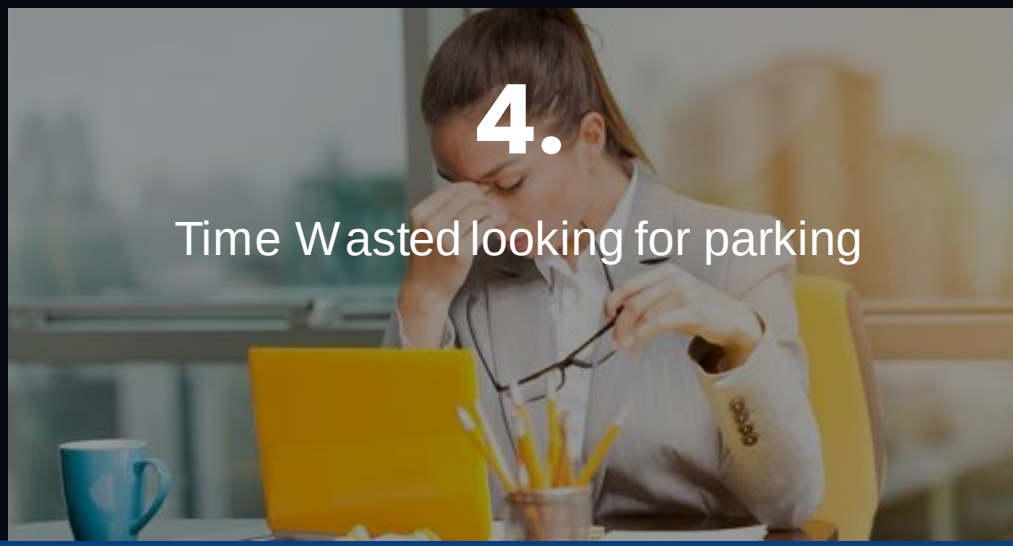
Pre-assigned parking often lies empty

3.

Company is paying for off-site parking options



4.

Time Wasted looking for parking

KEY WORKPLACE CHALLENGES

PARKOFFICE

CASE STUDY:

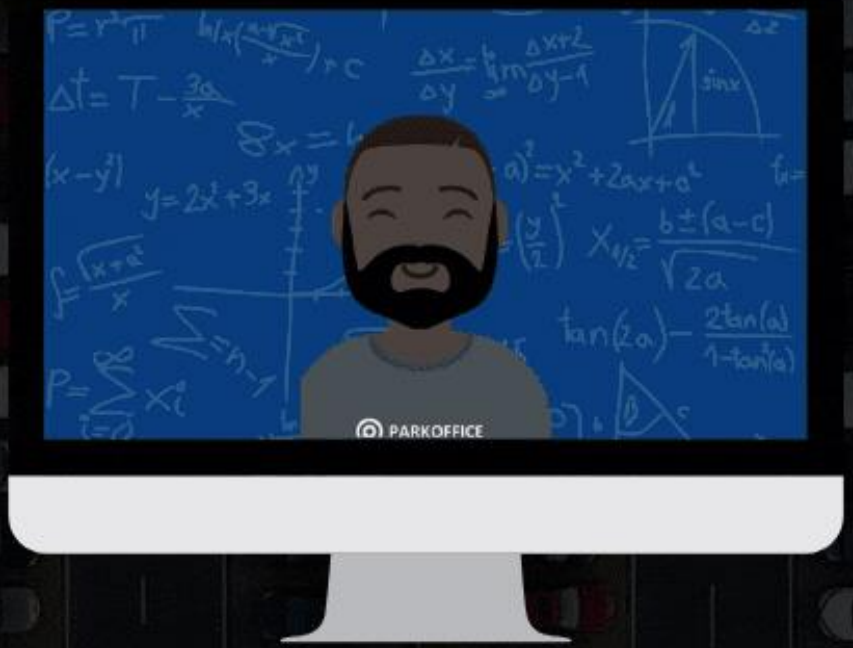
Befimmo (Belgium)

280 employees & 80 spaces

3rd - 7th December 2018

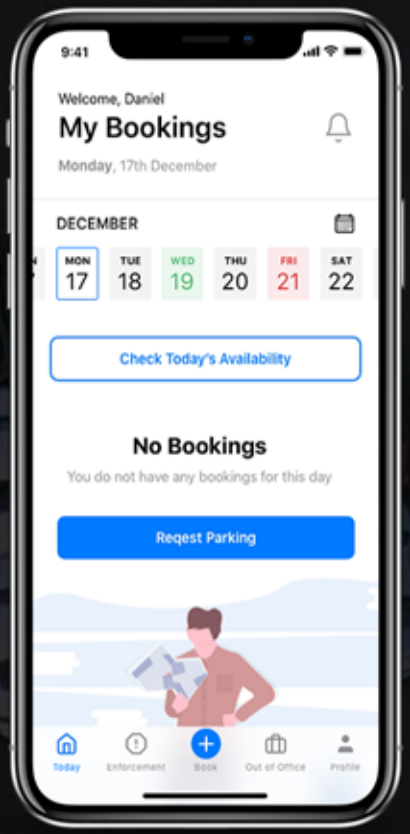
HOW PARKOFFICE WORKS?

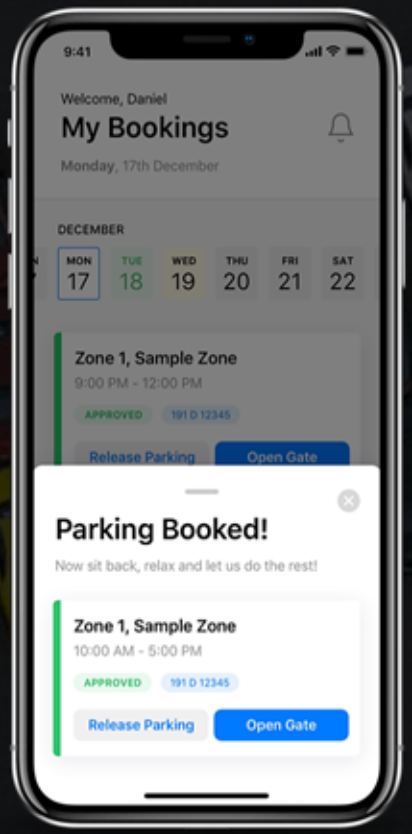
INTRODUCING NEWTON

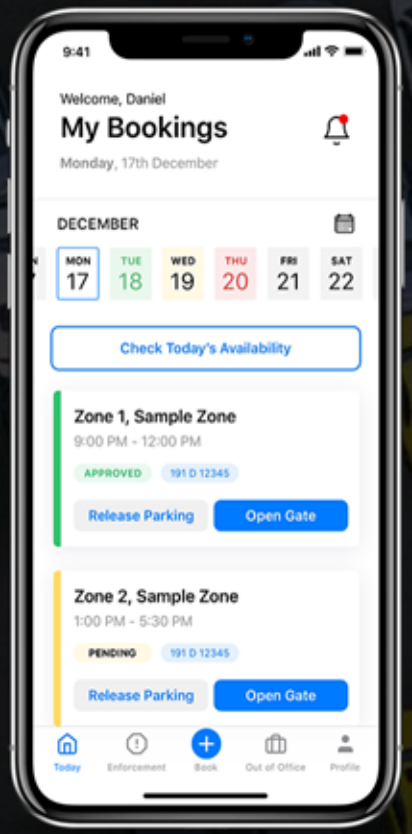


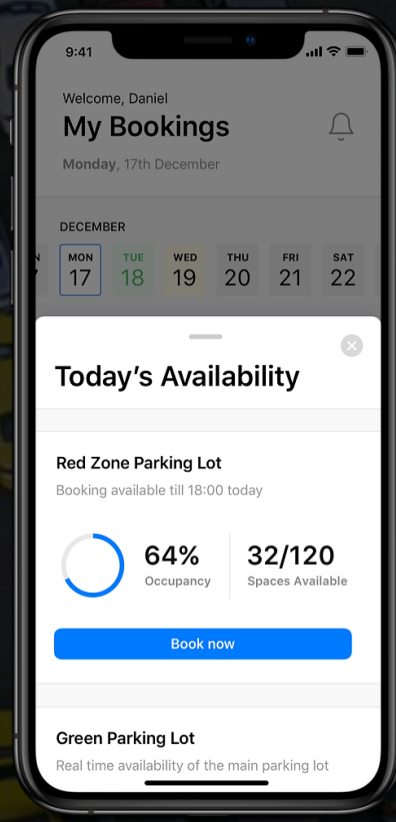
- Meet Newton, the world's first AI powered employee parking manager.
- Newton has managed millions of journeys with his proprietary algorithm.

MAPPING THE EMPLOYEE EXPERIENCE





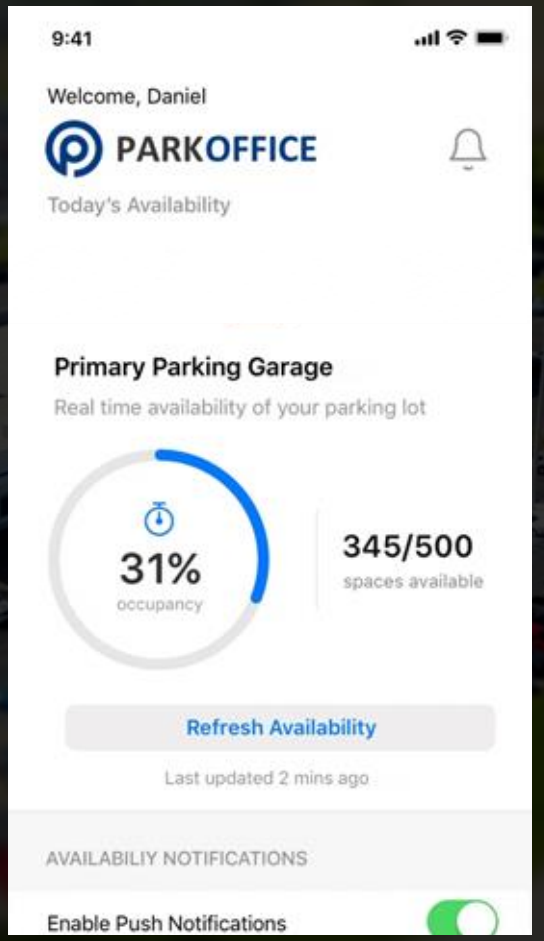




Live Occupancy Tracker Sample :

- Real-time parking availability

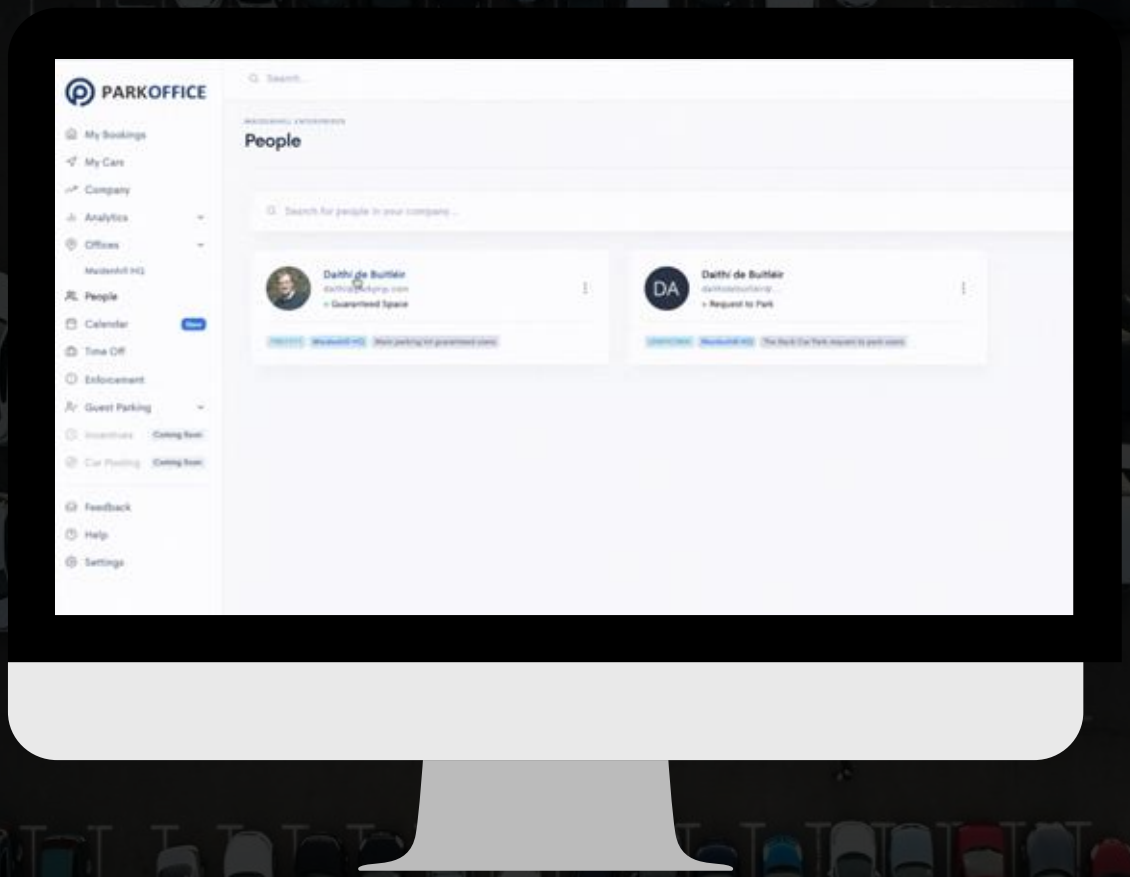
This occupancy figure is live to all employees via the app



EVERYTHING YOU NEED TO MANAGE PARKING IN ONE PLACE

- Flexible digital parking policies
- Real-time reporting dashboards
- Enforcement management
- Reservation management
- Predictive analytics
- Digital access management
- iOS & Android apps
- Automated transport communications
- Live occupancy & sensor tracking
- Newton - the smart algorithm which parks millions of cars
- Priority management
- On-site wayfinding (Q4 2021)

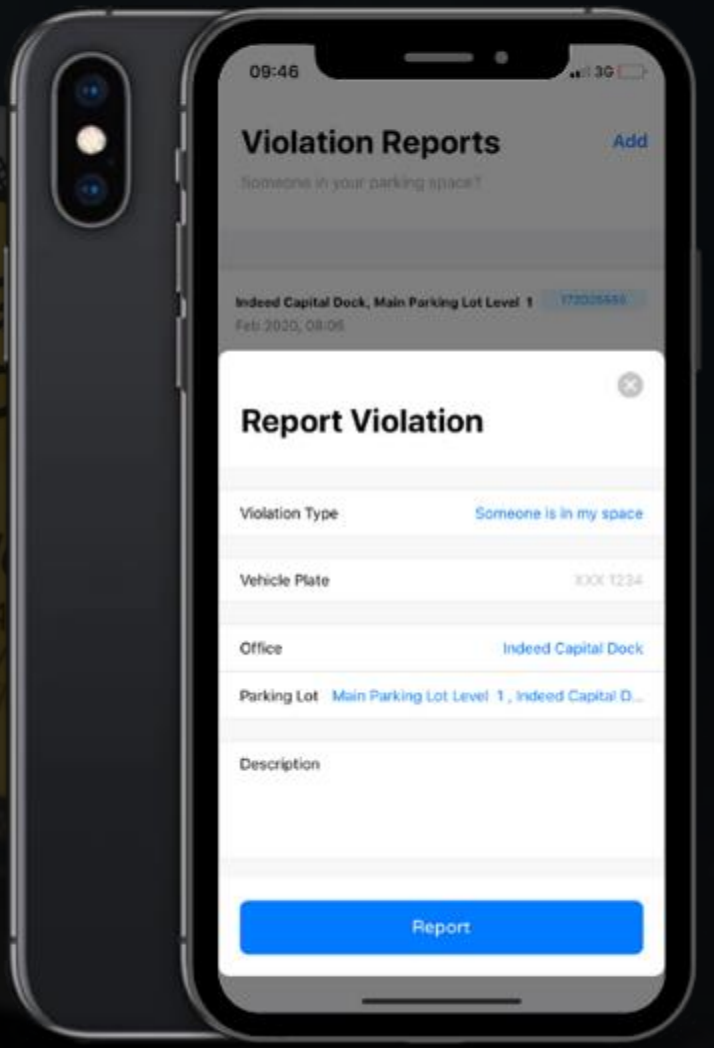
DIGITIZING YOUR PARKING



- Real-time inventory of all persons who want parking access on the campus.
- Integrate with SSO and can be manually altered if necessary.
- Connect cars with employees

POLICING VIOLATIONS

- Reduce the pressure for on-site security
- When an employee arrives at a space which is being used incorrectly, they enter the offending car registration into the app to flag the violation, which automatically notifies the offender and designated admins.
- ParkOffice's algorithm can track poor behavior and downweighs staff in future allocations



Accelerating Scale

Our Difference

Why ParkOffice Revenue Works?

1.

New revenue opportunity from existing tenants

2.

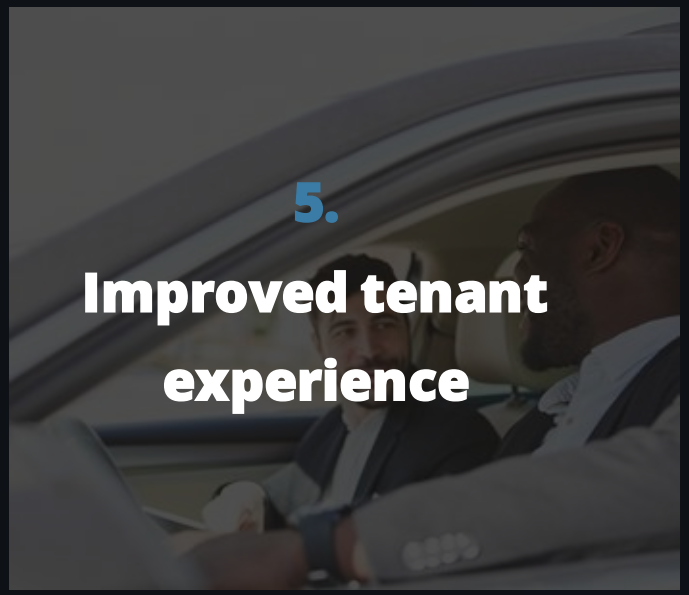
No long term lease

3.

White label available

4.

Zero investment



5.

Improved tenant experience

6.

Closed market, trusted tenants

Introducing ParkOffice Revenue:

Perfecting employee parking payments

In March 2021, we launched ParkOffice Revenue, the only employee parking payments software solution for landlords and property managers.

ParkOffice Revenue opens up a whole new segment of the market for landlords improve the parking experience and monetize underused space in a flexible and secure manner.

Early adopters include:

WeWorkz IPUT

Kennedy Wilson Arlington

Case Study
WeWork (Dublin)

Unlocking new revenue streams with ParkOffice Revenue.

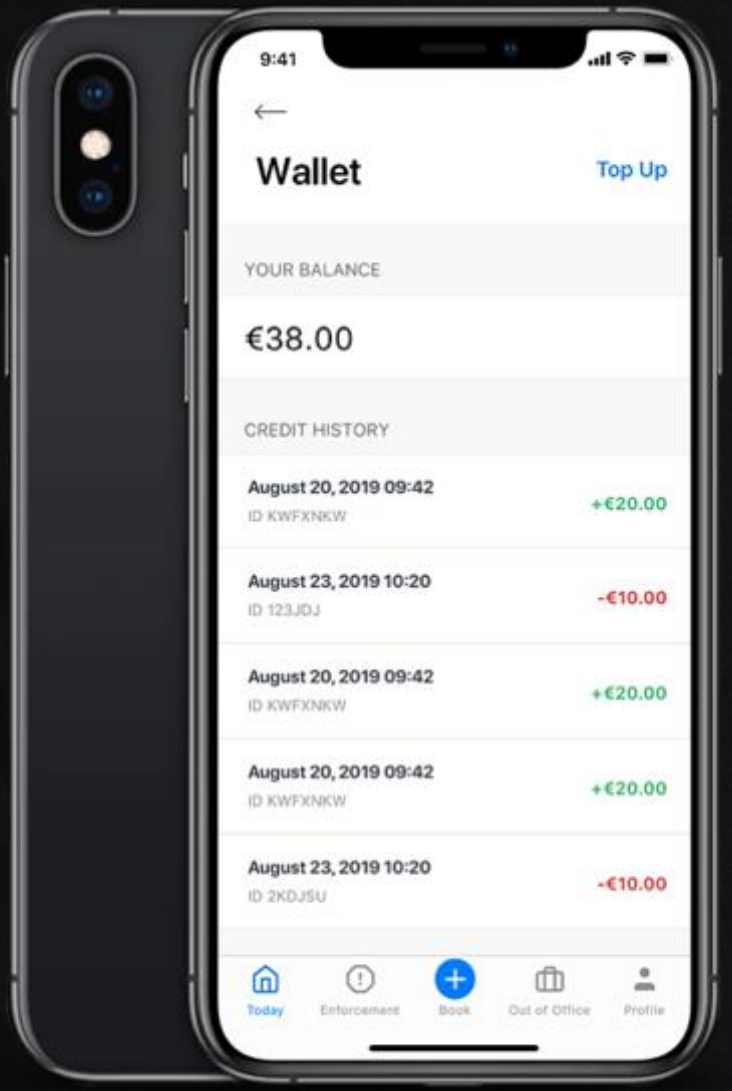
170	€12	40%
spaces	per day	occupancy

ParkOffice Revenue monetizes the transactions with a 30% cut of each booking.

We have just launched this pilot and expect to generate €16,320 extra revenue a month for WeWork by end of year.

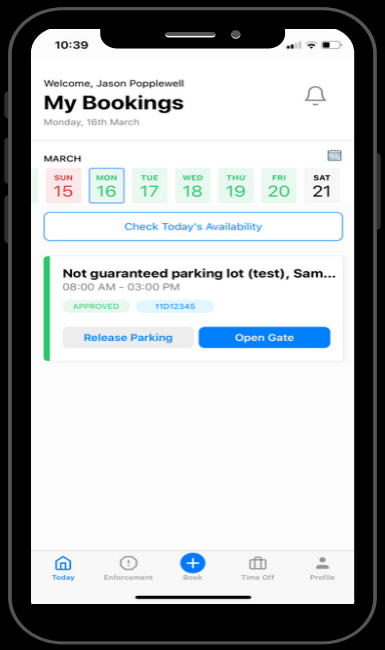
ParkOffice Revenue

Put Your Empty Space To Work With



- Share, own or manage a building? ParkOffice allows you to rent out empty spaces to tenants & employees for a daily rate.

How it works?



ACCESS CONTROL

4. Employees open app on arrival at office building and press "Open Gate"
5. When they need to exit, they simply drive to the barrier and press "Exit Gate"

PARKOFFICE

NEXT STEPS

1. DEMO

See the power of ParkOffice in action with a live demo from a member of our team..
