Receipt of Specialty Treatment in the Past Year among Adults Aged 18 or Older Who Needed Substance Use Treatment in the Past Year: 2015 NSDUH

20.4 Million Adults Needed Substance Use Treatment

Past Year Substance Use Disorder (SUD) and Mental Illness among Adults Aged 18 or Older: 2015 NSDUH

Receipt of Mental Health Care and Specialty Substance Use Treatment in the Past Year among Adults Aged 18 or Older Who Had Past Year MI & SUD: Percentages, 2015 NSDUH

8.1 Million Adults with Co-Occurring Mental Illness and Substance Use Disorders

Note: Mental health care is defined as having received inpatient care or outpatient care or having used prescription medication for problems with emotions, nerves, or mental health. Specialty substance use treatment refers to treatment at a hospital (inpatient only), rehabilitation facility (inpatient or outpatient), or mental health center in order to reduce or stop drug or alcohol use, or for medical problems associated with drug or alcohol use.

Note: The percentages do not add to 100 percent due to rounding.

Comprehensive Addiction and Recovery Act

On July 22, 2016 the Comprehensive Addiction and Recovery Act (CARA) became Public Law 114-198.

One of CARA's important provisions expands access to substance use treatment services extending the privilege of prescribing buprenorphine in office-based settings to qualifying nurse practitioners (NPs) and physician assistants (PAs) until Oct. 1, 2021.

NP/PA Qualification: Training

- **Total of 24 hours of training required**
- **8 hours from DATA 2000 waiver training**
- **Training providers:**
 - American Nurses Credentialing Center,*
 - American Association of Nurse Practitioners,*
 - American Academy of Physician Assistants*
- **American Society of Addiction Medicine,**
- **American Academy of Addiction Psychiatry,**
- **American Medical Association,**
- **American Osteopathic Association,**
- **American Psychiatric Association**

NP/PA Qualification: Licensing and Waiver

- **Must have licensing authority to prescribe schedule III substances**
- **May treat up to 30 patients in the first year**
- **After 1 year may request to treat up to 100 patients**
- **Online waiver request form:**

What We Do

We are a national training and mentoring project developed in response to the prescription opioid misuse epidemic and the availability of pharmacotherapies to address opioid use disorder. The overarching goal of PCSS-MAT is to make available the most effective medication-assisted treatments to serve patients in a variety of settings, including primary care, psychiatric care, substance use disorder treatment, and pain management settings.

NP and PA Information on MAT Waiver Training

If you are a Nurse Practitioner or Physician Assistant interested in completing the required 24 hours of training for your MAT waiver training, you may take the

8-hour waiver training immediately. **NOTE:** The remaining 16 hours of training have been developed and are under review for CE accreditation. We

Free MAT APP

- **Information on medications**
- **A buprenorphine prescribing guide, which includes information on the waiver process and patient limits**
- **Clinical support tools such as treatment guidelines, ICD-10 coding, and more**
- **Access to critical helplines and SAMHSA's treatment locators**
