

TRANSPORTATION PLANNING BOARD

Wednesday, May 18, 2022

10:15 – 11:45 A.M.

Walter A. Scheiber Board Room

Meeting in-person/hybrid for members

WORK SESSION ON CLIMATE CHANGE MITIGATION: DETERMINING GOALS AND STRATEGIES TO ADOPT AT THIS TIME

AGENDA

10:15 A.M. 1. WELCOME AND PURPOSE OF THE WORK SESSION

Pam Sebesky, TPB Chair

Kanti Srikanth, TPB Staff Director

This is the second of two TPB work sessions on establishing transportation-sector greenhouse gas (GHG) reduction goals and strategies. The first work session occurred on April 20. The goals of today's session are 1) to refine the GHG reduction goals and strategies that were discussed at the April 20 work session; and 2) to select a set of goals and strategies that the TPB can adopt at its June meeting and incorporate into the 2022 update of Visualize 2045.

10:25 A.M. 2. TRANSPORTATION-SECTOR GREENHOUSE GAS REDUCTION GOALS TO ADOPT

Group Discussion

Kanti Srikanth, TPB Staff Director

The TPB member survey and discussions during the April 20, 2022 work session indicated that the TPB should adopt GHG reduction goals specifically for the on-road transportation sector. The survey and work session discussions also indicated that the level of reduction by 2030 needed to be further examined. Members will review alternative sets of GHG reduction goals, for 2030, to consider recommending the optimum goal for the TPB to adopt.

10:55 A.M. 3. TRANSPORTATION-SECTOR GREENHOUSE GAS REDUCTION STRATEGIES TO ADOPT

Group Discussion

Kanti Srikanth, TPB Staff Director

The TPB member survey and discussions during the April 20, 2022 work session identified seven of the 14 strategies as having majority or plurality support from the TPB to be adopted as planning priorities for the region's transportation planning process. Members will review and reaffirm these strategies, particularly after discussing the preferred levels of implementation for 2030 for some of the seven strategies. Members will be presented with options on the level of implementation for these strategies to consider.

Reasonable accommodations are provided upon request, including alternative formats of meeting materials.
Visit www.mwco.org/accommodations or call (202) 962-3300 or (202) 962-3213 (TDD).

11:30 A.M. 4. TRANSPORTATION-SECTOR GREENHOUSE GAS REDUCTION STRATEGIES TO EXPLORE FURTHER

Group Discussion
Kanti Srikanth, TPB Staff Director

The TPB member survey and discussions during the April 20, 2022 work session identified that seven of the 14 strategies needed a more deliberate and collaborative exploration of various implementation aspects, before the TPB considers adopting these as planning priorities. Members will review and reaffirm these strategies for further exploration in the near future.

11:40 A.M. 5. CLOSING REMARKS

Pam Sebesky, TPB Chair

The chair will summarize the consensus of the attendees at the TPB work session regarding transportation-sector GHG reduction goals and strategies to recommend that the TPB adopt. It is intended that this set of GHG reduction goals and strategies will be added to the policy section of Visualize 2045 and the TPB planning process.

11:45 A.M. 6. ADJOURN

MEETING VIDEO
