

National Capital Region
Transportation Planning Board

MEMORANDUM

TO: TPB Technical Committee
FROM: Brandon Brown, TPB Transportation Planner
SUBJECT: TPB Subcommittee Resource Directory
DATE: March 29, 2019

The TPB Technical Committee oversees all work undertaken by all subject matter expert subcommittees. As part of our membership outreach efforts, we have drafted a subcommittee resource directory for TPB Technical Committee members and their colleagues.

The goal is to strengthen the linkages between regional stakeholders, the TPB Technical Committee and the various subject matter experts who serve on TPB subcommittees. This also provides Technical Committee members with a compilation of subcommittee staff liaisons, oversight areas, and objectives.

We will be following up with Technical Committee members and regional agencies to update subcommittee membership rosters. We hope to cultivate greater participation by regional partners in the various activities and subjects being discussed at the TPB subcommittee level.
