Dear Mr. Wolniak:

This letter transmits the following data in response to your letter request of September 23, 2004:

1. Draft highway and transit networks, input, control, support and TP+ script files and software to run the demographic sub-models and accomplish trip generation, trip distribution, mode choice and trip assignment using the COG/TPB Travel Forecasting Model Version 2.1/TP+, (DRAFT #50) for three time periods for the simulation years of 1994, 2000 and 2030. The data are contained on a CD-R labeled "CGV21D\_50X".

Please note that generic file names are used in these model runs, so it is recommended that data for each simulation year be kept in separate directories.
