

Understanding Sequestration and Its Impact on Local Governments & Regions

Presented by:

The National Association of Regional Councils

Updated October 2, 2012

Use of Materials

Since 2011, NARC has been providing information on the national debt, budget cuts and related issues, and we will continue to do so. Please use this information to educate local elected and appointed Board members, staff, stakeholders and citizens involved in the regional planning process.

This information is not the opinion of the NARC Board, its members or staff, but rather readily available data compiled from various public sources.

The Background

Why Sequestration?

- ✓ National debt sparked discussion
 - \$15.882T (as of July 18, 2012)
 - increased by over \$500 billion each year since FY03
 - \$15.003T Total GDP at the end of June 2011
 - Congressional Budget Office (CBO) called for "...large and rapid policy changes to put the nation on a sustainable fiscal course."
- ✓ Established Congressional Debt Super Committee
 - Charged with determining how to make reductions
 - No agreement = automatic sequestration
- ✓ Reign in government spending and reduce national debt

Sequestration 101

WHAT?

Automatic, across-the-board cuts on federal domestic and defense discretionary and mandatory funds starting 1/2/13

HOW?

Created under the Budget Control Act (BCA), the debt limit deal passed by Congress in August 2011

TOTAL?

\$1.2 trillion to be cut evenly over 2013-2021 (\$109B/year)

EXEMPTION EXAMPLES?

Transportation Trust Funds Social Security CHIP

Medicaid/Medicare (2% cap) Veterans Programs Food Stamps (SNAP)

Building Regional Communities

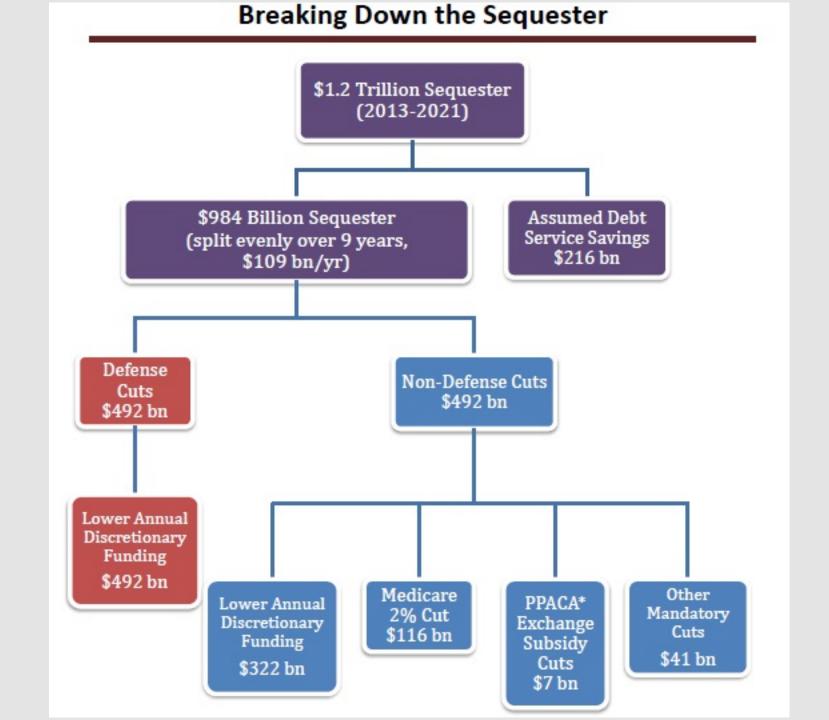

Federal Retirement Benefits Child Nutrition Some tax credits

Military Pay Pell Grants

Sequestration Numbers

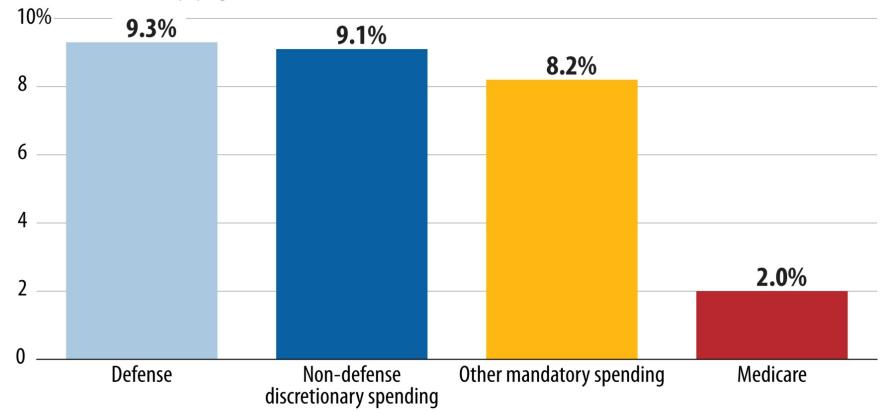

- \$54.7B/yr in defense AND \$54.7B/yr nondefense cuts from 2013-2021
- 2013: \$38.6B across all discretionary programs
 - Estimated cuts range between 7.8% and 10%
 - Bipartisan Policy Center estimates nearly every domestic program would face a 12% cut
- 2014+: Appropriations Committee determines cuts
- Cuts mostly from discretionary spending (~70%)
- ~13% of cuts from mandatory spending

Cuts Required in 2013 by Sequestration

What are the Effects?

- Pressure on states and locals to maintain assets
- How do to more with less Regionalism important
- Potential dramatic blows to economy and jobs
 - ✓ Employers with more than 100 employees will have to send layoff notices at least 60 days before event – warnings will need to be sent November 2
 - ✓ Have \$500B in contracts reduced/cancelled \$50B
 - ✓ Reduction of federal personnel
- Political stress to address impacts
 - ✓ Great concern about defense programs and impact on the economy
- Office of Management & Budget (OMB) will determine how 2013 sequester will be implemented
- Two reports Bi-Partisan Policy Center & AIA
- CBO economy estimates & recession

Bi-Partisan Policy Center Job Estimates

THE SEQUESTER WOULD COST THE ECONOMY OVER 1 MILLION JOBS IN 2013 & 2014

[•]The projection for jobs added averages the first five months of job growth in 2012 – 165,000 jobs/month – and assumes that level of growth continues through the end of 2014.

AIA Impact Report

Aerospace Industries Association 7/10 sequestration report:

- ✓ Examines defense and non-defense impacts
- ✓ Most severe impact in 2013
- ✓ Reduce the nation's GDP by \$215 billion in 2013
- ✓ Decrease personal earnings of the workforce by \$109.4 billion
- ✓ Cost the economy 2.14 million jobs
- ✓ Bring unemployment rate to over 9%

CBO Estimates

© CONGRESSIONAL BUDGET OFFICE

In May, CBO estimated that if the automatic spending cuts (sequestration) are allowed to remain in place and if the Bush tax cuts are allowed to expire on December 31, as scheduled, the U.S. economy could be pushed into recession early next year.

Recent Activity - Administration

- President's FY13 Budget sought to substitute a mix of spending reductions and budgetary savings for sequestration
- President not asking agencies to do 2013 budget contingency plans as he is anticipating Congress to act
- Federal agencies are already beginning to delay contract awards and other procurement actions in preparation of the cuts
- White House Office of Management & Budget (OMB) has been meeting with agencies to determine which budget accounts and programs will be exempt from the cuts

Recent Activity - Administration

- At the end of September, OMB ordered federal agencies to plan for FY13 spending as if sequestration is not a factor, stating, "Agencies should continue normal spending and operations."
- If Congress doesn't address sequestration in the lame duck, in January OMB will enact steps to make the \$109 billion in FY13 cuts
- Administration sent Congress a report on how sequestration will affect specific programs

White House Report

- Released September 14 by the White House OMB
- Details anticipated impacts of sequestration across more than 1,200 federal accounts for 2013
- "...sequestration would be deeply destructive to national security, domestic investments, and core government functions."
- Provides a high-level overview of preliminary numbers but does not get into too many program specifics, and is still subject to revision. Please note that the numbers provided in the report and summarized on the next slide are not finalized or exactly what will occur come January 2, 2013. There are still several factors that need to be addressed.

Recent Activity - Congress

House

- Budget Resolution: substitute spending reductions and budgetary savings for sequestration
- Passed HR 5652 to avoid sequestration and replace \$100B in automatic spending cuts with more than \$310B over 10 years from mandatory spending
- Passed HR 5872 that requires the White House to provide a detailed description of the plans for implementing the 2013 spending cuts at federal agencies
- HR 6365 a symbolic bill requiring the President to office an alternative to sequester's cuts

Senate

- Bipartisan effort requesting 15 defense companies detail anticipated impacts of sequestration
- Passed an amendment to the Farm Bill requiring detailed sequestration reports from federal agencies

Joint Efforts

Republican leaders sent a letter to President Obama on July 13 calling on him to seek "common-sense savings" to replace the sequester

Can this be avoided?

Technically, YES

- Congress must pass legislation that undoes the legal requirement in the BCA and President Obama would need to sign before January 2, 2013
- The Executive Branch has no authority or ability to redistribute or reverse the cuts

Moody's Investors Service warned it would lower the federal govt's top, triple-A credit rating if negotiations do not produce a plan to stabilize and reduce the national debt

"I predict that there will not be a sequester one way or the other. I just think it's not going to happen. The sequester will not happen, but the earlier we avoid it happening or make it clear that it's not going to happen, the better."

- U.S. Senator Carl Levin (D-MI)

"I'm not confident at all. Listen, the House has done its job on both the sequester and on the looming tax hikes that'll cost our economy some 700,000 jobs. The Senate at some point has to act. And on both of these, where's the president? Where's the leadership? Absent without leave."

-U.S. Speaker of the House John Boehner (R-OH)

Association Activity

US Conference of Mayors

- Sent a letter to Congressional leadership signed by 160 mayors around the country detailing the negative impacts sequestration will have on local budgets.
- Urges a bipartisan and balanced approach to deficit reduction through spending cuts with additional revenue from sources that still facilitates economic growth.
- Concerned with deep reductions in non-defense discretionary spending – ¹/₃ directed to state and local programs

National League of Cities

- Opposes draconian cuts and instead is calling on Congress to take action to prevent the cuts from taking effect
- Will continue to urge Congress and the President to avoid the automatic budget cuts and adopt a non-partisan plan to reduce the deficit and balance needed reductions in spending with revenue enhancement

"It's irresponsible, it's bad policy, and we deserve better from our federal government."

NLC President Ted Ellis, Mayor, Bluffton, IN

National Association of Counties

- Identified as one of the top issues facing counties
- Advocates the following positions:
 - ✓ Congress cannot solve the budget deficit by only cutting domestic, non-military discretionary programs
 - ✓ Federal assistance to state and local governments will help mitigate further layoffs
 - ✓ Federal investment in state and local infrastructure produces private sector jobs
 - ✓ Deficit reduction should not be accomplished by:
 - shifting costs to counties (e.g. cuts to Medicaid)
 - imposing unfunded mandates
 - pre-empting county programs or taxing authority
- NACo supports maintaining federal financial assistance for county programs at the 2010 fiscal year levels.
