

MWCOG Board Presentation Outline Draft Water Infrastructure

Introduction

- 2014 COG Board priority – Regional Infrastructure
- April – Drinking Water and Security

What is the Regional Water Infrastructure?

- Drinking Water
- Wastewater & CSO
- Stormwater

Drinking Water and Water Security: Deeper Dive

- How is water used?
- Where do we get our drinking water?
- Who treats and supplies water to our homes and businesses?
- Who regulates drinking water?
- What is the value of our regional water supply infrastructure?
- Who pays? How much do we spend?
- How many people are employed by our water providers?
- What does COG do to support drinking water infrastructure?

Regional Water Security: How Are We Prepared?

- What are the threats?
- How are we prepared?

Issues & Innovations

- How can we address aging infrastructure?
- How can we improve asset management?
- What more is needed to address drinking water quality?
- What more is needed to address source water protection?
- What are our workforce needs?
- How can we address Interdependence & resiliency?
