MEMORANDUM

May 20, 2014

TO: Commuter Connections Subcommittee

FROM: Erin Morrow
Department of Transportation Planning

SUBJECT: Update Local Jurisdictional Travel Demand Management Strategies for the 2014 Congestion Management Process (CMP) Technical Report

In order to provide the most up-to-date information in the 2014 CMP Technical Report, COG Department of Transportation Planning (DTP) staff are updating the attached table of "Ongoing State, Local, and Jurisdictional Transportation Demand Management (TDM) Strategies." This table was updated from 2012 CMP Technical Report with feedback from the Management, Operations, and Intelligent Transportation Systems (MOTIS) Technical Subcommittee. For your reference, the draft 2014 CMP Technical Report can be retrieved from the following URL. The draft table is in Section 3.2.2.

http://www.mwcog.org/transportation/committee/committee/documents.asp?COMMITTEE_ID=46

The purpose of this table in the CMP Technical Report is to document the demand management strategies that are being undertaken by various agencies in the region. Federal regulations require the long-range plan and CMP to include consideration and implementation of demand management strategies, along with other potential CMP strategies. Fortunately, the Washington region has a wealth of demand management strategies implemented, which we can take credit for in the CMP report.

We appreciate the efforts of members of the Commuter Connections Subcommittee to review this document. Please provide any updated information (changes, additions, deletions) regarding ongoing local jurisdictional travel demand management strategies. We would prefer to receive comments by May 28, 2014. Please send recommended changes to, Erin Morrow, via email: emorrow@mwcog.org, fax: (202) 962-3202, or phone (202) 962-3793. Should you have any questions please feel free to contact me.
