AGENDA

10:00 A.M. 1. CALL TO ORDER AND FOCUS OF MEETING

Karl Berger, COG Staff

- Focus
 - Presentation of new data on nitrogen dynamics and SAV growth in Potomac estuary
- Anticipated Outcomes
 - Identification of implications for management actions

10:15 A.M. 2. RESPONSES OF THE POTOMAC ESTUARY TO CHANGE: MANAGEMENT, CLIMATE, AND CLAMS

Dr. Lora Harris, University of Maryland Center for Environmental Science

Dr. Harris will present results from a recently developed nitrogen budget for the Potomac River estuary.

11:15 A.M. 3. SAV TRENDS IN THE UPPER POTOMAC ESTUARY

Dr. Bill Dennison, University of Maryland Center for Environmental Science

Dr. Dennison will review new data from the Chesapeake Bay Program on the status and trends of SAV in the upper portion of the Potomac estuary.

11:45 A.M. 4. COG-MONITORING PROGRAM DIRECTION

Mr. Berger will discuss ideas for the future direction of COG's water quality monitoring program.

12:00 P.M. 5. LUNCH

Lunch will be provided for all members and their alternates.

Workshop Materials

- 1. Lora Harris PPT Response of the Potomac Estuary to Change
- 2. Bill Dennison PPT SAV SYN summary
- 3. WRTC and CBPC 2017 and 2018 Meeting Schedule

Reasonable accommodations are provided upon request, including alternative formats of meeting materials. For more information, visit: www.mwcog.org/accommodations or call (202) 962-3300 or (202) 962-3213 (TDD)
