..... Andrew Austin, DTP
The TIP is a complex technical document that provides a multi-modal listing of the numerous projects, studies and programs throughout the region for which the obligation of federal funds has been programmed. While it provides a medium for local elected officials, agency staff, and interested members of the public to review and comment on the project funding priorities, a more “user-friendly” guide and summary of the TIP is desirable. Staff will brief the Committee on the final version of the summary guide for the FY 2013-2018 TIP.
