Item: 4. Ozone Season Summary

Presenter: Jen Desimone, COG DEP and Clean Air Partners

Description:

In the Washington area the ozone season runs from May to September. Although air quality has improved over the past ten years, the Washington region still experiences many days during the summer when air quality exceeds the health standard. Daily air quality forecasts are posted on the COG website along with tips to protect health and reduce air pollution. Ms. Desimone will compare the 2006 ozone season to those of past years. Daily forecasts and air quality information are found at www.mwcog/environment/air and www.cleanairpartners.net .

Ozone Season Summary

Item 5: Air Quality Plan (SIP) Status

Presenter: Joan Rohlfs, Chief, Air Quality Planning

Description:

Ms. Rohlfs will discuss development of the 8-hour ozone air quality plan (SIP). Due to coordination of modeling between Virginia Dept. of Environmental Quality with other modeling centers in the Ozone Transport Region, there have been some delays in attainment modeling for the Washington region. Final attainment modeling results are expected in mid-October. The modeling results will be included in the draft air quality plan that will be submitted to MWAQC for approval for public hearing in January. Public hearings will be held in March and final approval of the SIP is expected in April.
