### ANNUAL BAY & WATER QUALITY FORUM AGENDA

- 10:30 A.M. 1. CHAIR'S WELCOME & INTRODUCTIONS**  
*Amy Jackson, CBPC Chair, invited guests, and CBPC members*  
Chair Jackson will open the meeting with a round of introductions and she will provide a brief overview of our shared collaborative successes.
- 11:10 A.M. 2. REMARKS BY CBPC MEMBERS & DIALOGUE**  
*CBPC members and invited guests*  
CBPC members will relay areas of interest and experiences related to water quality challenges and opportunities now and anticipated in the future. Invited guests from the Environmental Protection Agency (EPA), Virginia, Maryland, and the District of Columbia are encouraged to share their perspectives and resources regarding these priority issues.
- A. Local governments and water utilities benefit from *long planning horizons* for regulations and management plans.
  - B. Local authority and flexibility are key for local governments that are addressing stormwater nutrient reductions within the context of other issues including climate resiliency, flooding, and local source water protection.
  - C. Management approaches and regulatory frameworks are most beneficial when *holistic* (e.g., PFAS).
  - D. Maximizing access to infrastructure funding through the SRFs—how can our local governments best access funding, especially for pockets of disadvantaged communities within relatively wealthy jurisdictions?
  - E. Applying sound science, adaptive management, and flexible approaches for achieving and evaluating Bay progress.

Reasonable accommodations are provided upon request, including alternative formats of meeting materials.
