Re: **New Report: Commuter Records Marked as Deleted**

COG/TPB staff has added an additional report to the bi-weekly and monthly reports that are distributed to all Commuter Connections client members. The new report title is "Commuter Records Marked as Deleted." This report contains a listing of all commuter records that did not respond to our multiple attempts to renew their registrations. All Rideshare Coordinators and staff should review the report to ensure commuters are not mistakenly dropped from the database.

The Suspicious APP CODE and call list for January 2010 have been included also.

As always, please make sure to update APP CODES if they have changed over the lifespan of the commuter's record. If you have any questions or need additional information, please don't hesitate to ask. I may be reached at sfinafrock@mwkog.org or on 202-962-3385.
