**10:55 a.m. – 5. The SAVE Act**

**11:15 a.m.**

The SAVE (Sensible Accounting to Value Energy) Act, a new proposal supported by energy efficiency advocates and leading U.S. homebuilders, seeks to correct "blind spots" in current mortgage underwriting and home appraisal practices. The SAVE Act would require federal loan agencies to assess the expected energy costs for mortgage loan applicants.

Sarah Stellberg, IMT
