

Be Safe. Be Seen. Be Street Smart.

Safety Tips for Pedestrians

Make it easier for drivers to see you, especially at night.
Wear light-colored clothing or something reflective.

Cross at the corner.

That's where drivers expect to see you.

Watch for turning vehicles.

Look left, right and left again before you cross.

When you're crossing the street, be sure drivers see you.

Make eye contact - see them see you.
