

# **Potential Climate Modeling Applications to assist with Adaptation Planning for our Region**

Dr. Randall J. Alliss  
Northrop Grumman

# Today's Panel Discussion

- Adaptation planning is still at an early stage
- The goal of this panel discussion is to raise awareness and encourage stakeholder thinking about addressing climate change risks that will be needed for an adequate response
- Today's format:
  - Four COG participants will address adaptation topics from energy to air quality
  - Each panelist will have 10 minutes to introduce their climate focus area
  - We will then open the floor up to discussion and questions concerning this climate focus area for 20 minutes
- NG will select one of the topics in order to develop a decision aid based on our Regional Modeling
