Release for Public Comment of Project Information to Develop an Interim 2003 Constrained Long Range Plan (CLRP) and FY 2004-2009 Transportation Improvement Program (TIP)

### **Staff**

**Recommendation:** Approve release for public comment of draft project information to develop an interim 2003 CLRP and FY 2004-2009 TIP. The interim 2003 CLRP and FY 2004-2009 TIP are scheduled to be adopted on November 19, 2003.

**Issues:** The TPB should adopt the interim CLRP and TIP on November 19 if the conformity determination for the new 2003 CLRP and FY 2004-2009 TIP is postponed.

**Background:** At the September 17 meeting, the Board approved the development of interim 2003 CLRP and FY 2004-2009 TIP information to be released for public comment on October 15, 2003 and adopted on November 19, 2003 if the TPB adoption of the 2003 CLRP and FY 2004-2009 TIP is postponed. A conformity lapse will occur on January 21, 2004 if federal approval of the new 2003 CLRP and FY 2004-2009 TIP is not received by that date. However, federal approval of an interim CLRP and TIP would enable federal funding to continue for specific eligible projects.

Draft project information to develop an interim 2003 CLRP and FY 2004-2009 TIP is attached.

This information is also available on the COG website at [www.mwcog.org](http://www.mwcog.org).

A special meeting of the TPB Technical Committee and Federal Highway and Transit Administration staff was held on September 23 to review the types of projects that can be included in an interim CLRP and TIP based upon EPA, FHWA, and FTA guidance. TPB staff distributed draft lists of projects from the draft 2003 CLRP and FY 2004-2009 TIP that appeared not to meet the criteria for inclusion in an interim CLRP and TIP. The implementing agencies reviewed these draft lists and provided TPB staff with specific comments regarding the status of each project for inclusion in the interim CLRP and TIP. The attached draft information responds to the agencies' comments.
