

**National Capital Region  
Transportation Planning Board**

**Special Work Session**  
on the  
**“CapCom”**  
**Regional Transportation  
Coordination Program**

**Wednesday, July 20, 2005**  
**10:30 AM to 11:45 AM**  
Immediately prior to the July TPB Meeting

**COG Board Room**  
777 North Capitol Street, N.E.  
Washington, DC 20002

“CapCom” is proposed as a program responsible for regional-scale information gathering, exchange, and dissemination for the transportation sector both during major incidents and in everyday traffic situations. The TPB endorsed creation of such a program in a November 2004 resolution and identified it as a top priority. Work Session discussions will include:

- Overview from Chairman David Snyder of the TPB’s Management, Operations, and Intelligent Transportation Systems (MOITS) Policy Task Force
- Review of the conceptualization, history, and status of “CapCom”
- Comments from transportation agency representatives
- Discussion of groundwork activities at the University of Maryland
- Opportunity for discussion by TPB members and stakeholders

The session is open to all interested participants. We welcome your participation in addressing this important topic.
