BICYCLE AND PEDESTRIAN PLAN FOR THE NATIONAL CAPITAL REGION

Draft 2022 Update

Michael Farrell TPB Senior Transportation Planner

Regional Public Transportation Subcommittee February 22, 2022

Overview

- This briefing is on the **DRAFT** 2022 Bicycle and Pedestrian Plan for the National Capital Region
 - When finalized, this plan will succeed the existing plan approved by TPB in 2015
 - Follows development and TPB approval of the National Capital Trail Network in 2020
 - Utilizes recent enhancements to the plan-supporting bicycle and pedestrian projects database
 - Incorporates emerging aspects of bike/ped planning

Why Develop a Regional Bike/Ped Plan?

- Important and growing as components of transportation in the region
- Bicycling and walking support many TPB goals environmental, land use, health, equity
- Specialized information in more detail than in Visualize 2045
 - Bicycling and walking trends
 - Safety, Complete Streets, and Green Streets
 - Best/recommended practices, evolving design
- Describe and analyze a planned regional bike/ped network
 - Compiled from agency/jurisdictionally approved plans
 - Includes both funded and unfunded projects

3

Transit & Regional Bike/Ped Planning

TPB

- 86% TAFA walksheds served by planned bike/ped network
- Technical Assistance/Grants
 - Transit within Reach
 - TLC Transportation Land Use Connections Program
 - Transportation Alternatives
- Best practice improve walk and bike access to transit
- Street Smart Post ads on transit for pedestrians
 WMATA
- Metro Station Pedestrian Access
- Station Area Planning Guide
- Metro Station Bike Access
- Bike on Bus
- Silver Line station area planning

4

What's in the Draft Plan?

Continuing but Enhanced Content

- Local, regional, state, & federal context for bike/ped planning
- Related COG/TPB policies & activities: Complete Streets, Green Streets, Equity
- Pedestrian and bicycle safety; Street Smart
- Existing facilities/types for walking & bicycling; micromobility
- Best/recommended practices

New for 2022

- New federal legislation: IIJA/BIL
- Regional Roadway Safety
 Program
- 2017/2018 Regional Travel Survey information
- Evolving/emerging facility types
- National Capital Trail Network
- "Fresh start" new 2045 bike/ped network (listings, maps, analyses)
- Coming soon: 2045 bike/ped network interactive dashboard

Planning Context (Chapter 1)

- Regional
 - TPB Vision
 - Visualize 2045 Aspirational Initiatives
 - National Capital Trail Network
 - Complete Streets
 - Green Streets
- Federal Guidance and Legislation
- State/ Local/WMATA/NPS Plans
- Funding & Encouragement
 - TLC, TA, Transit within Reach, RRSP, Street Smart, Commuter Connections BTWD

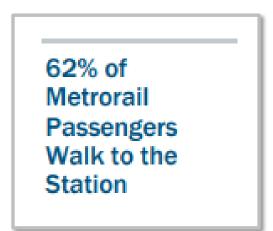

2020 National Capital Trail Network Map

Existin

Equity Emphasis Area

Biking/Walking in the Region (Ch. 2)

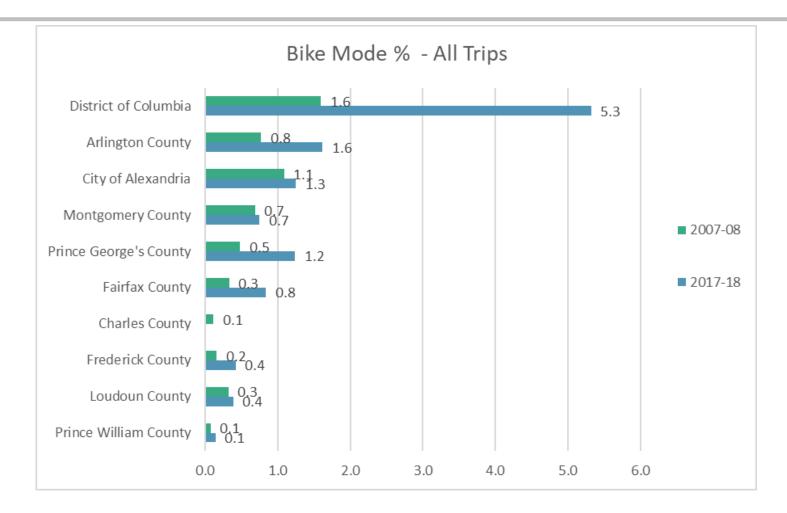

- Mode share & travel patterns, drawing on:
 - TPB's Regional Travel Survey
 - US Census Bureau American Community Survey
 - National Household Travel Survey
 - Commuter Connections State of the Commute survey
 - WMATA's Passenger Rail Survey

7

Example: Bike Mode - % of All Trips

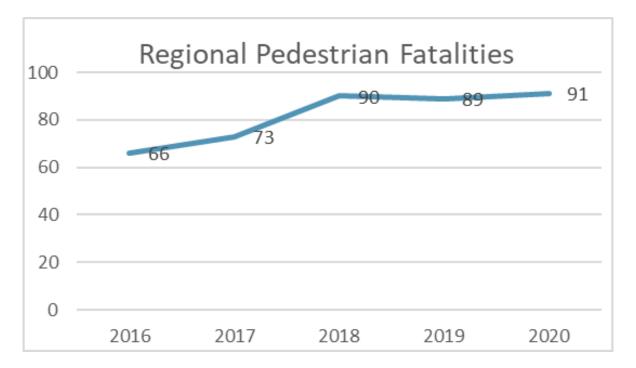

Source: COG/TPB 2007/2008 & 2017/2018 Regional Travel Survey (RTS) staff analysis.

Pedestrian & Bicyclist Safety (Chapter 3)

- Pedestrian & bicyclist fatality/serious injury crash trends
- Education and enforcement; Street Smart campaign

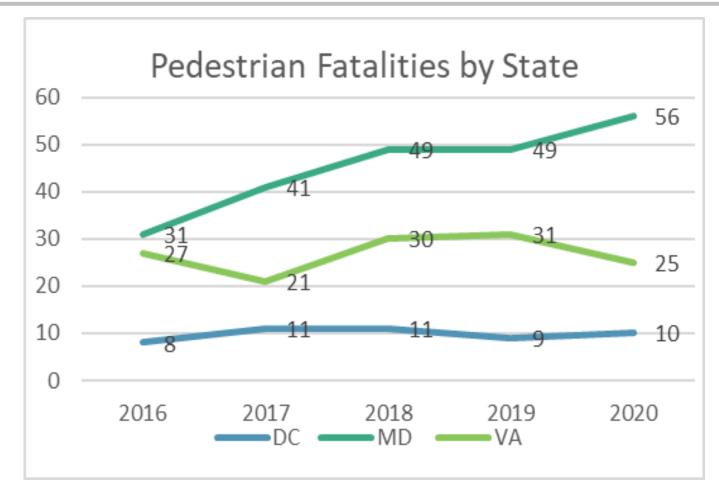

Source: TPB staff compilation of District of Columbia, Maryland, and Virginia safety data.

9

Example Data by State (Chapter 3)

Source: TPB staff compilation of District of Columbia, Maryland, and Virginia safety data.

Bicycling/Walking Facilities (Chapter 4)

- Facility types
- Pedestrian access to transit
- Bike parking
- Capital Bikeshare and other bikesharing
- Shared micromobility

Best/Recommended Practices (Ch. 5)

Recommended practices at the local level, developed based upon Bicycle & Pedestrian Subcommittee input

- Incorporate bike/ped into all transportation projects
- Improve Access for Persons with Disabilities
- Interjurisdictional coordination & connectivity; circulation between and within Activity Centers
- Appropriate roadway widths, curb radii, crossing distances, speeds
- Bikesharing, micromobility, supporting facilities
- Education, enforcement, and encouragement
- High-visibility projects and dedicated staff
- Integration of equity into planning

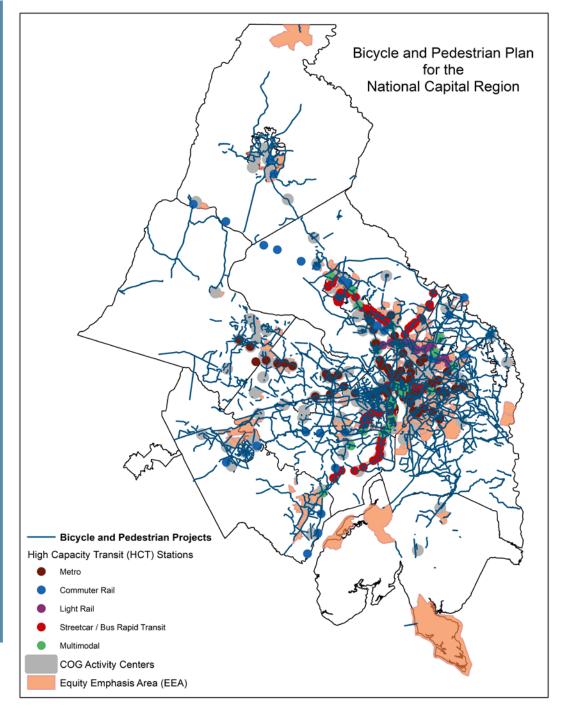

The 2045 Network (Chapter 6)

- Planned network and project list: 2,500 miles, 1,650 projects
 - New "Project Infotrak" database enables mapping, linking with the Transportation Improvement Program & Visualize 2045
- "Buffer" analysis of 1,880-mile network of low-stress facilities
 - "Low stress" = shared use paths/protected bicycle lanes/boulevards
 - 76% of the population and 87% of the jobs will be within a half mile of the planned low-stress network
 - 94% of Activity Centers, 80% of Equity Emphasis Areas, and 86% of Transit Access Focus Areas have a planned bike/ped facility
- Projected \$5 billion cost (estimated based on mileage)
- Full project list in appendix

Map of the 2045 Network (DRAFT)

Outlook

- Draft plan first shared with the TPB Technical Committee for the February 4 meeting
 - Developed with the Bicycle & Pedestrian Subcommittee
 - February 10 Community Advisory Committee
 - February 11 Access for All meeting presentation
 - February 22 RPTS
- Comments deadline for TPB Tech draft was February 17
- Slated to return to TPB Technical Committee March 4
 - Addressed comments
 - Anticipate demonstrating interactive dashboard on March 4
- Will go to TPB sometime in March April, depending on TPB agenda time availability

Additional Slides

Bulbouts & Protected Intersections

Dual Facilities

Virginia Avenue SE/Bike Trail & Sidewalk

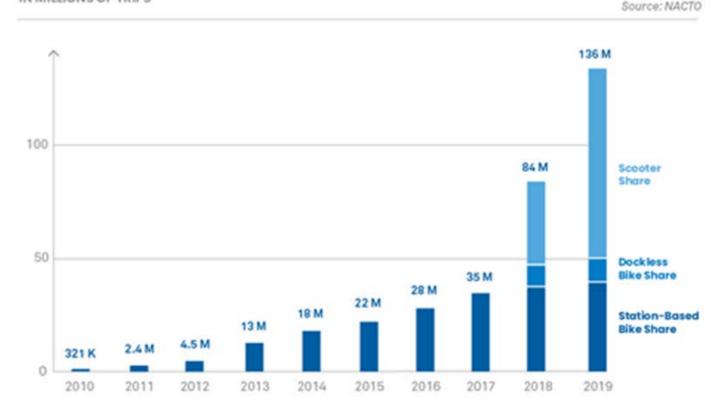

The Wharf, DC

E-Scooter Boom 2018-2019

SHARED MICROMOBILITY RIDERSHIP GROWTH FROM 2010-2019, IN MILLIONS OF TRIPS

E-Scooter Sidewalk Riding/Parking

Opportunities to Reduce Conflicts:

- Riders prefer bike lanes
- Only 9% of riders prefer sidewalks
- Riders prefer clearly marked parking

More Bike Lanes, Corrals

• DC Requires Riders to Lock Shared Electric Scooters to Bike Racks, Scooter Corrals, or Signposts (10/2021)

E-Scooter Regulation & Training

- Permits Limit Numbers, Locations
- Age limits
- Geofencing
- Speed regulators
- Push notifications
- In-person Training Events
 - Most crashes caused by inexperience
