint information center, including the creation of a water security portal and the use of common message templates, to facilitate better communication between PIOs, water utilities and others which will foster the dissemination of public information which is clear, concise, and unified, and that traverses the laws, policies and regulations of the jurisdictions within Virginia, Maryland and the District of Columbia.	\$ 455,000.00	\$ 305,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr
33	14CUAS5	Fairfax County	Special Populations	This proposed project will continue the preparedness efforts begun through the citizen education campaign on emergency preparedness. Outreach will be directed to NCR residents for whom English is not a first language and people with disabilities.	\$ 350,000.00	\$ 400,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	29-Apr

List of 05 UASI Subgrant Awards

5/13/2005

#	Subgrant No.	Recipient	Proposal Title	Project Synopsis	Proposal Request	Allocation/Award	Special Conditions	Status	Subgrant Date
34	X1UAS5	MWCOG	COG Secretariat Support	This project will allow the COG staff to provide secretariat and coordination support to the CAO Committee, National Capital Region Emergency Planning Council (NCREPC) including its role as the Urban Area Security Initiative and the Regional Emergency Support Functions (RESF). The NCREPC and CAO Committee and/or its subcommittees will be the forum for consideration and review of all projects supported through Urban Area Security Initiative (UASI), both current and prospective.	\$ 945,000.00	\$ 945,000	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
35	X2UAS5	CSG/EMAP	Emergency Management Accreditation Program (EMAP)	This project will measure the status of current capabilities in the National Capital Region against the established Emergency Management Accreditation Program Standards, identify and prioritize future improvement activities and provide a strategic framework for resource allocation.	\$ 650,816.00	\$ 650,816	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
36	X3aUAS5	DCHA	Hospital Surge Capacity	To meet the currently unsatisfied federal mandate which requires 500 surge beds per 1 million regional population, the acute, rehabilitation, psychiatric, and specialty hospitals in the NCR will add 2556 hospital surge beds, including associated medical equipment. For DCHA, PGCHD and NVHA	\$ 5,000,000.00	\$ 4,000,000		Pending.	
37	X3bUAS5	PGCHD						Pending.	
38	X3cUAS5	NVHA						Pending.	
39	X10UAS5	GWBOT	Private Sector Planning, Training, Exercise Coordination	The Board of Trade's Emergency Preparedness Task Force has on a volunteer basis managed and leveraged a considerable amount of in-kind support for emergency preparedness. The Task Force on a bi-annual basis evaluates its goals and effectiveness and sets new priorities. This review determines whether the group is adding value to the process and whether it should go forward.	\$ 805,000.00	\$ 805,000	GWBOT has been requested to fill out the appropriate forms according to the RFA and re-submit.	Pending.	
40	X11UAS5	OCTO	NCR First Responder Passport Initiative (Credentialing Project)	In response to the events of September 11, 2001, the District of Columbia in partnership with Maryland and Virginia has a requirement to participate in the NCR First Responder Passport Initiative. Participation requires funding to procure US Department of Commerce (DOC) National Institute of Standards and Technology (NIST) Federal Information Processing Standards (FIPS) Publication 201 Standard smart cards and smart card reader devices that are in compliance with Homeland Security Presidential Directive-12 (HSPD-12). This Initiative will meet the requirements of HSPD-5, -6, -7, -8, -11, and -12.	\$ 3,897,088.00	\$ 3,897,088	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
41	OCRUAS5	NCR	Set-aside for operational cost reimbursement (13%)	Set aside for Ops Cost reimbursement	n/a	\$ 9,414,935		Obligated to NCR for Reimbursement	
42	VA1UAS5	Fairfax County	Emergency Messaging Network (Emnet)	This project involves providing the 13 localities in the NCR with Emnet equipment. Emnet is a satellite based warning and messaging system designed specifically to meet the needs of the emergency management community. It will allow users to send messages to individual stations, groups, or all stations, and provides confirmation of delivery in the form of a receipt. Messages are transmitted to our EMnet server via satellite technology broadcast. This method allows for the simultaneous, almost instantaneous delivery of a message to multiple stations.	\$ 70,005.00	\$ 70,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr
43	VA2UAS5	TBD	Regional Expansion of the MMRS in NOVA	The MMRS Program assists selected jurisdictions, nationwide, to develop plans, conduct training and exercises, and acquire pharmaceuticals and equipment, to achieve an enhanced local capability to respond to a mass casualty event caused by a terrorist incident involving weapons of mass destruction. The system is developed to respond, with local resources, during the first hours crucial to lifesaving and population protection, until significant external assistance can arrive. Gaining this capability also increases the preparedness of the jurisdictions for a mass casualty event caused by an incident involving hazardous materials, an epidemic disease outbreak, or a natural disaster.	\$ 2,900,000.00	\$ 2,900,000		Pending.	
44	MD1UAS5	Prince George's County	800MHz transition	This project is for enhancements, upgrades and expansion to the Prince George's County radio system to ensure interoperability with neighboring jurisdictions as well as increase the State's ability to effectively plan and implement a Statewide communications strategy.	\$ 3,000,000.00	\$ 3,000,000	This award is supplemental to the Prince George's County investment of \$5 million and the approximately \$300,000 State of Maryland Law Enforcement Terrorism Prevention Program allocation to Prince George's County. Also, the recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr
45	MD2UAS5	Montgomery County	First Responder Protection	This project provides first responder personal protective equipment and gear for specialized response units located in Maryland.	\$ 598,550.00	\$ 598,550	The recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr

List of 05 UASI Subgrant Awards

5/13/2005

#	Subgrant No.	Recipient	Proposal Title	Project Synopsis	Proposal Request	Allocation/Award	Special Conditions	Status	Subgrant Date
46	MD3UAS5	MEMA	Software Integration	Currently Towson University is working on a data integration and sharing project to add geospatial and database information to WEbEOC, Maryland's emergency management software. Towson is also preparing to link the various spaces of HSIN to WEbEOC so that data can be logged in both systems simultaneously. Work is also being done to allow other software systems such as RamSafe, in use by Montgomery County, can share databases and geo information without double entries. Work is currently being done on an ITEP grant. This request provides additional funding to continue this integration after the performance period of the ITEP grant, Funding request is for software, hardware and consulting services.	\$ 1,400,000.00	\$ 1,400,000	The recipient is prohibited from obligating or drawing down any funds from this grant award until a Budget Justification Worksheet and Scope of Work commensurate with the award amount are submitted to the SAA. Upon submission and review of these documents, the SAA will issue a Grant Adjustment Notice which will make the funds available for obligation and draw down.	Subgrant Issued	15-Apr
47	DC1UAS5	DDOT	Fiber optic link between DC NET and WMATA	The development of a fiber connection between DC-Net and WMATA's fiber optic communication network will improve the ability to share information between regional transportation and security partners in a coordinated fashion during/after a terrorist event or major transportation incident.	\$ 1,000,870.00	\$ 1,000,870	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
48	DC2UAS5	DC WASA	WASA employee training	It is imperative that the security operations of the Critical Infrastructure coincides with the Emergency Response Plans of the DCEMA. Although DCWASA is a quasi-governmental entity, it relies on support from elements of the District Government in emergency situations. Training and drills are the only way to prepare for emergency situations.	\$ 50,000.00	\$ 50,000	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
49	DC3UAS5	DC WASA	WASA pumping station monitoring	This project will monitor and safeguard some of DDOT's most valuable assets - bridges and tunnels. It will also allow DDOT to make real-time changes in traffic operations based on existing situation.	\$ 250,000.00	\$ 250,000	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
50	DC4UAS5	DDOT	Emergency Power Back-Up for Traffic Signal Systems	DDOT procured 400 new traffic signal controller cabinets (336SS specification) for the evacuation routes utilizing Homeland Security funds. These cabinets have enhanced security features and allow only keypad access to the cabinets. This project will retrofit the 400 traffic signal cabinets. The emergency power backup designs will provide the traffic signal cabinets with the ability to switch to emergency generator power in the event of utility power failure. The goal of this project is to install a traffic signal cabinet capable of accepting alternate power source on all of the Districts evacuation routes and on all major critical intersections.	\$ 2,999,563.00	\$ 2,999,563	Refer to standard terms and conditions.	Subgrant Issued	15-Apr
51		ODMPSJ	Grant Administration/Project Management	3% for grant administration and project management/implementation for the 05 UASI Projects		\$ 2,325,000		SAA M&A	
<b>Total:</b>						<b>\$ 77,500,000</b>
