

# **Electrical Vehicle Charging Pilot**

**Stephen Evanko**  
**Director – Environmental Sustainability Office**

# Our Electric Vehicle Charging Pilot is one element in our program to reduce emissions from commuting and business travel

- **Providing options to reduce travel**
  - Flexible Work Solutions to reduce commuting or to avoid peak travel
  - Connecting People Solutions such as Video Conferencing, Teleconferencing, Livemeeting, etc
- **Capital One Shuttles**
  - 95 Express (Richmond/McLean)
  - Long Island Rail Road Shuttle Service
  - Metro Shuttle (McLean)
- **Providing options to travel more efficiently**
  - Commuter Benefits Program
  - Car Pool Pilots
  - Bike racks and shower facilities in several locations
  - Electric Vehicle Charging Pilot

# We are piloting electric vehicle charging stations in our West Creek Campus and at McLean Headquarters

- Installed Level 2 stations which have two plugs per pedestal
- Richmond, VA Parking Deck: 9 stations distributed over 5 levels
- McLean, VA Headquarters Parking Deck: 6 stations on the ground floor

Community Dual Level 2  
Bollard Mount

# Rollout of our pilot has been well received by associates

- Launched to our GreenCorps
- Promoted to campus through news about the new deck and on our internal wiki
- Small-scale seminars / test-drives

***“When I saw the news that we were installing charging stations, it helped my wife and I make the decision to lease a Volt” - Associate***
