

we are  ICF

COG Climate, Energy, and Environment Policy Committee Meeting

Deb Harris, Bill Prindle

January 23, 2019

Agenda

- Overview of the ICF Team
- Meet the ICF Team Experts
- ICF Team Capabilities
- ICF Team Project Examples

Overview of the ICF Team

A Growing, Global Company **Since 1969**

 Global professional, technology and marketing services firm

 More than **5,000** People

Headquartered in Fairfax, Virginia with:

 **67** Offices

 **80** Nationalities

\$1.2B In annual revenue

 Speaking more than **70** Languages

Meet the ICF Team Experts

ICF Team Capabilities

- **Greenhouse Gas Inventories**

- Data collection and emissions estimation using GPC or other protocols, trends and drivers analysis to identify and prioritize focus areas for future emissions reductions

- **Climate Mitigation and Sustainability Program Planning Support**

- Identify and model multi-sector strategies and actions to reduce GHG emissions and maximize other benefits, develop plans and partnerships, identify financing opportunities, facilitate effective communications through reports, workshops, and events

- **Adaptation and Resiliency Services**

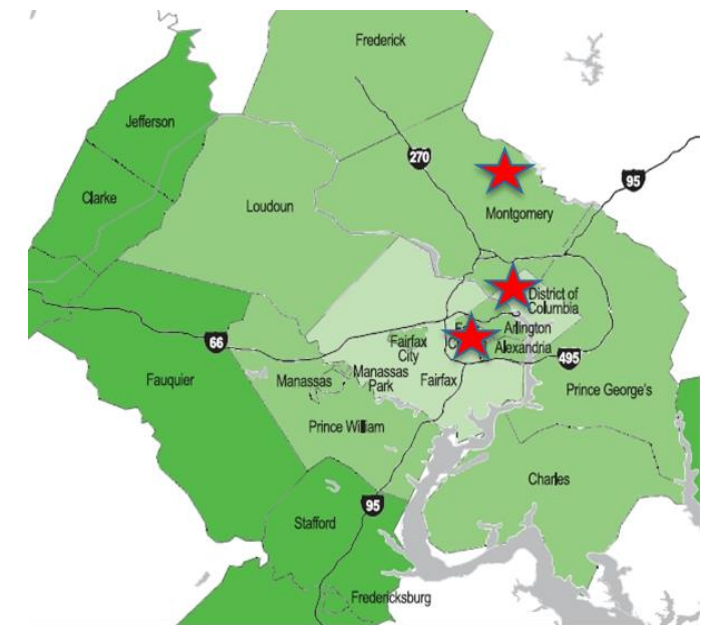

- Integrated approach to deliver actionable information by applying a decision-first analytical framework and developing flexible adaptation pathways, road-tested approach for identifying and prioritizing adaptation strategies and resilience measures

- **Community Outreach and Communications**

- Communications and outreach via attractive and actionable reporting materials, interactive workshops, and engaging events

ICF Project Examples – MWCOG Region

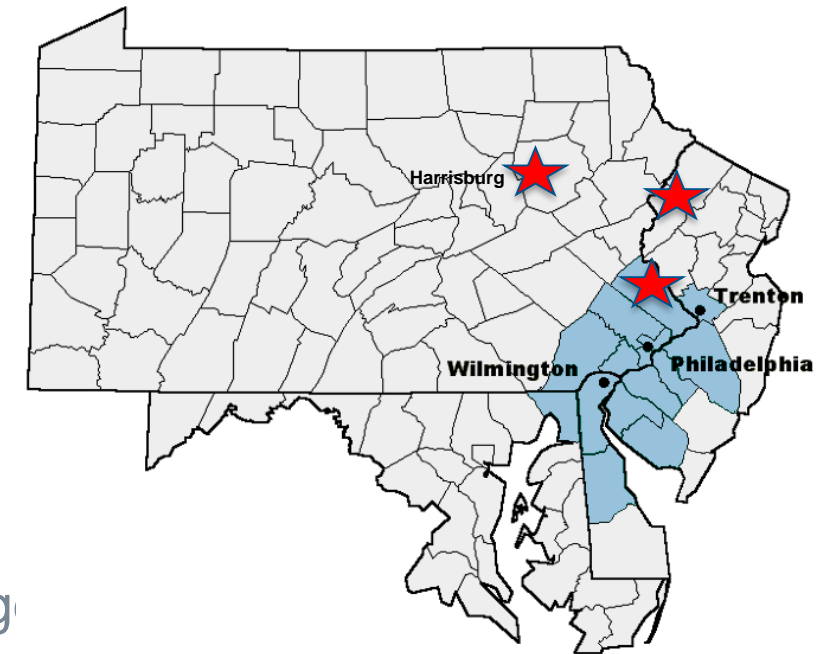

- **Arlington County Community Energy Plan:**
 - Technical recalibration of Plan to assess progress and potential reductions strategies to meet GHG goals; modeling impacts of 5 key strategies
- **Montgomery County Energy Policy:**
 - Detailed analysis of the county’s commercial buildings energy policy to support its Climate Action Plan
- **MWCOG Climate Action:**
 - GHG modeling, energy and built environment analysis and planning, and renewable energy
- **EnergySmart D.C (NSpireGreen).:**
 - Communications expertise for D.C.’s Comprehensive Energy Plan through technical research and writing, data collection, modeling, developing a carbon footprint, and recommending future EE strategies

ICF Project Examples – Philadelphia Area

- **Pennsylvania State Climate Action Plan:**
 - Update to state’s Climate Action Plan and Energy Assessment
- **Philadelphia Climate and Energy Support:**
 - Energy Master Plan for the Built Environment
 - 80 by 50 GHG reduction analysis and tool
 - GHG Inventories
 - Adaptation and Resilience Assessments and Strategies (Growing Strong)
 - One-off energy assessments (e.g., CPACE)
 - Sustainability metrics and scoring
 - Government and Community outreach
- **Delaware Valley Regional Planning Commission:**
 - GHG inventory and forecast to develop a regional climate change strategy
