

RIBBON CUTTING

BOUNDARY CHANNEL DRIVE AT I-395 INTERCHANGE IMPROVEMENTS

- Thursday, May 30, 2024 at 11 a.m.
- Long Bridge Aquatics and Fitness Center Parking Lot

Please join the Virginia Department of Transportation, Arlington County, and the Northern Virginia Transportation Authority to celebrate the completion of the Boundary Channel Drive Interchange Improvements project.

This project recently delivered multimodal and highway safety improvements to a key gateway between the Commonwealth and the Nation’s Capital to benefit local and regional travelers. This includes:

- Reconfiguring ramps between I-395, Boundary Channel Drive and Long Bridge Drive to enhance highway access and safety
- Reallocating underutilized roadway capacity on Boundary Channel Drive to construct a 12-foot-wide westbound shared-use path and an eight-foot-wide eastbound sidewalk
- Reducing conflicts between users by installing roundabouts on Boundary Channel Drive on either side of I-395
- Increasing access to recreation and active transportation opportunities with a new link from the Mount Vernon Trail to the Pentagon and Long Bridge Park by tying into the existing path paralleling the southbound George Washington Memorial Parkway ramp to southbound I-395

We look forward to celebrating this milestone with you!

Event parking is available at the Long Bridge Aquatics and Fitness Center located at [333 Long Bridge Dr., Arlington, VA 22202](https://www.aquaticsandfitnesscenter.com/). Please use the recommended parking as shown in the map.
