Metropolitan Washington Council of Governments

Dear Chair Henderson:

The Prince George's County Department of Public Works and Transportation (DPW&T) requests an amendment to the National Capital Region Transportation Planning Board's (TPB) FY 2023-2026 Transportation Improvement Program (TIP), as identified in the attachment. This project is not a capacity enhancement project and therefore, does not need air quality conformity analysis. The purpose of this amendment is to add the Bridge Preservation Program, Ph.1 project to the FY 2023-2026 TIP. The reconstruction project is funded from the federal Highway Bridge Rehabilitation and Reconstruction Program (HBRRP) at an 80/20 federal/local split with the remaining funding to come from Prince George's County. This project includes four bridges with superstructures rated in fair condition, making this project eligible for rehabilitation. These bridges are as follows: Contee Rd., Bridge No. P-0169, Sellman Rd., Bridge No. P-0190, Cherry Ln. EB, Bridge No. P-0198031, Cherry Ln. WB, Bridge No. P-0198041. The project purpose is to clean bridge elements and paint all steel surfaces to eliminate the further deterioration and increase the life of the structure.

An amount of \$6,750,000 will be programmed for the current TIP (FY 2023-2026). An additional \$1,000,000 will be programmed for FY 2027 for a total project cost of \$7,750,000. This project is to be designed "not regionally significant" as there is no capacity increase associated with this project and does not require conformity testing.

Prince George's County requests that this amendment be approved by the TPB Steering Committee at its May 3, 2024 meeting. Following approval of the TIP amendment, we will request that the Maryland Department of Transportation amend its Statewide Transportation Improvement Program (STIP) so that we may begin obligating federal aid funding. We appreciate your cooperation in this matter.
