

**TPB Regional Public Transportation Subcommittee
Transit Operator Presentations**

In an effort to better share information between operators, the Regional Public Transportation Subcommittee will have representatives from transit operators throughout the region present at the monthly subcommittee meetings. Operator representatives will describe their transit system (vehicles, routes, fare structures, etc.), current challenges, recent successes and prospect for long-range plans. Additionally, each operator will be assigned one of the "Eight Building Blocks" of transit service. Transit operators will come prepared to discuss their experience with the given topic.
