Dear Mr. Harrington:

This letter transmits the following information in response to your letter request of July 23, 2004:

1. Two sets of draft highway and transit networks, input, control, support and TP+ script files and software to run the demographic sub-models and accomplish trip generation, trip distribution, mode choice and trip assignment using the COG/TPB Travel Forecasting Model Version 2.1D (**DRAFT # 28**), for three time periods for the simulation years of 1994, 2000 and 2030. The data are contained on two CD-R's, each labeled "CGV21D\_28X".

**Please note that generic file names are used in these model runs, so it is recommended that data for each simulation year be kept in separate directories.**

2. Two copies of the following document:
  - a. A memorandum to the files by Ron Milone, dated July 30, 2004, titled "*Transmittal of Version 2.1D (DRAFT # 28) Model*".

If there are any questions concerning these data, please contact Mr. Ron Milone at (202) 962-3283.

Sincerely,

Ronald F. Kirby
