## **MEETING AGENDA**

1. 1:00 PM **Welcome & Introductions**  
Eulois Cleckley, DDOT
2. 1:05 PM **District Ward 5 Industrial Land Transformation Study**  
Abigail B. Ferretti  
Partners for Economic Solutions  

Ms. Ferretti will discuss the findings of the Ward 5 Industrially Land Transformation Study. Zoned land in Ward 5 accounts for about half of all the industrially zoned land in the District of Columbia. The Study inventories current uses on industrially zoned land in the Ward, and includes an existing conditions assessment, market analysis, best practices, recommendations, and strategies for implementation. How industrial land is used in Ward 5 affects goods movement in the District and the region.
3. 1:35 PM **Congestion Management Process (CMP) Report Findings**  
Wenjing Pu, COG/TPB Staff  

Mr. Pu will highlight the findings and recommendations of this major biennial update of the CMP, including the surprising finding that there has been a *reduction* in overall congestion in the National Capital Region since 2010. While the current congestion management process does not address freight specifically, the Subcommittee can begin to think about how freight concerns could be addressed in future CMP activities. Comments on the draft report

**TPB Freight Subcommittee**
