Dear Chairman York:

The Maryland Department of Transportation (MDOT) requests an amendment to the State Highway Administration (SHA) portion of the FY 2013-2018 Transportation Improvement Program (TIP) as described in the attached memo. The amendment is needed to reflect additional funding that has been programmed for several projects in the National Capital Region. The additional funds are available due to an increase in federal-aid obligational authority, and due to grant awards from the Office of Economic Adjustment (OEA). The amendment details are summarized below and in the attached memo.

** SHA's Planning for Operations studies are an interdisciplinary (Traffic and Highway Engineering, and Operations Units) effort to address congestion by developing a series of improvement alternatives that can be implemented in a short time-frame. The alternatives may include geometric as well as incident management improvement options.*

MDOT requests that this amendment be approved by the Transportation Planning Board (TPB) Steering Committee at its February 1, 2013 meeting.

The revised funding status will not impact scheduling or funding availability for other projects in the current TIP, which continues to be fiscally constrained. The cost does not affect the portion of the federal funding which was programmed for transit, or any allocations of state aid in lieu of federal aid to local jurisdictions.

The Honorable Scott York, Chair
National Capital Region Transportation Planning Board
Metropolitan Washington Council of Governments
777 North Capitol Street, N.E., Suite 300
Washington DC 20002

Dear Chairman York:

The Maryland Department of Transportation (MDOT) requests an amendment to the FY 2013-2018 Transportation Improvement Program (TIP) to add the MDOT Bikeshare Program for several projects in the National Capital Region. Last year, MDOT solicited applications for a new grant program that was formed to promote Bikesharing statewide in Maryland. A total of \$1.44 million in CMAQ funding will be used for these projects. These projects do not affect the currently approved air quality conformity analysis as the projects are not regionally significant. The following agencies received awards to fund the study or implementation of Bikeshare programs:

TIP ID#	Project	Phase	Amount of New Funding	Agency
6076	Bikeshare Program	Study	\$12,000	Frederick City Feasibility Study
		Study	\$40,000	Prince George's County Feasibility Study
		Study	\$20,000	The City of Greenbelt Feasibility Study
		CO	\$993,000	Montgomery County Bikeshare
		CO	\$187,500	University of Maryland
		CO	\$187,500	The City of College Park

MDOT requests that this amendment be approved by the Transportation Planning Board (TPB) Steering Committee at its February 1, 2013 meeting.

The revised funding status will not impact scheduling or funding availability for other projects in the current TIP, which continues to be fiscally constrained. The cost does not affect the portion of the federal funding which was programmed for transit, or any allocations of state aid in lieu of federal aid to local jurisdictions.
