Freight Analysis Framework (FAF)

Version 3.5

- ❑ Publicly available dataset developed by the FHWA Office of Freight Management and Operations
- ❑ Integrates data from a variety of sources including the US Census Bureau's 2007 Commodity Flow Survey
- ❑ Provides estimates for tonnage, value, and domestic ton-miles by region of origin and destination, commodity type, and mode for 2007 and forecasts through 2040

• 35

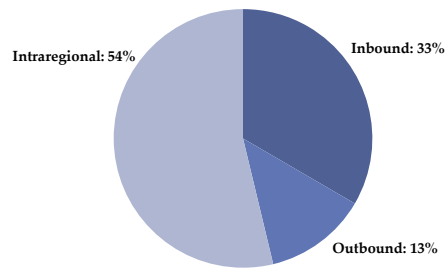

Preliminary FAF Analysis

Total Freight Flows by Direction - 2007

	Inbound	Outbound	Intraregional	Sum
Thousands of tons	70,552	27,173	113,589	211,314
Millions of 2007 dollars	\$105,752	\$41,200	\$93,616	\$240,568

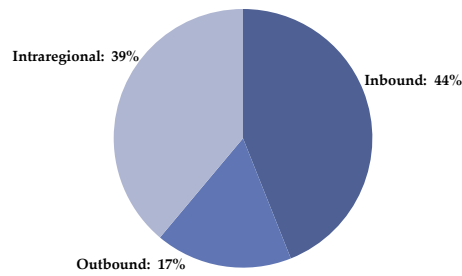

Preliminary FAF Analysis

Total Freight Flows by Direction – 2007 by weight

Preliminary FAF Analysis

Total Freight Flows by Direction – 2007 by value
