

**REPORT**  
**TPB Citizens Advisory Committee**  
**June 11, 2015**  
**Bob Summersgill, Chair**

On June 11, the Citizens Advisory Committee (CAC) was briefed on TPB's Regional Unfunded Projects List. The committee also conducted discussions among its various subcommittees.

**Briefing on the Regional Unfunded Projects List**

Bob Griffiths of DTP Staff met with the CAC to discuss developments on the Regional Unfunded Projects list. TPB is considering ways to use the list to help inform future project development. Opportunities to link the list to scenario planning, cost estimates by mode, and other methods to analyze the list are being considered. Mr. Griffiths also stated the list could be used to identify high-impact, low-cost projects with regional impact. He showed the group the new unfunded projects maps of all the projects included on the list. He said the TPB Steering Committee has recommended the establishment of a TPB working group to determine how the list might be used for regional planning and policy making.

Several members commented that any time of scenario analysis related to the regional unfunded projects list should coordinate with the analysis of the multi-sector working group on greenhouse gas emissions. Mr. Griffiths agreed and said the two projects will be linked.

**Briefing on upcoming TPB Agenda**

Mr. Griffiths and Mr. Srikanth updated the CAC on the agenda for the June TPB Meeting. Mr. Srikanth commented on his testimony to the U.S. Senate.

**Subcommittee Work Session**

The CAC subcommittees met in smaller groups for discussion and comments.
