

Stakeholder Appointments for 2010 (1/27/10)

John Kinsman, Director of Air Quality Programs, Edison Electric Institute

Mr. Kinsman has been staff to EEI's member company Clean Air committee for ten years. He addresses the issues of multi-emission policy, acid rain, ozone, particulate matter, visibility, mercury and greenhouse gases. He works to obtain reasonable environmental laws and regulations and assist the industry in compliance.

Ana Prados, Asst Professor, University of Maryland Baltimore County and member, Fairfax County Federation of Civic Associations, Fairfax County. Ana Prados has been nominated by the Fairfax County Federation of Civic Associations to replace Flint Webb who has served as a stakeholder since 2004. She is a Research Assistant Professor working on using remote sensing data to track air pollutants from industrial sources.

Walter N. Seedlock, Metropolitan Washington Airports Authority

Mr. Seedlock is the building code and environmental manager for the Metropolitan Washington Airports Authority and as such develops policies for compliance with a variety of environmental regulations both state and Federal. He is a member of the Airports Council International (ACI) Environmental Committee in which he has participated regularly for the last nine years in assisting the development of national programs and policies for Airports and the environment.

Andrew Gayne, Marine Corps Base Quantico,

Mr. Gayne is the Air Program Manager at Marine Base Quantico. He is the liaison between the Base and all regulatory agencies for issues related to the Clean Air Act, ensuring the mission of the Corps remains compatible with the applicable regulatory requirements. Previously Mr. Gayne worked at the Virginia Dept. of Environmental Quality as a permit inspector.

Role of Stakeholders:

Stakeholders are nonvoting members of the Technical Advisory Committee. They serve until the end of the calendar year.
