This analysis includes information that in past years was not available in a citizen-friendly format prior to the CLRP's approval. The TLC program will promote coordination between land use and transportation planning by providing a regional clearinghouse to document local and state experiences throughout the region, and offering technical assistance to localities through a consultant team. Ron Kirby will brief the CAC on the proposed TLC program.

Related to this program, CAC member Allen Muchnick has introduced a Draft Resolution Supporting Regional Incentive Programs to Help Achieve Land Use and Transportation Integration. The draft resolution was mailed to CAC members. The committee will consider approval of this resolution.
