UPS's footprint in DMV

Delivery challenges & solutions

Sustainability overview

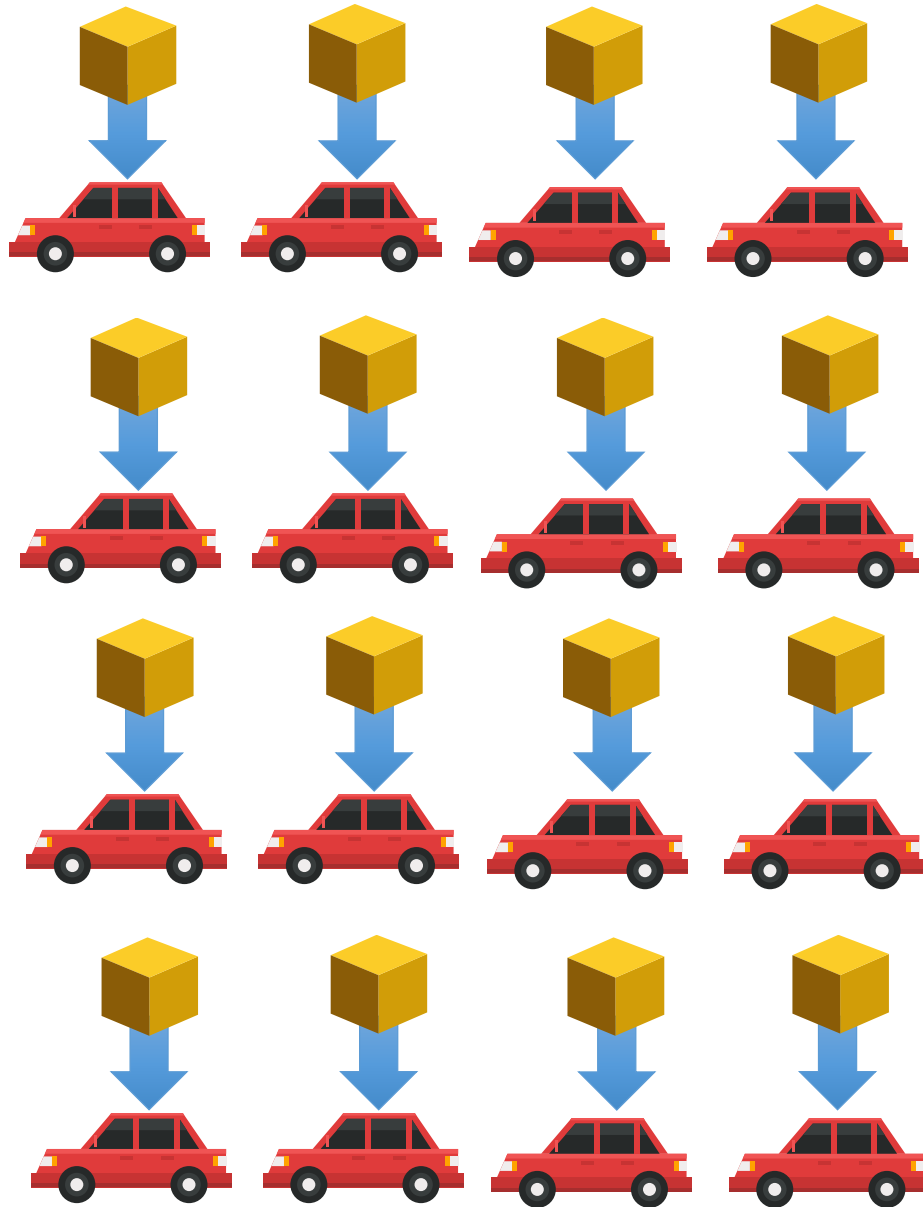

Urban Delivery: Challenges & Opportunities

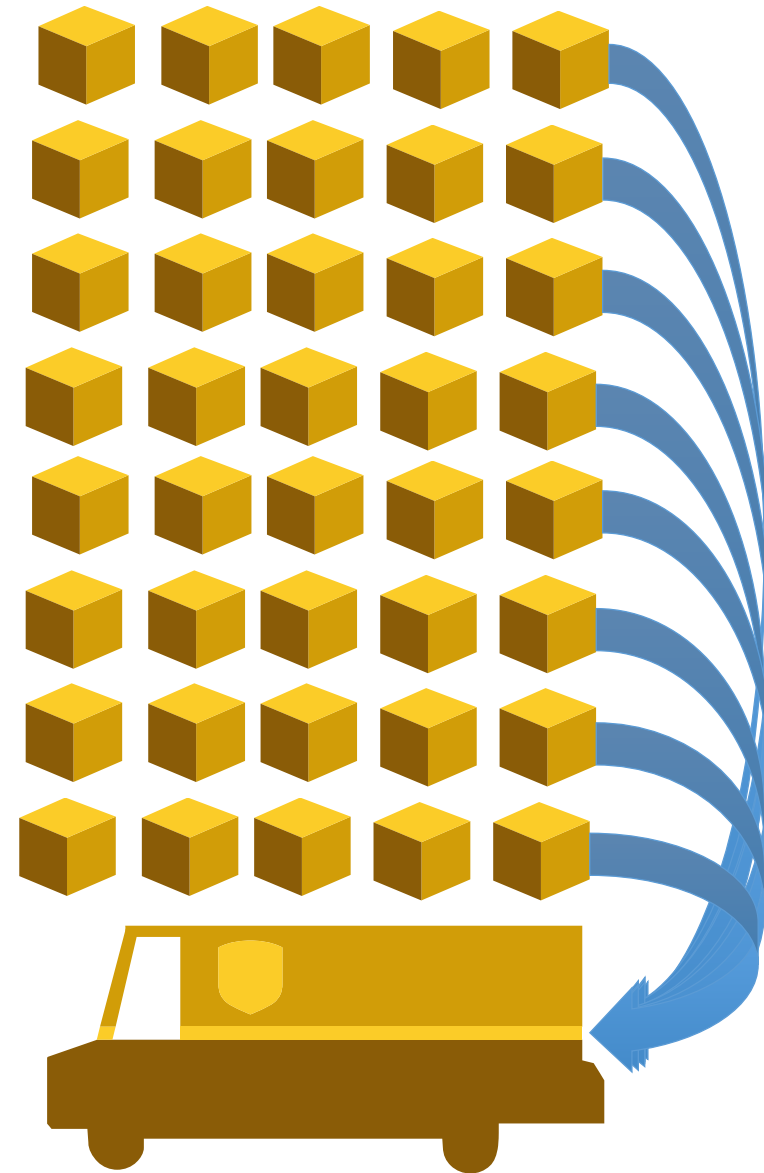

- Population growth to urban areas, causing increased traffic
- More traffic requires us to put more trucks on the road for on-time deliveries
- Parking and ticketing
- Explosive growth of e-Commerce

A World Without E-Commerce

Global Sustainability Solutions

Supporting Investments in Alternative Fuels, Infrastructure and Technology

- 7,200 alternative fuel vehicles on the road
- Across the globe, we drive more than 1 million alternative fuel and advanced technology miles each business day.
- UPS's alternative fuel fleet has driven more than 1 billion miles since 2000.
